## List of Contents

### **Genetic Comparison of the Rhabdoviruses from Animals and Plants**

*Z. F. Fu* . . . . . 1

### **Australian Bat Lyssavirus: A Recently Discovered New Rhabdovirus**

*D. Warrilow* . . . . . 25

### **Pathogenesis of Rabies**

*B. Dietzschold, M. Schnell, and H. Koprowski* . . . . . 45

### **Bovine Ephemeral Fever in Australia and the World**

*P. J. Walker* . . . . . 57

### **Fish Rhabdoviruses: Molecular Epidemiology and Evolution**

*B. Hoffmann, M. Beer, H. Schütze, and T. C. Mettenleiter* . . . . . 81

### **Reverse Genetics on Fish Rhabdoviruses: Tools to Study the Pathogenesis of Fish Rhabdoviruses**

*M. Brémont* . . . . . 119

### **Plant Rhabdoviruses**

*M. G. Redinbaugh and S. A. Hogenhout* . . . . . 143

### **Recombinant Rhabdoviruses: Vectors for Vaccine Development and Gene Therapy**

*S. Finke and K.-K. Conzelmann* . . . . . 165

**Subject Index** . . . . . 201
