

Contents

Chapter 1

Skills for the Rehabilitation Professional of the Future

Patricia Solomon, Sue Baptiste

New Skills for the Changing Practice Context	2
Self-directed and Lifelong Learning Skills	3
Evidence-based Practice Skills	4
Consultation Skills	5
Communication Skills	5
Professionalism and Ethical Decision Making	6
Barriers to Implementing Innovative Curricula	7
Conclusion	8
References	9

Chapter 2

Curriculum Development and Design

Sue Baptiste, Patricia Solomon

The Pedagogical Framework: Problem-based Learning	12
Approaching the Task of Curriculum Renewal	13
Where to Begin?	14
Designing Our New Programs	16
Redevelopment Within a Problem-based Learning Culture	18
Integration of Experiential Practice Preparation Within a Problem-based Learning Framework	18
Evaluation Within a Graduate Problem-based Learning Framework	19
Conclusion	20
References	22

Chapter 3

Strategies for Integrating Basic Sciences in Curriculum

Hallie Groves

Basic Sciences in an Integrated Curriculum: What to Learn? 24

Strategies for Integrating Basic Sciences into Innovative Curricula 25

Selecting Learning Resources 27

Facilitating the Learning of Basic Sciences 31

Special Issues for Facilitating the Learning of Anatomy 32

Evaluation of Basic Sciences Knowledge 34

Conclusion 35

References 36

Chapter 4

Developing Emerging Roles in Clinical Education

Bonny Jung, Patricia Solomon, Beverley Cole

Need for Innovations in Clinical Education 41

What Is the Role-emerging Placement? 42

What Are the Benefits? 43

What Are the Challenges? 44

Lessons Learned 46

Conclusion 48

Appendices

References 56

Chapter 5

Evidence-based Practice for the Rehabilitation Sciences

Patricia Solomon, Lori Letts

Current Views of the Rehabilitation Professions 61

Strategies for Developing an Evidence-based Culture 64

Problem-based Learning 64

 Problem Design 65

 Formulating Questions for Self-study 65

 Searching for Resources 68

Synthesis and Application to the Patient Problem	68
Evaluation	68
Clinical Skills Courses	69
Clinical Education	70
Specific Evidence-based Practice Courses	71
Conclusion	72
References	73

Chapter 6

Ethics

E. Lynne Geddes, Margaret Brockett

Ethics Education in Professional Programs	76
Incorporating Ethics into Physiotherapy and Occupational Therapy Curricula	77
Ethics Education in the Physiotherapy Program	78
Ethics Education in the Occupational Therapy Program	82
Interprofessional Collaboration	85
Lessons Learned	89
Faculty Involvement	89
Establishment of Learning Objectives	89
Maintaining and Adapting Content	89
Process and Format for Ethics Education	90
Role of the Tutor	91
Interprofessional Education	91
Student Barriers to Learning Ethics	92
Conclusions	92
References	93

Chapter 7

Interprofessional Education

Penny Salvatori, Patricia Solomon

Interprofessional Education in Rehabilitation Science at McMaster University	97
In the Beginning – Mohawk College to McMaster University 1980–1990	97
The BHSc OT and BHSc PT Programs 1990–2000	98
The MSc OT and MSc PT Programs 2000–Present	100

Summary/Lessons Learned	106
From the Institutional Perspective	106
From the Faculty/Curriculum Planning Perspective	107
From the Student Perspective	108
A Glimpse at the Future of Interprofessional Education at McMaster University	108
References	109

Chapter 8

Curricula to Promote Community Health

Julie Richardson, Lori Letts

Community Health/Community Practice in the Physiotherapy Program	114
Impetus for Change	114
Assessment, Communication, and Management of Risk	116
Physiotherapy Role as Educators of Health Promotion and Disease Prevention	116
Theories that Have Driven Models of Practice for Behavior Change in the Curriculum	117
The McMaster Experience (Physiotherapy)	118
Content for Problem-based Tutorials	118
Clinical Skills Laboratories – What Are the Skills that We Are Imparting for Community Practice?	119
Resource Sessions	121
Evaluation Methods	122
Challenges with this Curriculum	123
Future Development and Research	123
The McMaster Experience (Occupational Therapy)	123
Definitions of Community and Community Health	124
Models of Occupational Therapy in the Community	125
Examples from the Occupational Therapy Program	125
Term 1: Health, Wellness, and Occupation	126
Term 2: Person, Environment, and Occupation	126
Term 3: Disability, Development, and Occupation	127
Term 4: Youth and the Development of Self	127
Term 5: Adulthood and Disability	127
Term 6: Complexities of Contemporary Practice	128
Curriculum Overview	128
Challenges Related to Community and Community Health in the Occupational Therapy Curriculum	129

Conclusion	129
References	130

Chapter 9

Developing Communication Skills

Sue Baptiste, Patricia Solomon

Elements of Communication Skills	136
Teaching and Evaluating Communication Skills	138
Illustrations from McMaster University	139
Video, Audiotapes, and Standardized Patients in Simulated Interviews and Practice Interactions	139
Self-assessment and Self-awareness	140
Peer Tutoring to Promote Communication Skills	141
The Written Word	143
The Presented Word	144
Conclusion	144
References	145

Chapter 10

Developing Community Partnerships

Patricia Solomon, Sue Baptiste

Description of Clinical Faculty Positions	148
Why Establish a Unfunded Clinical Faculty Stream?	149
Other Community–University Initiatives	152
Joint Research and Evidence-based Practice Initiatives	152
Emerging Roles Fieldwork Placements	152
Development of Client Education Packages	153
Challenges and Strategies	153
Conclusion	155
References	155

Chapter 11

Evidence-based Admissions in Rehabilitation Science

Penny Salvatori

A Theoretical Framework for Student Selection 158

 Phase One 158

 Phase Two 158

 Phase Three 160

 Phase Four 160

Pre-admission Academic Grades 160

Autobiographical Submission 163

Personal Interview 166

Lessons Learned 170

Conclusions 171

References 172

Chapter 12

**Educational Preparation for Rural and Remote Practice:
The Northern Studies Stream**

Jennifer Cano, Elaine Foster-Seargeant

The Northern Studies Stream Program 176

The Context of Northern, Rural, and Remote Practice 177

 What is Rural? 177

 What Do You Need to Practice in a Rural Area? 178

 Recruitment and Retention 178

 Generalist as Specialist 179

 First Nations' Health Care Concerns as Part of Rural Practice 179

 Educational Initiatives for Northern, Remote, and Rural Practice 181

 Rural Fieldwork Experience 182

 Strategies for Coping with Isolation 182

 Sociocultural and Rural Practice Education 182

The Northern Studies Stream as a Comprehensive Program 182

 Native Healthcare Education 184

Outcomes 187

 Readiness for Practice Survey Results 187

 Recruitment Outcomes 187

 Retention Outcomes 188

Conclusion	188
References	189

Chapter 13

A Program Logic Model: A Specific Approach to Curriculum and Program Evaluation

Sue Baptiste, Lori Letts

External Context and Expectations for Accountability	192
Internal Demands and Expectations	193
Faculty Evaluation	193
Support for Fiscal Resources	193
Student Assessment/Evaluation	193
Course Evaluation	194
Evaluation Elements	195
Evaluation Processes in Place at McMaster University	196
Use of the Program Logic Model Approach	197
Understanding the Basic Structure	197
Developing the Model	198
Next Steps	202
Conclusion	202
References	203
 Subject Index	 205
