

# Contents

<b>1</b>	<b>Introduction .....</b>	<b>1</b>
1.1	Avian Migration and Navigation .....	1
1.2	Why Investigate Domestic Homing Pigeons? .....	2
1.3	On Terms and Definitions .....	4
<b>2</b>	<b>Observation Data Used to Investigate Pigeon Homing .....</b>	<b>7</b>
2.1	Initial Orientation .....	7
2.2	Homing Performance .....	11
2.3	Homing Routes .....	12
2.4	Recoveries .....	15
2.5	Cage Experiments .....	16
<b>3</b>	<b>Basic Features of Pigeon Homing .....</b>	<b>17</b>
3.1	Homing of Inexperienced Pigeons .....	18
3.1.1	Peculiarities of Initial Orientation .....	18
3.1.2	The Problem of Motivation .....	23
3.1.3	Limited Significance of Exercise Flights at Home .....	26
3.2	Experience Gained by Homing Flights .....	29
3.2.1	Number and Range of Previous Homing Flights .....	30
3.2.2	Directions of Previous Homing Flights .....	33
3.2.3	Familiarity with the Release Site or Area .....	36
3.3	Temporal Variability .....	38
3.3.1	Annual Periodicity .....	38
3.3.2	Aperiodic Fluctuations .....	41
3.4	Accuracy of Homeward Orientation .....	42
3.4.1	Distance of Displacement .....	42
3.4.2	Geographical Variability .....	43
3.4.3	Distraction by Landscape Configurations .....	44
3.4.4	Stochastic Noise .....	46
3.5	Spatial Range of Pigeon Homing .....	46
3.6	Multiple and Mobile Home Sites .....	47
3.7	Conclusions and Perspectives .....	48
3.7.1	Home-Related and Home-Independent Components of Initial Orientation .....	48
3.7.2	Motivation, Selection and Homing Experience .....	50
3.7.3	Inaccuracy and Variability of Homing Orientation .....	51

<b>4</b>	<b>Potential Input Signals Exploitable for Home-Finding .....</b>	<b>53</b>
4.1	Directional References .....	53
4.2	Indicators of Position .....	54
4.2.1	Motion-Bound Signals .....	54
4.2.2	Location-Bound Signals .....	54
<b>5</b>	<b>The Role of the Sun .....</b>	<b>59</b>
5.1	Effects of Shifting the Birds' Circadian Clock .....	59
5.2	Linkage Between Sun Compass and Map .....	64
5.3	Orientation Under Overcast Skies .....	66
5.4	Conclusions and Perspectives .....	68
<b>6</b>	<b>The Role of the Geomagnetic Field .....</b>	<b>69</b>
6.1	Effects of Artificial Magnetic Fields .....	69
6.1.1	Magnets or Coils During Flight .....	69
6.1.2	Magnetic Fields Before Release .....	73
6.2	Geomagnetic Irregularities .....	77
6.2.1	Spatial Magnetic Anomalies .....	77
6.2.2	Temporal Magnetic Fluctuations .....	78
6.3	Conclusions and Perspectives .....	78
6.3.1	The 'Interference with the Stress' Issue .....	79
6.3.2	The 'Magnetic Compass' Issue .....	80
6.3.3	The 'Magnetic Map' Issue .....	81
6.3.4	The 'Path Integration' Issue .....	82
6.3.5	The 'Magnetic Sense' Issue .....	82
6.3.6	Overall Conclusions and Outlook .....	85
<b>7</b>	<b>The Role of the Chemical Atmosphere .....</b>	<b>87</b>
7.1	Effects of Olfactory Deprivation .....	87
7.1.1	Olfactory Nerve Section .....	88
7.1.2	Inactivation of the Olfactory Epithelium by Zinc Sulphate ....	92
7.1.3	Nasal Anaesthesia .....	93
7.1.4	Occlusion of Nostrils .....	94
7.1.5	Insertion of Nasal Tubes .....	96
7.2	Dependence on the Air the Pigeons Breathe .....	96
7.2.1	Removal of Trace Gases by Filtration .....	96
7.2.2	Air from Different Environments .....	99
7.3	Olfactory Misguidance .....	101
7.3.1	Spatial Separation of Sites of Air-Smelling and Release .....	101
7.3.2	Outward-Journey Detours .....	104
7.3.3	Natural Olfactory Misguidance .....	105
7.4	Spatial Range and Variability of Olfaction-Based Homing .....	107
7.4.1	Distance Range and Efficiency in Different Regions .....	107
7.4.2	Temporal Variability .....	110

