

Contents

PART I: Foundations of Geographic Hypermedia

| | |
|---|-----------|
| 1 Geographic Hypermedia - Emmanuel Stefanakis, and Michael P. Peterson | 1 |
| 1.1 Introduction | 1 |
| 1.2 Defining Geographic Hypermedia..... | 1 |
| 1.2.1 Hypermedia and Related Technologies | 2 |
| 1.2.2 Geographic Hypermedia..... | 6 |
| 1.3. Parallel Paradigms | 8 |
| 1.4. Geographic Hypermedia Systems: Content and Services..... | 8 |
| 1.4.1 Geographic Content: Data and Services | 9 |
| 1.4.2 Geographic Hypermedia System Services..... | 12 |
| 1.4.3 Developing Standards and Specifications | 16 |
| 1.5 Discussion..... | 17 |
| 1.6 About this Book..... | 17 |
| References | 19 |
| 2 New Media: From Discrete, to Distributed, to Mobile, to Ubiquitous - William Cartwright, Michael Peterson, and Georg Gartner | 23 |
| 2.1 Introduction | 23 |
| 2.2 Discrete | 24 |
| 2.3 Online / Distributed | 26 |
| 2.4 Mobile..... | 29 |
| 2.5 Ubiquitous | 33 |
| 2.6 Conclusion..... | 34 |
| References | 35 |
| 3 Design Issues Associated with Discrete and Distributed Hypermedia GIS - Shunfu Hu | 37 |
| 3.1 Introduction | 37 |
| 3.2 Design of a Discrete Hypermedia GIS | 39 |
| 3.2.1 Hypermedia Database..... | 40 |
| 3.2.2 Hypermedia Browser..... | 42 |
| 3.2.3 Integration of a Hypermedia System with a GIS | 44 |
| 3.3 Design of Distributed Hypermedia GIS | 44 |

| | |
|---|----|
| 3.3.1 Web-based GIS application | 45 |
| 3.3.2 Web-based Hypermedia system | 46 |
| 3.3.2 Web-based Hypermedia system | 47 |
| 3.4 Conclusions | 48 |
| References | 49 |

PART II: Data Resources and Accessibility Issues

4 Using Data from Earth Orbiting Satellites in Geo-Hypermedia Applications: A Survey of Data Resources - Danny Hardin..... 53

| | |
|--|----|
| 4.1 Introduction | 53 |
| 4.2 Discovering Data | 54 |
| 4.2.1 The Global Change Master Directory (GCMD) | 54 |
| 4.2.2 Federation Interactive Network for Discovery (FIND) | 56 |
| 4.2.3 The Geospatial One-Stop..... | 58 |
| 4.3 Accessing Data | 59 |
| 4.3.1 Earth Science Data Terminology and Formats | 60 |
| 4.3.2 The EOS Data Gateway..... | 62 |
| 4.3.3 The DAAC Alliance | 63 |
| 4.4 Other Data Centers | 70 |
| 4.4.1 Data Centers of the National Oceanic and Atmospheric Administration (NOAA) | 70 |
| 4.4.2 The United Nations Environmental Programme (UNEP) | 70 |
| 4.4.3 International Data Centers | 71 |
| References | 71 |

5 Exploring the Use of a Virtual Map Shop as an Interface for Accessing Geographical Information - William E. Cartwright..... 73

| | |
|--|----|
| 5.1 Introduction | 73 |
| 5.2 Underlying theory | 74 |
| 5.3 Map Shop concept | 75 |
| 5.4 Metaphors | 77 |
| 5.5 Engineered Serendipity..... | 78 |
| 5.6 Concepts Behind the Interface and Exploration Tools | 79 |
| 5.7 VRML Map Shop Prototype Design Ideas | 81 |
| 5.8 Building the Map Shop Prototype | 83 |
| 5.9 Exploring the Product..... | 84 |
| 5.10 Further Development of the Package – Adding Map Curator | 90 |
| 5.11 Conclusion | 94 |
| Acknowledgements | 94 |

