

## Table of Contents

<b>1 Eutrophication and the Ecosystem .....</b>	<b>1</b>
1.1 Background.....	1
1.2 Eutrophic and Eutrophicated Waters.....	2
1.3 Trophic Cascades in Freshwaters .....	5
1.4 Eutrophicated Waters: Disturbed Trophic Cascades .....	13
<b>2 Daphnid Grazing Ecology.....</b>	<b>21</b>
2.1 Daphnids and Their Ecological Role .....	21
2.2 Daphnid Grazing Effectiveness – Concept and Measurement .....	38
2.3 Modelling Daphnid Grazing Effectiveness .....	49
<b>3 Toxic Reduction of Daphnid Grazing Effectiveness .....</b>	<b>57</b>
3.1 Daphnid Ecotoxicology.....	57
3.2 Observations from Mesocosm Studies .....	62
3.3 Daphnid Grazing Effectiveness in Response to Toxicant Exposure .....	72
<b>4 Field Observations of Daphnid Grazing .....</b>	<b>81</b>
4.1 Two Different Lakes in Holland .....	81
4.2 The Plankton Dynamics in Lake Geestmerambacht .....	82
4.3 The Plankton Dynamics in Lake Amstelmeer .....	89
4.4 What Can Be Learned from These Lakes? .....	91
<b>5 New Perspectives for Eutrophication Management.....</b>	<b>97</b>
5.1 A New Dimension in Lake Eutrophication Management .....	97
5.2 How to Address Ecotoxicology in Eutrophication Management.....	102
5.3 Epilogue .....	108
<b>Acknowledgements .....</b>	<b>111</b>
<b>References .....</b>	<b>113</b>

Eutrophication Management and Ecotoxicology

Scholten, M.C.T.; Foekema, E.M.; Dokkum, H.P.; Kaag,  
N.H.B.M.; Jak, R.G.

2005, V, 122 p., Hardcover

ISBN: 978-3-540-22210-1
