Man-Machine Interface for Intuitive Knowledge Access

Do Knowledge Assets Really Exist in the World and Can We Access Such Knowledge? Knowledge Evolves Through a Cycle of Knowledge Liquidization and Crystallization	1
<i>Koichi Hori</i>	

Benefits of Subjunctive Interface Support for Exploratory Access to Online Resources	14
<i>Aran Lunzer</i>	

Eye Movement Navigation Interface Supporting Reading	33
<i>Satoru Morita</i>	

Intuitive Interfaces for Motion Generation and Search	49
<i>Yoshihiro Okada, Hiroaki Etou, and Koichi Niijima</i>	

IntelligentPad / Meme Media

Human-Agent Co-operation in Accessing and Communicating Knowledge Media – A Case in Medical Therapy Planning	68
<i>Volker Dötsch, Kimihito Ito, and Klaus P. Jantke</i>	

Accessing Related Web Resources Through Annotated Documents	88
<i>Jun Fujima and Yuzuru Tanaka</i>	

The Biotope Issue in Meme Media Implementations	99
<i>Klaus P. Jantke</i>	

Meme Media Architecture for Intuitively Accessing and Organizing Intellectual Resources	108
<i>Yuzuru Tanaka</i>	

Visualization and Design of Information Access Spaces

Enhancing Visual Perception Using Dynamic Updating of Display	127
<i>Toshio Kawashima, Takanori Terashima, Takeshi Nagasaki, and Masashi Toda</i>	

3D Space Framework for the Multi-facet Accessing of Database Records . .	142
<i>Makoto Ohigashi and Yuzuru Tanaka</i>	

Integrated Visualization Framework for Relational Databases and Web Resources	159
<i>Tsuyoshi Sugibuchi and Yuzuru Tanaka</i>	

**Semantic and Narrative Organization
and Access of Knowledge**

Discovering Implicit Relationships in a Web of Contexts 175
 Mina Akaishi and Nicolas Spyratos

On Information Organization in Annotation Systems 189
 *Panos Constantopoulos, Martin Doerr, Maria Theodoridou,
 and Manos Tzobanakis*

Modelling Learning Subjects as Relationships..... 201
 Martin Doerr

Formalizing Retrieval Goal Change by Prioritized Abduction 215
 Ken Satoh

Similarity of Documents Based on the Vector Sequence Model 233
 Akihiro Yamamoto and Akira Ogiso

Towards Constructing Story Databases Using Maximal Analogies
Between Stories..... 243
 Masaharu Yoshioka, Makoto Haraguchi, and Akihito Mizoe

Author Index 257

Intuitive Human Interfaces for Organizing and Accessing
Intellectual Assets

International Workshop, Dagstuhl Castle, Germany,

March 1-5, 2004, Revised Selected Papers

Grieser, G.; Tanaka, Y. (Eds.)

2005, XIV, 262 p., Softcover
