

# Table of Contents

## Database Systems

Database System Architecture – A Walk Through Time: From Centralized Platform to Mobile Computing – Keynote Address . . . . .	1
<i>Ali R. Hurson and Yu Jiao</i>	
Extending Wide-Area Replication Support with Mobility and Improved Recovery . . . . .	10
<i>Hendrik Decker, Luis Irún-Briz, Francisco Castro-Company, Félix García-Neiva, and Francesc D. Muñoz-Escóí</i>	
Extending Databases to Precision-Controlled Retrieval of Qualitative Information . . . . .	21
<i>Victor Polo de Gyves, Adolfo Guzman-Arenas, and Serguei Levachkine</i>	
An Approach for Solving Very Large Scale Instances of the Design Distribution Problem for Distributed Database Systems . . . .	33
<i>Joaquín Pérez O., Rodolfo A. Pazos R., Juan Frausto-Solís, Gerardo Reyes S., Rene Santaolaya S., Héctor J. Fraire H., and Laura Cruz R.</i>	

## Distributed and Parallel Algorithms

On the Abstraction of Message-Passing Communications Using Algorithmic Skeletons: A Case Study . . . . .	43
<i>Horacio González-Vélez</i>	
Implementing Distributed Mutual Exclusion on Multithreaded Environments: The Alien-Threads Approach . . . . .	51
<i>Federico Meza, Jorge Pérez R., and Yadran Eterovic</i>	
On Time Analysis of Random Walk Based Token Circulation Algorithms .	63
<i>Alain Bui and Devan Sohier</i>	
Architecture for Media Streaming Delivery over P2P Networks . . . . .	72
<i>Francisco de Asís López-Fuentes and Eckehard Steinbach</i>	
On the Role of Information Compaction to Intrusion Detection . . . . .	83
<i>Fernando Godínez, Dieter Hutter, and Raúl Monroy</i>	
A Hybrid Framework of RR Scheduler to Ensure Priority, Low Complexity and Delay with Relative Fairness . . . . .	98
<i>John Tsiligaridis and Raj Acharya</i>	

Data Hiding in Identification and Offset IP Fields .....	118
<i>Enrique Cauich, Roberto Gómez Cárdenas, and Ryouske Watanabe</i>	

Interpretation of UML Sequence Diagrams as Causality Flows .....	126
<i>Christophe Sibertin-Blanc, Omar Tahir, and Janette Cardoso</i>	

## Real-Time Distributed Systems

A Proposal for On-Line Reconfiguration Based upon a Modification of Planning Scheduler and Fuzzy Logic Control Law Response .....	141
<i>Héctor Benítez-Pérez, A. García-Zavala, and Fabian García-Nocetti</i>	

Integrated Tool for Testing Timed Systems .....	153
<i>Hacène Fouchal, Sébastien Gruson, Ludovic Pierre, Cyril Rabat, and Antoine Rollet</i>	

Conformance Testing of Real-Time Component Based Systems .....	167
<i>Abbas Tarhini and Hacène Fouchal</i>	

## Cooperative Information Systems

Modeling Multiple Interactions Using Coloured Petri Nets: A Case Study .....	182
<i>Francisco Camargo-Santacruz, Juan Frausto-Solís, and Fernando Ramos-Quintana</i>	

A Framework for Information Integration with Uncertainty .....	194
<i>Ali Kiani and Nematollaah Shiri</i>	

Model Fragmentation for Distributed Workflow Execution: A Petri Net Approach .....	207
<i>Wei Tan and Yushun Fan</i>	

An Online Component Deployment System for Dynamic Collaborative Sessions .....	215
<i>Emir Hammami, Thierry Villemur, and Khalil Drira</i>	

Complexity in Collaborative Online Socio-Interactionist Environments: A Good Reason for Distributed Systems .....	226
<i>Hilton José Silva de Azevedo and Edson Emílio Scalabrín</i>	

## Fault Tolerance

Injecting Communication Faults to Experimentally Validate Java Distributed Applications .....	235
<i>Gabriela Jacques-Silva, Roberto Jung Drebes, Taisy Silva Weber, and Eliane Martins</i>	

Implementing Rollback-Recovery Coordinated Checkpoints .....	246
<i>Clairton Buligon, Sérgio Cechin, and Ingrid Jansch-Pôrto</i>	

## Information Retrieval

An Identity-Based Model for Grid Security Infrastructure . . . . .	258
<i>Xiaoqin Huang, Lin Chen, Linpeng Huang, and Minglu Li</i>	
Lineage Tracing in Mediator-Based Information Integration Systems . . . . .	267
<i>Nematollaah Shiri and Ali Taghizadeh-Azari</i>	
Combining Sources of Evidence for Recognition of Relevant Passages in Texts . . . . .	283
<i>Alexander Gelbukh, NamO Kang, and SangYong Han</i>	
A Hierarchical and by Role Multi-agent Organization: Application to the Information Retrieval . . . . .	291
<i>Emmanuel Adam and René Mandiau</i>	

