Intention of the Book	1
-----------------------------	---

Part I A New Foundation of Physical Theories

1 Reality	11
1.1 The Structure of Reality	11
1.2 The Physical Reality	12
1.2.1 The Application Domain of a PT	12
1.2.2 The Fundamental Domain of a PT	13
1.2.3 The Reality Domain of a PT	14
1.2.4 The Reality Domain of all PT s	14
1.2.5 Remarks	15
1.3 Fairy Tales	16
2 Building of a Mathematical Theory	17
2.1 Formal Language	17
2.2 Axioms and Proofs	19
2.3 Logics	21
2.4 Set Theory	27
3 From Reality to Mathematics	33
3.1 Recording Process	34
3.1.1 Basic Language	34
3.1.2 Application Domain of a PT	44
3.1.3 Recording Rules	44
3.1.4 Facts Recorded in the Basic Language	45
3.2 Mathematization Process	46
3.2.1 The Basic Mathematical Theory	46
3.2.2 The Standard Mathematical Theory	48
3.2.3 Enrichment of MT_{Θ} by \overline{A}	50

3.2.4	The Finiteness of Physics.....	52
3.3	Idealization Process.....	53
3.3.1	Transition from MT_{Θ} to MT_{Δ}	53
3.3.2	Enrichment of MT_{Δ} by \bar{A}	56
3.3.3	Fundamental Domain of a PT	60
4	Species of Structures and Axiomatic Basis	
	of a PT	63
4.1	Mathematical Structures.....	64
4.2	Deduction of Structures.....	67
4.3	Axiomatic Basis and Fairy Tales.....	73
4.4	Pure Laws of Nature.....	76
4.5	Change of the Mathematical Form of an Axiomatic Basis.....	78
4.6	Inaccuracy Sets and Uniform Structures.....	85
4.7	Do the “Laws of Nature” Describe Realities?.....	92
4.8	Classification of Laws of Nature.....	96
4.9	Skeleton and Uninterpreted Theories.....	101
5	Relations Between Various PTs	105
5.1	Relations Between Two PT s with the Same Application Domain.....	106
5.2	Relations Between Two PT s with a Common Part of an Application Domain.....	111
5.3	Pre-theories.....	112
5.4	Relations Between PT s with Different Application Domains ..	116
5.5	Approximation Theories.....	117
5.6	The Network of PT s.....	118
6	Real and Possible as Physical Concepts	121
6.1	Closed Theories.....	124
6.2	Physical Systems.....	128
6.3	New Concepts in a PT	131
6.4	Indirect Measurements.....	133
6.5	Classifications and Interpretations.....	138
6.6	The Reality Domain of a PT	143

Part II Examples of Simple Theories

A	A Description of the Surface of the Earth, or of a Round Table	147
B	A Simplified Example of Newton’s Mechanics	159

C The Structure of the Human Species	167
References	173
List of Symbols	175
Index	177

A New Foundation of Physical Theories

Ludwig, G.; Thurler, G.

2006, XI, 178 p., Hardcover

ISBN: 978-3-540-30832-4
