Preface	v
Contributors	ix
PART I: EPIDEMIOLOGY, BIOLOGY, GENETICS, AND PATHOLOGY	
1 Epidemiology of Brain Tumors <i>Randa El-Zein, Melissa Bondy, and Margaret Wrensch</i>	3
2 Molecular Genetics of Tumors of the Central Nervous System <i>C. David James</i>	19
3 Molecular Pathology of Nervous System Tumors <i>Catherine L. Nutt, Anat O. Stemmer-Rachamimov, J. Gregory Cairncross, and David N. Louis</i>	33
4 Genetic Modeling of Glioma Formation in Mice <i>Martin Begemann, Vinagolu K. Rajasekhar, Gregory N. Fuller, and Eric C. Holland</i>	55
5 Biology of Brain Metastasis <i>Minsoo Kang, Takamitsu Fujimaki, Seiji Yano, and Isaiah J. Fidler</i>	91
6 Analysis of Neural Precursor Cells in the Context of Origin of Brain Tumors, Their Treatment, and Repair of Treatment-Associated Damage <i>Mark Noble and Joerg Dietrich</i>	107
7 Biology of Primitive Neuroectodermal Tumors <i>John R. Hill, Shoichiro Ohta, and Mark A. Israel</i>	125
PART II: MECHANISMS AND PATHWAYS	
8 Molecular and Cellular Biology of the Blood–Brain Barrier and Its Characteristics in Brain Tumors <i>Helga E. de Vries, Lisette Montagne, Christine D. Dijkstra, and Paul van der Valk</i>	157
9 Immune Regulation in the Brain: <i>Lessons From Autoimmunity and Implications for Brain Tumor Therapy</i> <i>Lois A. Lampson</i>	175
10 Genetic Pathways in the Evolution of Gliomas <i>Hiroko Ohgaki and Paul Kleihues</i>	207
11 DNA Damage and Repair in the Therapeutic Response of Tumors of the Central Nervous System <i>Henry S. Friedman, M. Eileen Dolan, and Francis Ali-Osman</i>	223

12	Role of Urokinase-Type Plasminogen Activator Receptor in Human Glioma Invasion <i>Sanjeeva Mohanam and Jasti S. Rao</i>	237
13	Regulation of Cell Cycle and Apoptosis in Human Brain Tumors <i>Juan Fueyo, Candelaria Gomez-Manzano, and Timothy J. McDonnell</i>	249
PART III: THERAPEUTICS		
14	Systemic Chemotherapy for Metastatic Tumors of the Central Nervous System <i>Charles A. Conrad and W. K. Alfred Yung</i>	267
15	Radiation Biology and Therapy of Tumors of the Central Nervous System <i>Nalin Gupta, John R. Fike, Penny K. Sneed, Philip J. Tofilon, and Dennis F. Deen</i>	279
16	Advances in the Management of Cerebral Metastases <i>Fadi Hanbali and Raymond Sawaya</i>	307
17	Immunotherapy of Central Nervous System Tumors: <i>Contemporary Cancer Research</i> <i>Amy B. Heimberger, David A. Reardon, Darell D. Bigner, and John H. Sampson</i>	323
18	Targeting Drugs to Tumors of the Central Nervous System <i>Maciej S. Lesniak, James Frazier, and Henry Brem</i>	343
19	Rational Design and Development of Targeted Brain Tumor Therapeutics <i>Francis Ali-Osman, Henry S. Friedman, Gamil R. Antoun, David Reardon, Darell D. Bigner, and John K. Buolamwini</i>	359
	Index	383