| | |
|---|------------|
| References | 94 |
| 6 Atlases from Paper to Digital Medium - Cristhiane da Silva Ramos, and William Cartwright..... | 97 |
| 6.1 Introduction | 97 |
| 6.2 Technology and Cartography | 98 |
| 6.3 Atlases: A Definition | 98 |
| 6.4 Digital Atlases: the Search for a Definition..... | 102 |
| 6.5 Digital Atlases: Characteristics..... | 104 |
| 6.6 Digital Atlases: classification | 107 |
| 6.7 Digital Atlas: Merely a Variant of a GIS? | 110 |
| 6.8 The Evolving Medium: the Transition from Discrete Atlases to Internet Atlases | 113 |
| 6.9 Summary and Conclusions | 116 |
| References | 116 |
| 7 Hypermedia Maps and the Internet - Michael P. Peterson | 121 |
| 7.1 Introduction | 121 |
| 7.2 Maps and the Internet | 122 |
| 7.2.1 Current Status | 122 |
| 7.2.2 Experiments in Finding Online Maps..... | 123 |
| 7.2.3 Finding Maps – A 2005 Update | 126 |
| 7.2.4 Finding Hypermedia Maps | 126 |
| 7.3 The Information Landscape | 128 |
| 7.3.1 Search Engines | 129 |
| 7.3.2 Media Search Engines | 130 |
| 7.3.3 Map Search Engine..... | 132 |
| 7.4 Online Commerce..... | 132 |
| 7.4.1 Internet Marketing | 132 |
| 7.4.2 Apple's iTunes..... | 133 |
| 7.4.3 The 99¢ Map..... | 134 |
| 7.5 Summary..... | 134 |
| References | 135 |
| 8 In Pursuit of Usefulness: Resetting the Design Focus for Mobile Geographic Hypermedia Systems - Karen Wealands | 137 |
| 8.1 Introduction: Mobile Geographic Hypermedia..... | 137 |
| 8.2 Challenges to Mobile Systems Design | 138 |
| 8.2.1 Infrastructure Constraints | 139 |

| | |
|---|----------------|
| 8.2.2 Contextual Constraints | 141 |
| 8.3 Usefulness and Geographic Hypermedia..... | 142 |
| 8.3.1 The Concept of Usefulness..... | 143 |
| 8.3.2 Designing for Usefulness..... | 143 |
| 8.3.3 A User-Centred Approach..... | 145 |
| 8.4 Discussion..... | 148 |
| 8.5 Conclusion..... | 150 |
| Acknowledgements | 151 |
| References | 151 |
| 9 Cruiser: A Web in Space - Manolis Koutlis, George Tsironis, George Vassiliou, Thanassis Mantes, Augustine Gryllakis, and Kriton Kyrimis | 155 |
| 9.1 Introduction | 155 |
| 9.2 The “Channel” Feature | 157 |
| 9.3. Technical Description of Cruiser..... | 158 |
| 9.3.1 Cruiser-Server..... | 159 |
| 9.3.2 Cruiser-Client (Cruiser)..... | 161 |
| 9.3.3 Cruiser-Components..... | 162 |
| 9.3.4 Cruiser -Applications..... | 162 |
| 9.4 Benefits..... | 164 |
| 9.5 Application Fields..... | 165 |
| 9.6. Conclusions and Related Systems | 165 |
| Acknowledgements | 166 |
| References | 166 |
| PART III: Technologies for Content Integration | |
| 10 Merging Hypermedia GIS with Spatial On-Line Analytical Processing: Towards Hypermedia SOLAP - Yvan Bédard, Marie-Josée Proulx, Sonia Rivest, and Thierry Badard | 167 |
| 10.1 Introduction: The Power of Coupling SOLAP with Hypermedia..... | 167 |
| 10.2 SOLAP Concepts..... | 169 |
| 10.3 Application Example of Hypermedia SOLAP | 174 |
| 10.4 Evolution of SOLAP Hypermedia..... | 182 |
| 10.5 Conclusion | 184 |
| Aknowledgements | 185 |
| References | 185 |