7.5	Varying Home Site Conditions in Aviary Experiments .....	111
7.5.1	Shielding, Deflecting and Reversing Winds .....	111
7.5.2	Applying Artificial Odours and Winds .....	118
7.5.3	A Digression to the Preferred Compass Direction (PCD) ....	119
7.6	Spatial Structures in the Chemical Atmosphere .....	120
7.6.1	A Working Hypothesis .....	120
7.6.2	Gradients in Ratios of Trace Gases .....	123
7.6.3	Applicability of Atmospheric Gradients to Navigation .....	128
7.6.4	Assumed Dependence on Geographical Peculiarities .....	131
7.6.5	The Short Distance/Long Distance Problem .....	133
7.7	Avian Olfactory Perception: A Suitable Tool for Navigation? .....	136
7.7.1	The Problem of Sensitivity .....	136
7.7.2	The Problem of Odour Discrimination .....	137
7.7.3	The Problem of Compound Selection .....	137
7.7.4	The Problem of Adaptation/Habituation .....	138
7.8	Arguments Against Olfactory Navigation – and Replies .....	138
7.8.1	Intuitive Incredibility .....	138
7.8.2	Potential Non-Specific Side Effects .....	139
7.8.3	Inconsistent Results .....	140
7.9	Conclusions and Perspectives .....	143
7.9.1	Experimental Evidence of Olfactory Navigation .....	143
7.9.2	How Does Olfactory Navigation Operate? .....	144
7.9.3	Do Pigeons Have an Olfactory Map? .....	144
7.9.4	Unsolved Problems – Remaining Challenges .....	146
<b>8</b>	<b>The Role of the Visual Landscape.....</b>	<b>149</b>
8.1	The Landscape as a Home-Guiding Factor .....	149
8.1.1	Non-Olfactory Homing .....	149
8.1.2	Downgrading of Visual Signals .....	152
8.1.3	Homing with Olfaction and Vision Impaired .....	153
8.1.4	Interrelations Between Landscape and Sun Compass .....	155
8.2	The Landscape as a Disturbing Factor .....	157
8.3	Conclusions and Perspectives .....	159
<b>9</b>	<b>The Neural Bases of Pigeon Homing .....</b>	<b>161</b>
9.1	The Hippocampus and the Familiar-Landscape Map .....	161
9.2	The Hippocampus and the Olfactory Map .....	165
9.3	The Piriform Cortex and the Olfactory Map .....	166
9.4	Roles of Other Brain Regions and Hemispheric Lateralization .....	167
9.5	Conclusions and Perspectives .....	167
<b>10</b>	<b>Homing in Other Birds .....</b>	<b>169</b>
10.1	Experimental Approaches .....	169
10.1.1	Brief Overview .....	169

10.1.2	Compass Orientation and Preferred Compass Directions ...	171
10.1.3	Goal-Oriented Navigation .....	173
10.2	Homing in Natural Life .....	176
10.2.1	Non-Migratory Excursions .....	177
10.2.2	Homing as a Constituent of Bird Migration .....	179
10.3	Conclusions and Perspectives .....	181
<b>11</b>	<b>Research History: Blind Alleys and an Unexpected Passage .....</b>	<b>183</b>
<b>12</b>	<b>Overall Synthesis and Perspective .....</b>	<b>187</b>
12.1	Environmental Cues Involved in Home-Finding Processes .....	187
12.2	Two Homing Mechanisms .....	188
12.3	Challenges for Future Research .....	189
12.3.1	Unsettled Basics of Pigeon Homing .....	189
12.3.2	Problems of Visual Landscape Orientation .....	190
12.3.3	Problems of Olfactory Navigation .....	191
12.4	Outlook .....	192
	<b>Appendix: Notes on Selected Particulars .....</b>	<b>195</b>
	<b>References .....</b>	<b>205</b>
	<b>Subject Index .....</b>	<b>225</b>

Avian Navigation: Pigeon Homing as a Paradigm

Wallraff, H.G.

2005, XII, 229 p., Hardcover

ISBN: 978-3-540-22385-6
