

Table of Contents

Computational Intelligence

An Approach for Conceptual Modeling and Extracting Expressive Semantics from Dance Videos	1
<i>K. Rajkumar, B. Ramadoss, and K. Ilango</i>	
BioPubMiner: Machine Learning Component-Based Biomedical Information Analysis Platform	11
<i>J.-H. Eom and B.-T. Zhang</i>	
A Linear Time Algorithm for Constructing Tree 4-Spanner in 2-Trees	21
<i>B.S. Panda and A. Das</i>	
Task Scheduling Algorithm for Interconnection Constrained Network of Heterogeneous Processors	31
<i>E. Ilavarasan, P. Thambidurai, and N. Punithavathi</i>	

Neural Networks

Detecting Topology Preserving Feature Subset with SOM	40
<i>A. Laha</i>	
Adaptive Neural Network-Based Clustering of Yeast Protein-Protein Interactions	49
<i>J.-H. Eom and B.-T. Zhang</i>	
Design of Neuro-fuzzy Controller Based on Dynamic Weights Updating	58
<i>A. Hafez, A. Alrabie, and A. Agarwal</i>	
Interval Computing in Neural Networks: One Layer Interval Neural Networks ...	68
<i>R.E. Patiño-Escarcina, B.R. Callejas Bedregal, and A. Lyra</i>	

Communication Networks

Design and Deployment of IP Virtual Private Networks: A Case Study	76
<i>C. Hota and G. Raghurama</i>	
QoS Driven Online Multicast Routing Algorithm	87
<i>R. Manoharan, P. Thambidurai, and S. Pradhiba</i>	
Software Radio Implementation of a Smart Antenna System on Digital Signal Processors for cdma2000	97
<i>K. Kucuk, M. Karakoc, and A. Kavak</i>	

An Efficient Cost Effective Location Management Scheme Based on Velocity Vector Information of Mobile Unit	107
<i>S. Nandi and M.K. Raushan</i>	

Integrated Computation, Communication and Control: Towards Next Revolution in Information Technology	117
<i>F. Xia, Z. Wang, and Y. Sun</i>	

Mobile and Adhoc Networks

Designing Mobile Distributed Virtual Memory System	126
<i>S. Bagchi</i>	

Efficient Grid Location Update Scheme for Mobile Ad Hoc Networks	137
<i>K.A.A. Omer and D.K. Lobiya</i>	

Power Optimization in Mobile Networks Using Genetic Algorithm to Guarantee QoS	147
<i>A.H. Salem and A. Kumar</i>	

Associativity Based Mobility-Adaptive K-Clustering in Mobile Ad-Hoc Networks	160
<i>C. Jayakumar and C. Chellappan</i>	

Self-organized Security Architecture for MANET	169
<i>P.P. Gnana Durai and R. Parthasarathy</i>	

Clock Synchronization in IEEE 802.11 Ad Hoc Networks	180
<i>S.S. Thakur, S. Nandi, D. Goswami, and R. Bhattacharjee</i>	

Security

Internet Banking – A Layered Approach to Security	190
<i>D.P. Dube and S. Ramanarayanan</i>	

On Reduction of Bootstrapping Information Using Digital Multisignature	198
<i>S. Ulanbek, A. Saxena, and A. Negi</i>	

SpamNet – Spam Detection Using PCA and Neural Networks	205
<i>A. Lad</i>	

TCP Based Denial-of-Service Attacks to Edge Network: Analysis and Detection	214
<i>V.A. Kumar and D. Sisalem</i>	

Network Intrusion Detection Using Wavelet Analysis	224
<i>S. Rawat and C.S. Sastry</i>	

Building a Secure and Highly Scalable Data Distribution System	233
<i>S. Mishra</i>	

Database

Performance of Distributed Optimistic Concurrency Control in Real-Time Databases	243
<i>J. Lindström</i>	

An Extension to ER Model for Top-Down Semantic Modeling of Databases of Applications	253
<i>S.K. Jain, M.M. Gore, and G. Singh</i>	

Overlaying Multiple Maps Efficiently	263
<i>R. Jampani, R. Thonangi, and P. Gupta</i>	

Software Engineering

Relational Schema Evolution for Program Independency	273
<i>Y.-G. Ra</i>	

Reliability Enhancement in Software Testing – An Agent-Based Approach for Complex Systems	282
<i>P. Dhavachelvan and G.V. Uma</i>	

MurO: A Multi-representation Ontology as a Foundation of Enterprise Information Systems	292
<i>R. Rifaieh, A. Arara, and A.N. Benharkat</i>	

A Tool to Automatically Detect Defects in C++ Programs	302
<i>S. Sarala and S. Valli</i>	

Implementation of Embedded Cores-Based Digital Devices in JBits Java Simulation Environment	315
<i>M.H. Assaf, R.S. Abielmona, P. Abolghasem, S.R. Das, E.M. Petriu, V. Groza, and M. Sahinoglu</i>	

Automatic Model Generation in Model Management	326
<i>A. Boronat, I. Ramos, and J.Á. Carsí</i>	

Signal and Image Processing

Contourlet Based Multiresolution Texture Segmentation Using Contextual Hidden Markov Models	336
<i>B.S. Raghavendra and P.S. Bhat</i>	

FPGA Based Implementation of an Invisible-Robust Image Watermarking Encoder	344
<i>S.P. Mohanty, R. Kumara C., and S. Nayak</i>	

Multi-agent Based User Access Patterned Optimal Content Allocation Method for Federated Video Digital Libraries	354
<i>R. Ponnusamy and T.V. Gopal</i>	

Optimizing Surplus Harmonics Distribution in PWM	366
<i>S. Hu and H. Huang</i>	

M-BCJR Based Turbo Equalizer	376
<i>P. Kumar, R.M. Banakar, and B. Shankaranand</i>	

Internet and WWW-Based Computing

YALXP: Yet Another Lightweight XPath Processor	387
<i>R.V.R.P. Kumar and V. Radha</i>	

Early Performance Modeling for Web Based Applications	400
<i>D.E. Geetha, T.V.S. Kumar, and K.R. Kanth</i>	

An Examination of Website Quality Dimensions in Australian e-Retailing: A Confirmatory Factor Analysis Approach	410
<i>S. Sinnappan and J. Carlson</i>	

Aspects of Pervasive Computing for Web Based Learning	419
<i>B. Ramadoss and S.R. Balasundaram</i>	

Author Index	427
