List of Contributing Authors.....	XXI
List of Editors	XXXI
Chapter 1: Social and Economic Development and Change	1
Policy Options for Stabilising the Forest Frontier: A Global Perspective.....	3
Sven Wunder	3
1 Introduction	3
2 Definitions: Deforestation and Forest Degradation	4
2.1 Deforestation.....	4
2.2 Frontier Deforestation.....	4
2.3 Forest Degradation.....	5
3 Theoretical Framework	6
4 Economic Models of Tropical Deforestation	8
4.1 Effects of Price Changes.....	9
4.2 Factors Affecting Costs.....	9
4.3 Land Tenure.....	10
5 The Role of Agricultural Technology	11
6 Comparing Macro-Economic Links	13
6.1 The General Picture: Economic Growth and Poverty	14
6.2 The Role of Trade and Foreign-Exchange Inflows.....	14
6.3 What Policies Hurt Forests?.....	15
6.4 What Policies Protect Forests?.....	16
7 What Does This Mean for Indonesia?	18
7.1 Screening the Main Deforestation Drivers.....	18
7.2 New Order Policies and Development Strategies	19
7.3 Forest Lost and Converted.....	19
8 Conclusion and Policy Recommendations	21
8.1 Reduce Land Extensification	22
8.2 Create a Conservation-Conducive Macro-Level Context	22
References	23
Forest Margin Protection and Community Involvement.....	27
Sediono M.P. Tjondronegoro.....	27
1 Introduction	27
2 Conversion of Forest Areas	28
3 Illegal Logging	29
4 Government Initiatives	30
5 NGOs Role	30

6 Social Organization	31
7 Forest Fires	32
8 Community Forestry	33
9 Conclusion	33
References and Other Literature that was Consulted	34

Historical Impacts on Use and Management of Natural Resources in the Rainforest Margins of Central Sulawesi 39

Werner Kreisel, Robert Weber & Heiko Faust	39
1 Introduction	39
2 The Theoretical Approach on Cultural Landscape	40
3 Methodology	42
4 Regional Demographic Overview	44
5 The Core Phases of Historical Impacts	48
5.1 Pre-Colonial Period	48
5.2 Dutch Rule	48
5.3 Japanese Rule	51
5.4 Independence	51
6 The Regional Differentiation of Historical Impacts on Sub District and Village Level – Two Examples	53
6.1 Characteristics of Kulawi	53
6.2 Characteristics of Palolo	56
7 Discussion and Conclusion	59
References	62

Robo and the Water Buffalo: The Lost Souls of the Pekurehua of the Napu Valley 67

Satyawan Sunito	67
1 Introduction	67
2 Methodological Considerations	68
3 Research Site	69
4 Adaptation System of the Direct Past	70
5 The Robo Social Organization	72
5.1 Definition of Robo	72
5.2 Robo Membership and Leadership	73
5.3 Robo as a Mutual-Help Organization	75
5.4 Robo as Center of Social and Ritual Life	76
5.5 The Role of the Robo in Strengthening the Social Structure	77
6 The Water Buffalo	78
6.1 Tenure and System of Husbandry	78
6.2 The Water Buffalo in the Production System	80
6.3 The Water Buffalo in the Social and Ritual Life	80
6.4 The Role in Maintaining the Social Structure	82
7 The End of the Robo and Water Buffalo	84
8 Discussion	85
References	88

<i>Orang Kampung and Pendatang: Analysis of Demographic Structure and Migration in Two Forest-Margin Villages, Central Sulawesi</i>	89
Melani Abdulkadir-Sunito	89
1 Introduction	89
2 Setting of Research.....	90
3 Methods.....	91
4 Results	92
5 Conclusion.....	102
References	103
 <i>“Revolusi coklat”: Social Formation, Agrarian Structure, and Forest Margins in Upland Sulawesi, Indonesia</i>	105
MT Felix Sitorus	105
1 Introduction	105
2 Sintuwu: A Multi-Ethnic Village	106
3 “ <i>Revolusi Cokelat</i> ”: The Change of Social Formation	108
4 Structural Change: “New Landed” and “New Landless”	111
5 Forest Margins: Alternative Bases of Socio-Economic Security	114
6 Concluding Remarks	116
References	118
 Traditional Land Tenure among the Black Thai and its Implication on the Land Allocation in Yen Chau District, Son La Province, Northwest Vietnam	119
Thomas Wirth, Dao Chau Thu & Andreas Neef.....	119
1 Introduction	119
2 Material and Methods.....	120
3 Development of the Traditional Land Tenure System from 1900 to De-	
collectivisation	122
4 The Land Allocation Process – Equity Issues	124
5 Main Stakeholders in the Land Allocation Process – Institutional	
Pluralism	126
6 Outcome of the Land Allocation Process – Coexistence between	
Traditional and Official Tenure Systems.....	128
7 Conclusions and Outlook	132
8 Acknowledgements	133
References	133
 Local Ethnic Minority Networks for Sustainable Resource Management: The Pang Ma Pha Hilltribe Network Organization in Northern Thailand	135
Hans-Dieter Bechstedt & Patcharin Nawichai	135
Preliminary Remarks.....	135
1. Networks and Networking.....	136
1.1 Definition.....	136
1.2 Types of Networks.....	136
1.3 Benefits of Networks	137

