Preface . . . . .	vii
Contributors . . . . .	xv

## **Part I: Perioperative Management and Evaluation**

1. Preoperative Evaluation of the Healthy Laparoscopic Patient. . . . .	3
<i>Stephanie B. Jones and Daniel B. Jones</i>	
2. Preoperative Evaluation of Complex Laparoscopic Patients . . . . .	8
<i>Dmitry Oleynikov and Karen D. Horvath IV</i>	
3. Preoperative Patient Instructions . . . . .	20
<i>Tracey D. Arnell</i>	
4. Contraindications to Laparoscopy . . . . .	25
<i>Steven P. Bowers and John G. Hunter</i>	
5. Perioperative Antibiotics in Laparoscopic Surgery . . . . .	33
<i>Tracey D. Arnell</i>	

## **Part II: Intraoperative Management, Positioning, Setup, and Port Placement**

Introduction to Part II: Introductory Remarks Concerning Operating Room Setup, Patient Positioning, and Port Placement Chapters . . . . .	41
<i>Richard L. Whelan</i>	
6. Intraoperative Management of the Laparoscopic Patient. . . . .	48
<i>Carol E.H. Scott-Conner</i>	
7. Summary of Intraoperative Physiologic Alterations Associated with Laparoscopic Surgery. . . . .	56
<i>Arif Ahmad and Bruce D. Schirmer</i>	

8.1	Patient Positioning and Logistics in the Operating Room During Laparoscopic Biliary Surgery. . . . .	63
	<i>George Berci</i>	
8.2	Hepatobiliary, Cholecystectomy, and Common Bile Duct Exploration (CBDE). Includes Cholangiography and Intraoperative Choledochoscopy: Port Placement Arrangements. . . . .	69
	<i>Dennis L. Fowler</i>	
9.1	Operating Room Setup and Patient Positioning for Laparoscopic Gastric Bypass and Laparoscopic Gastric Banding . . . . .	76
	<i>Philip R. Schauer, William Gourash, Giselle G. Hamad, and Sayeed Ikramuddin</i>	
9.2	Minimally Invasive Procedures for Morbid Obesity: Port Placement Arrangements . . . . .	85
	<i>Marc Bessler and Charles Cappadona</i>	
10.1	Patient Positioning and Operating Room Setup for Laparoscopic Treatment of Gastroesophageal Reflux Disease . . . . .	92
	<i>Dennis Blom and Jeffrey H. Peters</i>	
10.2	Port Placement Arrangements for Gastroesophageal Reflux Disease Surgery. . . . .	97
	<i>Jorge Cueto-Garcia and José Antonio Vazquez-Frias</i>	
11.1	Minimally Invasive Esophageal Resection: Patient Position and Room Setup . . . . .	105
	<i>James D. Luketich and Yaron Perry</i>	
11.2	Port Placement for Minimally Invasive Esophagectomy . . . . .	108
	<i>James D. Luketich and Yaron Perry</i>	
12.1	Hernia Repair: Patient Positioning and Operating Room Setup . . . . .	113
	<i>David S. Thoman and Edward H. Phillips</i>	
12.2	Hernia: Port Placement Arrangements . . . . .	117
	<i>David S. Thoman and Edward H. Phillips</i>	

13.1	Spinal Access Operating Room Setup and Patient Positioning . . . . .	126
	<i>Namir Katkhouda and Sharan Manhas</i>	
13.2	Spinal Access Surgery Port Placement Arrangements. . . . .	130
	<i>Namir Katkhouda and Sharan Manhas</i>	
14.1	Operating Room Setup and Patient Positioning for Laparoscopic Adrenalectomy and Donor Nephrectomy . . . . .	134
	<i>Michael Edye</i>	
14.2	Port Placement in Laparoscopic Adrenalectomy and Donor Nephrectomy . . . . .	139
	<i>Samer G. Mattar and C. Daniel Smith</i>	
15.1	Colorectal Resections: Patient Positioning and Operating Room Setup . . . . .	150
	<i>Tonia M. Young-Fadok</i>	
15.2	Port Placement Arrangements: Laparoscopic-Assisted Colorectal Resections . . . . .	163
	<i>Patrick Colquhoun and Steven D. Wexner</i>	
15.3	Port Placement Arrangements for Hand-Assisted Colorectal Resections . . . . .	177
	<i>Jeffrey L. Cohen</i>	
16.1	Patient Positioning and Operating Room Setup: Splenectomy . . . . .	193
	<i>Joseph B. Petelin</i>	
16.2	Splenectomy: Port Placement Arrangements. . . . .	202
	<i>William E. Kelley Jr.</i>	
17.1	Laparoscopic Ultrasonography: Patient Positioning and Operating Room Setup . . . . .	212
	<i>Maurice E. Arregui and Matthew S. French</i>	
17.2	Laparoscopic Ultrasonography: Port Placement Arrangements. . . . .	219
	<i>Maurice E. Arregui and Matthew S. French</i>	

