

Table of contents

1	Contaminants in the environment.....	1
1.1	Environmental contaminants	1
1.1.1	Pesticides	3
1.1.2	Dioxins	8
1.1.3	Polychlorinated biphenyls (PCBs)	10
1.1.4	Polycyclic aromatic hydrocarbons (PAHs)	11
1.1.5	Phthalates	12
1.1.6	Surfactants	13
1.1.7	2,4,6-Trinitrotoluene (TNT)	15
1.1.8	Chlorinated alkanes and alkenes	16
1.1.9	Benzene and its homologues	19
1.1.10	Heavy metals	20
1.1.11	Gaseous contaminants	25
1.2	Migration of contaminants into different ecological systems	32
1.2.1	Migration of contaminants between soil and water.....	33
1.2.2	Migration of contaminants between water and air	35
1.2.3	Migration of contaminants between soil and air	37
1.2.4	Geographical migration of contaminants	38
1.2.5	Biotic migration of contaminants	40
1.2.6	Local contamination of ecosystems	43
2	Uptake, translocation and effects of contaminants in plants	55
2.1	Physiological aspects of absorption and translocation of contaminants in plants	55
2.1.1	Absorption of environmental contaminants by leaves	55
2.1.2	Penetration of contaminants into roots	61
2.1.3	Penetration of contaminants into the seeds	65
2.1.4	Translocation of environmental contaminants in plants	66

2.2	The action of environmental contaminants on the plant cell ...	78
2.2.1	Changes in cell ultrastructure	78
2.2.2	Changes in the activities of regular metabolism enzymes	97
3	The fate of organic contaminants in the plant cell.....	103
3.1	Transformation of environmental contaminants in plants	103
3.2	Excretion.....	108
3.3	Transformation	110
3.3.1	Conjugation with endogenous compounds.....	110
3.3.2	Degradation pathways	120
3.3.3	Enzymes transforming organic contaminants	133
4	The ecological importance of plants for contaminated environments	167
4.1	Plants for phytoremediation.....	171
4.2	Phytoremediation technologies.....	185
4.2.1	Phytotransformation	189
4.2.2	Phytoextraction.....	190
4.2.3	Rhizofiltration	192
4.2.4	Rhizodegradation	192
4.2.5	Hydraulic control.....	193
4.2.6	Phytostabilization	193
4.2.7	Phytovolatilization	193
4.2.8	Cleaning of the air	194
4.3	Transgenic plants in phytoremediation.....	198
4.4	The cost of phytoremediation technologies	202
4.5	Phytoremediation – an effective natural tool for a healthy planet	204
	References.....	209
	Index.....	245

Biochemical Mechanisms of Detoxification in Higher
Plants

Basis of Phytoremediation

Kvesitadze, G.; Khatishashvili, G.; Sadunishvili, T.;
Ramsden, J.J.

2006, X, 256 p. 96 illus., Hardcover

ISBN: 978-3-540-28996-8
