- Foreword ..... V
- Acknowledgments ..... VII
- Contents ..... IX
- 1 Introduction..... 1
- 2 Basic Elements for a Comprehensive Concept of Regulatory Risk – Models, Objectives, Process, Cost Concepts and Types of Rate Regulation..... 9
  - 2.1 Characterization of the Two Basic Models of Rate Regulation ..... 9
    - 2.1.1 Monopolistic Model of Rate Regulation ..... 9
    - 2.1.2 Competitive Model of Rate Regulation ..... 10
  - 2.2 Systematization of the Objectives and Principles of Rate Regulation ..... 11
  - 2.3 Characterization of the Cost-Orientated Rate Setting Process ..... 14
  - 2.4 Comparison of the Role of the Cost of Capital in Different Cost Concepts of Rate Regulation..... 16
  - 2.5 Comparison of the Role of the Cost of Capital Under Different Types of Rate Regulation ..... 18
  - 2.6 Comparison of the Role of the Cost of Capital and the Rate of Return in Regulated and Non-Regulated Firms..... 19
  - 2.7 Characterization of Regulatory Risk ..... 21
- 3 Impact of Rate Regulation on the Risk of a Regulated Firm..... 23
  - 3.1 Development of a Framework of Rate Regulation for the Analysis of Regulatory Risk..... 23
  - 3.2 Analysis of Circularity and (Time) Inconsistency as Fundamental Problems of Rate Regulation ..... 27
  - 3.3 Systematization and Analysis of the Effects of Rate Regulation on the Risk of a Regulated Firm ..... 32
    - 3.3.1 Elimination of Risk by Rate Regulation? ..... 34

3.3.2 Increase or Decrease of (Systematic) Risk by Rate Regulation? .....	35
3.3.3 Asymmetric Regulatory Risk .....	40
3.4 Systematization and Analysis of the Transmission Paths of the Effects of Rate Regulation on the Risk of a Regulated Firm.....	44
3.4.1 Direct Impact of Rate Regulation on Risk.....	45
3.4.2 Indirect Effects of Rate Regulation via Adjustments of Investment and Financing.....	45
 <b>4 Development of a Regulatory Control Panel – Analysis of Individual Variables of Rate Regulation as Determinants of Regulatory Risk .....</b>	<b>55</b>
4.1 Impact of the Overall Regulatory System Variables on Risk.....	57
4.1.1 Profit Elements Covered by Rate Regulation.....	57
4.1.2 Regulatory Review Period and Regulatory Lag .....	60
4.1.3 Degree of Regulatory Discretion .....	63
4.1.4 Bandwidth Within Which the Actual Rate of Return Can Vary .....	65
4.2 Impact of Regulatory Accounting Directives on Risk.....	72
4.2.1 Regulatory Cost Concept.....	72
4.2.2 Accounting Directives Determining Operating Expenditures ..	74
4.2.3 Accounting Directives Determining Capital Expenditures .....	77
4.2.4 Impact of the Cost Distribution Base on the Capacity Utilization Risk.....	98
4.3 Impact of Variables Determining the Scope of Regulation .....	99
4.3.1 Scope of Regulated Decisions .....	100
4.3.2 Scope of Regulated Firms.....	105
4.3.3 Scope of Regulated Markets.....	111
4.4 Case Study: California Energy Crisis as the Result of an Incompatible Combination of Regulatory Variables .....	114
 <b>5 Determination of the Regulatory Rate Base.....</b>	<b>119</b>
5.1 Characterization of a Hypothetical Benchmark System of Rate Regulation Establishing Equality of Book Values and Market Values.....	120
5.1.1 Consistent Treatment of the Regulatory Rate Base, Depreciation, and Interest.....	121
5.1.2 Inclusion of New Investment in the Regulatory Rate Base ...	141
5.1.3 Investments Accounted for as Operating Expenditures.....	142
5.2 Explanation of Deviations of Market Values from Book Values in the Case of Rate-Regulated Firms - Rationale for Using Book Values in the Regulatory Rate Base .....	143

5.2.1 Deviations Due to Characteristics of Real Systems of Rate Regulation .....	144
5.2.2 Deviations Due to Future Investment Possibilities After an Anticipated Phasing-Out of Rate Regulation .....	150
5.2.3 Deviations Due to Activities in Non-Regulated Business Divisions.....	151
5.3 Reconciliation of the Use of Book Values in the Regulatory Rate Base with the Return Required by Investors .....	152
5.3.1 New Private Investments .....	154
5.3.2 Existing Private Investments .....	154
5.3.3 Privatization of Public Enterprises .....	157
<b>6 Market-Based Assessment of the Cost of Capital for a Rate-Regulated Firm .....</b>	<b>163</b>
6.1 Identification of Specifics of Cost-Orientated Rate Regulation Relevant for Cost of Capital Assessment .....	165
6.2 Assessment of the Input Parameters of Cost of Debt and Cost of Equity.....	167
6.2.1 Risk-Less Interest Rate.....	167
6.2.2 Risk Premium for Debt.....	169
6.2.3 Market Equity Risk Premium .....	170
6.2.4 Beta Factor.....	173
6.2.5 Beta Factors for Non-Listed Rate-Regulated Firms or Divisions.....	177
6.3 Weighting of the Cost of Equity and the Cost of Debt with the Capital Structure .....	181
6.3.1 Components of the Capital Structure.....	181
6.3.2 Actual Versus Optimized Capital Structure .....	183
6.3.3 Temporal Dimension of the Capital Structure.....	185
6.4 Accounting for Income Taxes in the Cost of Capital .....	186
6.4.1 Narrowing down the Object of Investigation to Definitive Corporate Income Taxes .....	186
6.4.2 Accounting for Definitive Corporate Income Taxes Under Current German Tax Law .....	188
6.4.3 Critical Discussion of the Formula-Based Conversion of a Post-Tax into a Pre-Tax Rate of Cost of Capital .....	189
<b>7 Conclusions.....</b>	<b>193</b>
<b>References.....</b>	<b>199</b>
<b>Index.....</b>	<b>219</b>
