
Brief Contents

Part I Global and general perspectives on the Convention on Biological Diversity

Global Conservation of Biodiversity from an Economic Point of View <i>Rainer Marggraf</i>	3
---	---

Financial support for biodiversity protection in developing countries – does the CBD mechanism lead to an appropriate level of biodiversity protection? <i>Susanne Menzel</i>	23
---	----

The Cartagena Protocol: trade related measures as a means to protect biological diversity from risks deriving from genetically modified organisms <i>Alexander Behrens</i>	43
--	----

Policy-Windows for the Declaration of Protected Areas – A Comparative Case Study of East Germany and Guatemala <i>Heiko Garrelts, Regina Birner, Heidi Wittmer</i>	65
--	----

Will companies engage in the conservation of biodiversity? A prototypical model of aggregated pro-biodiverse actions of industrial companies <i>Ralph Buse</i>	85
--	----

Part II Local, regional and nationwide perspectives on the Convention on Biological Diversity: Examples from Germany

Problems and Prospects of the Conservation of Biodiversity in Germany <i>Matthias Schaefer</i>	107
--	-----

The Designation of National Parks in German Nature Conservation Law <i>Tobias Hellenbroich</i>	133
--	-----

Conservation management of target species or conservation of processes – Winners and losers of two different conservation strategies	
<i>Judith Rothenbücher, Kai Bentlage, Peter Just</i>	155
Valuation of ecosystem services provided by biodiversity conservation: an integrated hydrological and economic model to value the enhanced nitrogen retention in renaturated streams	
<i>Ingo Bräuer</i>	193
Towards sustainable land use: Public demand for plant diversity in agricultural landscapes of central Germany	
<i>Anke Fischer</i>	205
Narrating diversity: Plants, personal knowledge and life stories in German home gardens	
<i>Anne Holl</i>	221
Aspects of bird valuation in Brandenburg-Prussia: Towards the significance of socio-economic conditions for biodiversity perception between the 16th and 20th century	
<i>Johannes Klose</i>	249
<hr/>	
Part III Local, regional and nationwide perspectives on the Convention on Biological Diversity: Examples from Guatemala	
<hr/>	
Prospects and Challenges for Biodiversity Conservation in Guatemala	
<i>Regina Birner, Heidi Wittmer, Augustin Berghöfer, Michael Mühlenberg</i>	285
Calculating Incentives for Watershed Protection. A Case Study In Guatemala	
<i>María A. Máñez Costa, Manfred Zeller</i>	297
The cultural context of biodiversity conservation	
<i>Petra Maass</i>	315
Direct payments for conservation – the importance of environmental measures in farming systems for bird populations in a fragmented landscape. A case study in Guatemala	
<i>María A. Máñez Costa, Swen C. Renner</i>	343
Land use changes and abiotic aspects as basic conditions for conservation of biodiversity in a tropical montane cloud forest (Guatemala)	
<i>Michael Markussen, Swen C. Renner</i>	357

Human impact on bird diversity and community structure in a tropical montane cloud forest in Alta Verapaz, Guatemala, with special reference to the Quetzal (<i>Pharomachrus mocinno</i>)	
<i>Swen C. Renner, Michael Markussen</i>	373
What drives biodiversity loss in the land of trees? A review of the economic and historical parameters causing deforestation in Guatemala	
<i>Ludger-Josef Loening, Hermann Sautter</i>	391
<hr/>	
Part IV Epilogue: A general perspective on the evaluation of interdisciplinary research	
<hr/>	
Permanent Evaluation: An important tool for a quality assurance in interdisciplinary research	
<i>Philip W. Balsiger, Rudolf Kötter</i>	421

Valuation and Conservation of Biodiversity
Interdisciplinary Perspectives on the Convention on
Biological Diversity

Markussen, M.; Buse, R.; Garrelts, H.; Manez Costa, M.;

Menzel, S.; Marggraf, R. (Eds.)

2005, XXX, 430 p., Hardcover

ISBN: 978-3-540-24022-8
