## Contents

<b>A Particle Strategy for Solving the Fokker-Planck Equation Modelling the Fiber Orientation Distribution in Steady Recirculating Flows Involving Short Fiber Suspensions</b> <i>Amine Ammar, Francisco Chinesta</i> . . . . .	1
<b>Extended Meshfree Method for Elastic and Inelastic Media</b> <i>Jiun-Shyan Chen, Dongdong Wang</i> . . . . .	17
<b>Meshfree Petrov-Galerkin Methods for the Incompressible Navier-Stokes Equations</b> <i>Thomas-Peter Fries, Hermann Georg Matthies</i> . . . . .	39
<b>The <math>\alpha</math>-shape Based Natural Element Method in Solid and Fluid Mechanics</b> <i>D. González, I. Alfaro, E. Cueto, M. Doblaré, F. Chinesta</i> . . . . .	55
<b>A Particle-Partition of Unity Method Part VI: A <math>p</math>-robust Multilevel Solver</b> <i>Michael Griebel, Peter Oswald, Marc Alexander Schweitzer</i> . . . . .	71
<b>Enriched Reproducing Kernel Approximation: Reproducing Functions with Discontinuous Derivatives</b> <i>Pierre Joyot, Jean Trunzler, Fransisco Chinesta</i> . . . . .	93
<b>Reproducing Kernel Element Interpolation: Globally Conforming <math>I^m/C^n/P^k</math> Hierarchies</b> <i>Shaofan Li, Daniel C. Simkins, Hongsheng Lu, Wing Kam Liu</i> . . . . .	109
<b>Multi-scale Analysis Using Two Influence Radii in EFGM</b> <i>Sachiko Masuda, Hirohisa Noguchi</i> . . . . .	133

<b>Solution of a Dynamic Main Crack Interaction with a System of Micro-Cracks by the Element Free Galerkin Method</b> <i>Boris Muravin, Eli Turkel, Gregory Muravin</i> .....	149
<b>Finite Cover Method for Physically and Geometrically Nonlinear Problems</b> <i>Kenjiro Terada, Mitsuteru Asai</i> .....	169
<b>A Numerical Scheme for Solving Incompressible and Low Mach Number Flows by the Finite Pointset Method</b> <i>Sudarshan Tiwari, Jörg Kuhnert</i> .....	191
<b>SPH Renormalized Hybrid Methods for Conservation Laws: Applications to Free Surface Flows</b> <i>Jean Paul Vila</i> .....	207
<b>Discontinuous Radial Basis Function Approximations for Meshfree Methods</b> <i>Jingxiao Xu, Ted Belytschko</i> .....	231
<b>Treating Moving Interfaces in Thermal Models with the C-NEM</b> <i>Julien Yvonnet, David Ryckelynck, Philippe Lorong, Francisco Chinesta</i> .....	255
<b>Bridging Scale Particle and Finite Element Methods</b> <i>Wing Kam Liu, Lucy T. Zhang, Eduard G. Karpov, Hiroshi Kadowaki, Harold Park</i> .....	271
<b>Appendix. Color Plates</b> .....	291

Meshfree Methods for Partial Differential Equations II

Griebel, M.; Schweitzer, M.A. (Eds.)

2005, IX, 311 p., Softcover

ISBN: 978-3-540-23026-7
