

Contents

PART 1: GENERAL ASPECTS OF STATISTICAL QUALITY CONTROL

A Note on the Quality of Statistical Quality Control Procedures E. v. Collani	3
Statistical Decisions in Quality Audits – a Possibilistic Interpretation of Single Statistical Tests O. Hryniewicz	15
Dynamic Link Library and Electronic Book for Statistical Quality Control A. Takeuchi, K. Suenaga, H. Yadohisa, K. Yamaguchi, M. Watanabe, Ch. Asano	28

PART 2: ON-LINE CONTROL

Single Sampling Plans for Inspection by Variables under a Variance Component Situation P.-Th. Wilrich	43
Joint Determination of Economic Design of $\bar{X}$ - Control Charts, Economic Production Quantity, and Production Run Length for a Deteriorating Production System K.K. Lam, M.A. Rahim	58
The Robustness and Performance of CUSUM Control Charts Based on the Double-Exponential and Normal Distributions Z.G. Stoumbos, M.R. Reynolds, Jr.	79
An Application of Confirmation Sample Control Chart in the High-Yield Processes and Its Economic Design H. Ohta, E. Kusakawa	101
Statistical Design of Attribute Charts for Monitoring and Continuous Improvement When Count Levels Are Low E.M. Saniga, D.J. Davis, J.M. Lucas	119
A Markov Approach to the Average Run Length of CUSUM Charts for an AR(1) Process K. Nishina, Sh. Matsubara	130
Effective Monitoring of Processes with Parts Per Million Defective. A Hard Problem! St.H. Steiner, R.J. MacKay	140
On Monitoring Processes and Assessing Process Capability under a Hierarchical Model, Part 1 P. Thyregod, H. Melgaard, J. Iwersen	150

On Monitoring Processes and Assessing Process Capability under a Hierarchical Model, Part 2 P. Thyregod, J. Iwersen, H. Melgaard	168
SPC Monitoring and Variance Estimation C. Alexopoulos, D. Goldsman, K.-L. Tsui, W. Jiang	194
Control Charts for Time Series: A Review S. Knoth, W. Schmid	210
A Note on Stochastic Ordering Criteria in SPC for the Case of Correlated Output M.C. Morais, A. Pacheco	237

PART 3: OFF-LINE CONTROL

A New Statistical Tool for Finding Causal Conditions for Small Data Sets and Its Software K. Yamaguchi, Y. Kono, Ch. Asano	263
What Has Data Mining Got to Do with Statistical Process Monitoring? A Case Study R. Sparks	270
Profile Analysis Based on Repeated Measurements – A New Approach to the Analysis of Interaction Ch. Hirotsu, E. Ohta	282
Trouble-Shooting by Graphical Models H.-J. Lenz	296
An Alternative Expression of the Fractional Factorial Designs for Two-level and Three-level Factors Y. Ojima, T. Suzuki, S. Yasui	309

PART 4: STUDIES IN AREAS RELATED TO RELIABILITY

Building In Reliability. Is Statistical Process Control Statistical Reliability Control ? J. Prendergast, E. Murphy	319
Optimal Warranty Period when Sale-Price Increases with the Lower Specification Limit S.P. Ladany, H. Shore	335
Evaluation of Quality and Market Risk of Complex Industrial Products E. Solojentsev, E. v. Collani	346
