Preface .....	v
Contributors .....	ix

1	Blood–Brain Barrier and Cell–Cell Interactions: <i>Methods for Establishing In Vitro Models of the Blood–Brain Barrier and Transport Measurements</i> <b>Michael Aschner, Vanessa A. Fitsanakis, Ana Paula Marreilha dos Santos, Luisa Olivi, and Joseph P. Bressler ....</b>	<b>1</b>
2	Interactions of Intestinal Epithelial Cells With Bacteria and Immune Cells: <i>Methods to Characterize Microflora and Functional Consequences</i> <b>Geraldine Canny, Alexander Swidsinski, and Beth A. McCormick ....</b>	<b>17</b>
3	The Role of Junctional Adhesion Molecules in Interactions Between Vascular Cells <b>Triantafyllos Chavakis and Valeria Orlova .....</b>	<b>37</b>
4	Cell–Cell Interactions on Solid Matrices <b>Nancy A. Louis, Dionne Daniels, and Sean P. Colgan .....</b>	<b>51</b>
5	Cell–Cell Interactions in the Kidney: <i>Inducible Expression of Mutant G Protein <math>\alpha</math>-Subunits in Madin–Darby Canine Kidney Cells for Studies of Epithelial Cell Junction Structure and Function</i> <b>Ernesto Sabath and Bradley M. Denker .....</b>	<b>61</b>
6	Nucleotide Metabolism and Cell–Cell Interactions <b>Holger K. Eltzschig, Thomas Weissmüller, Alice Mager, and Tobias Eckle .....</b>	<b>73</b>
7	Analysis of Mammalian Sperm–Egg Membrane Interactions During In Vitro Fertilization <b>Genevieve B. Wortzman, Allison J. Gardner, and Janice P. Evans ....</b>	<b>89</b>
8	Collagen Gel Contraction Assay <b>Peter Ngo, Punitha Ramalingam, Jonathan A. Phillips, and Glenn T. Furuta .....</b>	<b>103</b>
9	Methods to Assess Tissue Permeability <b>Juan C. Ibla and Joseph Khoury .....</b>	<b>111</b>

10	Bacterial–Bacterial Cell Interactions in Biofilms: <i>Detection of Polysaccharide Intercellular Adhesins by Blotting and Confocal Microscopy</i> <b>Kimberly K. Jefferson and Nuno Cerca</b> .....	119
11	A Biochemical Method for Tracking Cholera Toxin Transport From Plasma Membrane to Golgi and Endoplasmic Reticulum <b>Heidi E. De Luca and Wayne I. Lencer</b> .....	127
12	Isolation and Culture of Murine Heart and Lung Endothelial Cells for In Vitro Model Systems <b>Yaw-Chyn Lim and Francis W. Luscinskas</b> .....	141
13	Expression Cloning of Signaling Proteins Regulated by Cell Adhesion <b>Michelle L. Matter and Joe W. Ramos</b> .....	155
14	Assays for the Calcium Sensitivity of Desmosomes <b>Anita J. Merritt, Anthea Scothern, and Tanusree Bhattacharyya</b> .....	167
15	Tight Junctions and Cell–Cell Interactions <b>Markus Utech, Matthias Brüwer, and Asma Nusrat</b> .....	185
16	Simultaneous Immunofluorescence Detection of Cadherin and $\beta$ -Catenin in Mouse Tissue Sections <b>Nobuko Obara</b> .....	197
17	In Vitro Neutrophil Transepithelial Migration <b>Winston Y. Lee, Alex C. Chin, Susan Voss, and Charles A. Parkos</b> .....	205
18	The Blot Rolling Assay: <i>A Method for Identifying Adhesion Molecules Mediating Binding Under Shear Conditions</i> <b>Robert Sackstein and Robert Fuhlbrigge</b> .....	217
19	Cell–Cell Interaction in the Transcellular Biosynthesis of Novel $\omega$ -3-Derived Lipid Mediators <b>Nan Chiang and Charles N. Serhan</b> .....	227
20	Isolation and Analysis of Lipid Rafts in Cell–Cell Interactions <b>Aimee Landry and Ramnik Xavier</b> .....	251
	Index .....	283
