
Contents

1	Yeast Biodiversity: How Many and How Much?	
	Marc-André Lachance	1
2	Yeast Systematics and Phylogeny – Implications of Molecular Identification Methods for Studies in Ecology	
	Cletus P. Kurtzman and Jack W. Fell	11
3	Yeast Biodiversity and Culture Collections	
	Vincent Robert, Joost Stalpers, Teun Boekhout and Shu-hui Tan	31
4	Genomics and Biodiversity in Yeasts	
	M. Bolotin-Fukuhara	45
5	Methods for Investigating Yeast Biodiversity	
	K. Boundy-Mills	67
6	Sugar Metabolism in Yeasts: an Overview of Aerobic and Anaerobic Glucose Catabolism	
	Fernando Rodrigues, Paula Ludovico and Cecília Leão	101
7	Diversity of Nitrogen Metabolism Among Yeast Species: Regulatory and Evolutionary Aspects	
	Francine Messenguy, Bruno André and Evelyne Dubois	123
8	Environmental Factors Influencing Yeasts	
	Tibor Deak	155
9	Yeast Responses to Stresses	
	An Tanghe, Bernard Prior and Johan M. Thevelein	175

10	Antagonistic Interactions Among Yeasts	
	W.I. Golubev	197
11	Yeasts in Soil	
	Alfred Botha	221
12	Yeast Biodiversity in Freshwater, Marine and Deep-Sea Environments	
	Takahiko Nagahama	241
13	Phylloplane Yeasts	
	Á. Fonseca and J. Inácio	263
14	Yeast and Invertebrate Associations	
	Philip F. Ganter	303
15	Yeasts in Extreme Environments	
	Peter Raspor and Jure Zupan	371
16	Yeast Biodiversity in the Antarctic	
	Helen S. Vishniac	419
17	Yeast Biodiversity in Tropical Forests of Asia	
	Takashi Nakase, Sasitorn Jindamorakot, Somjit Am-in, Wanchern Potacharoen and Morakot Tanticharoen	441
18	Yeast Communities in Tropical Rain Forests in Brazil and other South American Ecosystems	
	Paula B. Morais, Fernando C. Pagnocca and Carlos A. Rosa	461
19	The Biogeographic Diversity of Cactophilic Yeasts	
	William T. Starmer, Virginia Aberdeen and Marc-André Lachance	485
20	Black Yeasts and Meristematic Fungi: Ecology, Diversity and Identification	
	Katja Sterflinger	501
21	Yeasts as Indicators of Environmental Quality	
	Allen N. Hagler	515
22	Yeast Biodiversity and Biotechnology	
	Pietro Buzzini and Ann Vaughan-Martini	533
	Index	561

Biodiversity and Ecophysiology of Yeasts

Rosa, C.A.; Péter, G. (Eds.)

2006, X, 580 p., Hardcover

ISBN: 978-3-540-26100-1