18.	Intraoperative Upper and Lower Endoscopy Considerations . . . . .	225
	<i>Keith P. Meslin and John M. Cosgrove</i>	
19.	Choice of Laparoscopic Exposure Method . . . . .	238
	<i>Christopher A. Jacobi and C. Braumann</i>	
20.	Anchoring Laparoscopic Ports. . . . .	249
	<i>John I. Lew and Richard L. Whelan</i>	
21.	Trocar- and Port-Related Bleeding. . . . .	254
	<i>Daniel J. Deziel</i>	
22.	Prophylaxis Against Deep Venous Thrombosis . . . . .	263
	<i>James H. Holmes IV and Thomas R. Biehl</i>	
23.	Hypothermia . . . . .	267
	<i>Catherine Boulay</i>	
24.	Implications of Subcutaneous Emphysema and How to Avoid and/or Limit Its Development . . . . .	273
	<i>Kirk A. Ludwig</i>	
25.	Fluid Management and Renal Function During a Laparoscopic Case Done Under CO <sub>2</sub> Pneumoperitoneum . . . . .	281
	<i>Gamal Mostafa and Frederick L. Greene</i>	
26.	Port Site Closure Methods and Hernia Prevention . . . . .	288
	<i>Chandrakanth Are and Mark A. Talamini</i>	
27.	Decision to Convert to Open Methods . . . . .	296
	<i>Valerie J. Halpin and Nathaniel J. Soper</i>	

### **Part III: Postoperative Management of the Laparoscopic Patient**

28.	Perioperative Fluid Management . . . . .	307
	<i>Joseph F. Sucher and Bruce V. MacFadyen Jr.</i>	
29.	Ambulation and Early Postoperative Performance Criteria. . . . .	314
	<i>Frank H. Chae and Greg V. Stiegmann</i>	
30.	Pulmonary Considerations . . . . .	318
	<i>Desmond H. Birkett</i>	

31.	Resumption of Diet and Recovery of Bowel Function . . . . .	326
	<i>Robert W. Beart Jr. and James A. Olson</i>	
32.	Wound Management and Complications . . . . .	333
	<i>Stanley C. Hewlett and Gary C. Vitale</i>	
33.	Postoperative Restrictions After Laparoscopic Operations. . . . .	344
	<i>Robert N. Cacchione and Gerald M. Larson</i>	

## **Part IV: Physiologic Implications of CO<sub>2</sub> Pneumoperitoneum and Minimally Invasive Methods**

34.	Cardiovascular Effects of CO <sub>2</sub> Pneumoperitoneum . . . . .	355
	<i>Lee L. Swanström</i>	
35.	Pulmonary Implications of CO <sub>2</sub> Pneumoperitoneum in Minimally Invasive Surgery. . . . .	360
	<i>Karen E. Deveney</i>	
36.	Renal Ramifications of CO <sub>2</sub> Pneumoperitoneum . . . . .	366
	<i>Ayal M. Kaynan and Sherry M. Wren</i>	
37.	The Systemic Oncologic Implications of Surgery . . . . .	374
	<i>Sang W. Lee</i>	
38.	Liver Function and Portal Blood Flow . . . . .	379
	<i>Michael W. Potter, Shimul A. Shah, and Mark P. Callery</i>	
39.	Port Site Tumors: Local Oncologic Effect . . . . .	385
	<i>James W. Fleshman Jr.</i>	
40.	Port Site Tumors: Means of Prevention . . . . .	393
	<i>Marc A. Reymond, Hans Lippert, and Morris E. Franklin</i>	
41.	Immunologic Consequences and Considerations of the Laparoscopic Approach. . . . .	402
	<i>Daniel L. Feingold, Joseph Carter, and Richard L. Whelan</i>	

42.	Effect of Patient Position on Cardiovascular and Pulmonary Function . . . . .	410
	<i>Eric J. Hazebroek and H. Jaap Bonjer</i>	
43.	Pros and Cons of Alternate Gases and Abdominal Wall Lifting Methods . . . . .	418
	<i>Robert Talac and Heidi Nelson</i>	
44.	Risk of Gas Embolism with CO <sub>2</sub> and Other Gases . . . . .	425
	<i>David I. Watson</i>	
45.	Impact of CO <sub>2</sub> Pneumoperitoneum on Body Temperature and the Integrity of the Peritoneal Lining . . . . .	432
	<i>Carsten N. Gutt, Christopher Heinbuch, and Parswa Ansari</i>	
46.	Adhesion Formation . . . . .	438
	<i>A. Brent Fruin, Arthur F. Stucchi, Ali M. Ghellai, and James M. Becker</i>	
47.	Impact of Minimally Invasive Methods on Postoperative Pain and Pulmonary Function. . . . .	446
	<i>Alessandro Fichera and Jeffrey W. Milsom</i>	
48.	Ergonomics in Laparoscopic Surgery. . . . .	454
	<i>Ramon Berguer</i>	
Appendix	Operative Management and Evaluation: Bowel Preparation . . . . .	465
	<i>Peter Marcello</i>	
Index . . . . .		469

The SAGES Manual of Perioperative Care in Minimally  
Invasive Surgery

Whelan, R.L.; Fleshman, J.W.; Fowler, D.L. (Eds.)

2006, XXIV, 492 p. 106 illus., Softcover

ISBN: 978-0-387-23686-5