## Modeling and Simulation

Evaluating a Scientific SPMD Application on a Computational Grid with Different Load Balancing Techniques . . . . .	301
<i>André Oliveira, Gabriel Argolo, Pablo Iglesias, Simone Martins, and Alexandre Plastino</i>	
Increasing the Training Speed of SVM, the Zoutendijk Algorithm Case . . .	312
<i>Rodolfo E. Ibarra Orozco, Neil Hernández-Gress, Juan Frausto-Solís, and Jaime Mora Vargas</i>	
Video Motion Detection Using the Algorithm of Discrimination and the Hamming Distance . . . . .	321
<i>Josué A. Hernández-García, Héctor Pérez-Meana, and Mariko Nakano-Miyatake</i>	
An Efficient and Grain Preservation Mapping Algorithm: From ER Diagram to Multidimensional Model . . . . .	331
<i>Yen-Ting Chen and Ping-Yu Hsu</i>	
Quadratic Optimization Fine Tuning for the Learning Phase of SVM . . . .	347
<i>Miguel González-Mendoza, Neil Hernández-Gress, and André Titli</i>	

## Wireless Networks and Mobile Computing

WFCTA (Weighted Fair Channel Time Allocation) and Its Analysis for HR-WPAN . . . . .	358
<i>WoongChul Choi, KwangSue Chung, Seung Hyong Rhee, and Jin-Woong Cho</i>	
Performance Analysis of Two Approaches to Service Discovery in Mobile Ad Hoc Networks . . . . .	368
<i>Dante Arias-Torres and J. Antonio García-Macías</i>	

<i>BCTMA</i> (Bi-directional Cut-Through Medium Access) Protocol for 802.11-Based Multi-hop Wireless Networks . . . . .	377
<i>WoongChul Choi, JinWoo Han, Byung Joon Park, and JiMan Hong</i>	
Some Security Issues of Wireless Systems . . . . .	388
<i>Eduardo B. Fernández, Saeed Rajput, Michael VanHilst, and María M. Larrondo-Petrie</i>	
Overview the Key Management in Ad Hoc Networks . . . . .	397
<i>Gerardo del Valle and Roberto Gómez Cárdenas</i>	
On Performance Improvement for 802.11-based Multi-hop Ad Hoc Wireless Networks . . . . .	407
<i>WoongChul Choi, YongSuk Lee, Byung Joon Park, and Kuk-Hyun Cho</i>	
Analysis of Context Transfer in Seamless IP Mobility . . . . .	417
<i>Christian P. García-Martínez and J. Antonio García-Macías</i>	
<b>Artificial Life and Multi-agent Systems</b>	
An Introduction to Evolutionary Algorithms and Their Applications . . . . .	425
<i>Carlos A. Coello Coello</i>	
Distributed Anticipatory System . . . . .	443
<i>Marco A. Ramos, Alain Berro, and Yves Duthen</i>	
Memory as an Active Component of a Behavioral Animation System . . . . .	452
<i>David Panzoli, Hervé Luga, and Yves Duthen</i>	
Growing Functional Modules, a Prospective Paradigm for Epigenetic Artificial Intelligence . . . . .	465
<i>Jérôme Leboeuf Pasquier</i>	
Specifying Agent's Goals in 3D Scenarios Using Process Algebras . . . . .	472
<i>Fabiel Zúñiga, Félix Ramos, and H. Ivan Piza</i>	
A New Approach for Offer Evaluation in Multi-agent System Negotiation Based in Evidential Paraconsistent Logic . . . . .	483
<i>Fabiano M. Hasegawa, Bráulio C. Ávila, and Marcos A.H. Shmeil</i>	
A Voice-Enabled Assistant in a Multi-agent System for e-Government Services . . . . .	495
<i>Emerson Cabrera Paraiso and Jean-Paul A. Barthès</i>	
CAS – An Interface Generator in Natural Language to Information System . . . . .	504
<i>Cezar Augusto Schipiura and Edson Emílio Scalabrin</i>	

A Formal Approach to Model Multiagent Interactions Using the B Formal Method . . . . .	516
<i>Hind Fadil and Jean-Luc Koning</i>	
Behavioral Self-control of Agent-Based Virtual Pedestrians . . . . .	529
<i>Emmanuelle Grislin-Le Strugeon, David Hanon, and René Mandiau</i>	
<b>ISSADS 2004</b>	
Security Challenges of Distributed e-Learning Systems . . . . .	538
<i>Roberto Gómez Cárdenas and Erika Mata Sánchez</i>	
A Component-Based Transactional Service, Including Advanced Transactional Models . . . . .	545
<i>Colombe Hérault, Sergiy Nemchenko, and Sylvain Lecomte</i>	
<b>Author Index</b> . . . . .	557

Advanced Distributed Systems

5th International School and Symposium, ISSADS 2005,

Guadalajara, Mexico, January 24-28, 2005, Revised

Selected Papers

Ramos, F.F.; Lrios Rosillo, V.; Unger, H. (Eds.)

2005, XII, 564 p., Softcover

ISBN: 978-3-540-28063-7
