
Contents

Information and telecommunication systems for emergency management <i>Yu.I. Shokin, L.B. Chubarov</i>	1
High Performance Computing in Engineering and Science <i>M. Resch</i>	29
Completely splitting method for the Navier-Stokes problem <i>I.V. Kireev, U. Rde, V.V. Shaidurov</i>	47
Methods of shock wave calculation <i>V.F. Kuropatenko</i>	77
Distributed and collaborative visualization of simulation results <i>U. Lang</i>	95
Safety problems of technical objects <i>V.V. Moskvichev</i>	113
Direct numerical simulations of shock-boundary layer interaction at $Ma = 6$ <i>A.Pagella, U. Rist</i>	123
Mathematical models of filtration combustion and their applications <i>A.D. Rychkov, N.Yu. Shokina</i>	141
Computer simulation at VNIIEF <i>I.D. Sofronov</i>	163
Mathematical modeling of optical communication lines with dispersion management <i>M.P. Fedoruk</i>	173

Method of particles for incompressible flows with free surface <i>A.M. Frank</i>	189
Direct and inverse problems in the mechanics of composite plates and shells <i>S.K. Golushko</i>	205
Numerical simulation of plasma-chemical reactors <i>Yu.N. Grigoryev, A.G. Gorobchuk</i>	229
The application of smoothed particle hydrodynamics for the simulation of diesel injection <i>S. Holtwick, H. Ruder</i>	253
Some features of modern computational mathematics: problems and new generation of algorithms <i>Yu.M. Laevsky</i>	269
Efficient flow simulation on high performance computers <i>T. Zeiser, F. Durst</i>	285
Simulation of problems with free surfaces by a boundary element method <i>K.E. Afanasiev, S.V. Stukolov</i>	307
Simulation and optimisation for hydro power <i>E. Göde</i>	339
The analysis of behaviour of multilayered conic shells on the basis of nonclassical models <i>V.V. Gorshkov</i>	347
Simulation of the motion and heating of an irregular plasma <i>N.A. Huber</i>	357
Numerics and simulations for convection dominated problems <i>D. Kröner</i>	367
Modified Finite Volume Method for Calculation of Oceanic Waves on Unstructured Grids <i>A.V. Styvrin</i>	381
Performance aspects on high performance computers — from microprocessors to highly parallel smp systems <i>H. Mix, W.E. Nagel</i>	389

Computational Science and High Performance
Computing

Russian-German Advanced Research Workshop,
Novosibirsk, Russia, September 30 to October 2, 2003

Krause, E.; Shokin, Y.I.; Shokina, N. (Eds.)

2005, XIII, 398 p., Hardcover

ISBN: 978-3-540-24120-1