2 The Pang Ma Pha Hilltribe Network Organization (Mae Hong Son Province, Northern Thailand).....	139
2.1 Background.....	139
2.2 The PMP Network History	141
2.3 The PMP Network Today	142
3 Challenges and Lessons Learned – An Evaluation	143
3.1 Establishing Objectives and Activities	143
3.2 Membership, Steering Committee and the Challenge of Domination.....	144
3.3 Participation and Legitimacy	146
3.4 Funding	148
3.5 Non-financial Support and Linkages	150
3.6 Development Stages	152
3.7 Monitoring and Evaluation	153
3.8 Political Potentials and Constraints	154
4 Conclusions	155

 Creating Political Capital to Promote Devolution in the Forestry Sector - A Case Study of the Forest Communities in Banyumas District, Central Java, Indonesia	159
Slamet Rosyadi, Regina Birner & Manfred Zeller	159
1 Introduction	159
2 Theoretical Framework	160
2.1 The Concept of Social Capital.....	160
2.2 The Concept of Political Capital.....	161
2.3 Using Social Capital to create Political Capital.....	162
3 Research Area and Methods.....	162
3.1 Profile of the Research Area.....	162
3.2 Methods	163
4 Forest Management Problems and the Struggle for Devolution	163
4.1 Problems of Forest Management in Banyumas District	163
4.2 The Struggle for Devolution	165
5 Analysis of the Policy Process	166
5.1 Social Capital of the Proponents.....	166
5.2 Social Capital of the Opponents	167
6 The Creation of Political Capital.....	168
6.1 Political Capital of the Proponents	170
6.1 Political Capital of the Proponents	171
6.2 Political Capital of the Opponents	172
7 Discussion	173
8 Concluding Remarks	175

Predicting Losses of Bird Species from Deforestation in Central Sulawesi .	327
Matthias Waltert, Maike Langkau, Miet Maertens, Michael Härtel, Stefan	
Erasmi & Michael Mühlenberg	327
1 Introduction	327
2 Study Area	328
3 Methods	328
3.1 Bird Community and Altitudinal Range Data	328
3.2 Digital Elevation and Remote Sensing Data	329
3.3 Predicting Extinctions	330
4 Results	331
4.1 Habitat, Geographic Range and Altitudinal Distribution of Bird	
Species	331
4.2 Extent of Closed Forest below 1,200 m	333
4.3 Predicting Species Losses	334
5 Discussion	335
5.1 Predicting Species Loss from Deforestation	335
5.2 Empirical Evidence of Bird Extinctions after Fragmentation	336
5.3 Which Species are Most Threatened?	336
6 Conclusion	337
7 Acknowledgements	338
8 Keywords	338
References	338
Chapter 3: Water and Nutrient Cycles, Land-Use Systems and Modelling	351
The Effects of Rainforest Conversion on Water Balance, Water Yield and	
Seasonal Flows in a Small Tropical Catchment in Central Sulawesi, Indonesia	353
Alexander Kleinhans & Gerhard Gerold	353
1 Introduction	353
2 Methodology	355
2.1 General Site Description	355
2.2 Experimental Watershed with Catchment Sections	356
2.3 Experimental Design and Data Analyses	356

3 Results and Discussion	358
3.1 Precipitation	358
3.2 Runoff	358
3.3 Water Yield Changes	361
3.4 Evapotranspiration	362
4 Conclusion	363
5 Acknowledgements	363
References	364
 Water Tenure in Highland Watersheds of Northern Thailand: Tragedy of the Commons or Successful Management of Complexity?	367
Andreas Neef, Liane Chamsai, Martina Hammer, Apai Wannitpradit, Chapika Sangkapitux, Yeeb Xyooj, Prapinwadee Sirisupluxuna & Wolfram Spreer ..	367
1 Introduction	367
2 Common-Pool Resources and Property Regimes – Theoretical Considerations	368
2.1 Misconceptions of Common-Pool Resources	368
2.2 Complexity of Water Rights and Legal Pluralism	369
3 Case Study of Mae Sa Watershed, Chiang Mai Province, Northern Thailand	370
3.1 Material and Methods	370
3.2 Management of Water Resources at the Community and Farm Household Level	371
3.3 External Interventions in Water Management and Upstream-Downstream Water Competition	384
4 Conclusions	388
5 Acknowledgement	389

 Growth and Phosphorus Nutrition of Maize in Pot and Field Experiments as Affected by other Plants Grown in Association or in Rotation	391
Alexander zu Dreele, Hanadi El Dessougi, Gary Schlosser, Juergen Kroschel & Norbert Claassen	391
1 Introduction	391
2 Materials and Methods	392
2.1 Pot Experiments	392
2.2 Field Experiment	394
3 Results and Discussion	394
3.1 Mixed –Cropping	394
3.2 Rotation	401
References	405
 Adaptability Analysis and Risk Assessment of N Fertilizer Application to Maize in the Napu Valley of Central Sulawesi, Indonesia	409
Jürgen Anthofer, Garry Schlosser, Jürgen Kroschel & Norbert Claassen	409
1 Introduction	409

XVIII

2 Materials and Methods.....	410
2.1 On-Farm Experimentation	410
2.2 Parameters	411
2.3 ANOVA and Linear Contrasts.....	411
2.4 Adaptability Analysis	411
2.5 Risk Assessment of Mean Grain Yield.....	414
2.6 Probability of Yield Falling Below a Critical Level.....	414
2.7 Probability of One Treatment Outperforming Another One.....	414
3 Results.....	415
3.1 ANOVA and Linear Contrasts.....	415
3.2 Adaptability Analysis	415
3.3 Risk Assessment of Mean Grain Yields	416
3.4 Probability of Yield Falling Below a Critical Level.....	419
3.5 Probability of One Technology Outperforming Another Technology.....	422
4 Discussion and Conclusions	422