11 A Hypermedia Afghan Sites and Monuments Database - Ralf Klamma, Marc Spaniol, Matthias Jarke, Yiwei Cao, Michael Jansen, and Georgios Toubekis 189

| | |
|---|-----|
| 11.1 Introduction | 189 |
| 11.1.1 Motivations and Problems | 190 |
| 11.1.2 Scenarios..... | 191 |
| 11.2 Concepts of ACIS and Requirements Analysis | 191 |
| 11.2.1 Basic Concepts | 192 |
| 11.2.2 Requirements Analysis | 193 |
| 11.3 Related Work and Theories | 194 |
| 11.3.1 GIS Technologies | 194 |
| 11.3.2 Hypermedia with Multimedia Standards | 196 |
| 11.3.3 Cultural Heritage Standards..... | 197 |
| 11.3.4 Web Community..... | 198 |
| 11.4 System Design of ACIS..... | 199 |
| 11.4.1 Data Model | 199 |
| 11.4.2 Web Architecture..... | 201 |
| 11.4.3 Metadata | 203 |
| 11.5 Implementation of ACIS..... | 203 |
| 11.5.1 The Survey of Implementation Technologies and Tools..... | 204 |
| 11.5.2 Data Survey and System Implementation..... | 204 |
| 11.6 Evaluation of ACIS | 207 |
| 11.7 Future Work..... | 208 |
| References | 209 |

12 Towards the Development of Open Cartographic Hypermedia Systems - Michail Vaitis, and Manolis Tzagarakis 211

| | |
|--|-----|
| 12.1 Introduction | 211 |
| 12.2 Hypermedia Systems | 214 |
| 12.2.1 Navigational Domain..... | 215 |
| 12.2.2 Open Hypermedia Systems | 216 |
| 12.3 Previous Work on Hypermaps..... | 217 |
| 12.4. Requirements for Hypermaps | 220 |
| 12.5 Spatial and Cartographic Modeling | 222 |
| 12.6 Hypermap Reference Model..... | 223 |
| 12.6.1 Behavior | 227 |
| 12.7 Conclusions and Future Work | 228 |
| References | 229 |

**13 Standards for Geographic Hypermedia: MPEG, OGC and co. -
Ralf Klamma, Marc Spaniol, Matthias Jarke, Yiwei Cao,
Michael Jansen, and Georgios Toubekis 233**

| | |
|---|-----|
| 13.1 Introduction | 233 |
| 13.2 Standards for Geographic Information Systems | 236 |
| 13.2.1 Standards for Geographic Data | 236 |
| 13.2.2 Standards for Geographic Infrastructures | 239 |
| 13.3 Standards for Cultural Heritage Management | 240 |
| 13.3.1 CIDOC | 241 |
| 13.3.2 MIDAS | 242 |
| 13.3.3 Object ID and Core Data Standard/Index of Getty Information Institute | 243 |
| 13.4 Standards for Hypermedia | 244 |
| 13.4.1 Dublin Core | 244 |
| 13.4.2 MPEG-7 | 245 |
| 13.4.3 MPEG-21 | 247 |
| 13.5 Comparison and Conclusion | 249 |
| 13.5.1 Comparison of Metadata Standards for Different Domains | 249 |
| 13.5.2 Conclusion | 250 |
| References | 252 |

**14 Semantically-Aware Systems: Extraction of Geosemantics,
Ontology Engineering, and Ontology Integration - Marinos
Kavouras, Margarita Kokla, and Eleni Tomai 257**

| | |
|---|-----|
| 14.1 Introduction | 257 |
| 14.2 Theoretical Issues | 258 |
| 14.2.1 Geosemantics | 259 |
| 14.2.2 Ontologies | 261 |
| 14.3 Methodologies and Tools | 262 |
| 14.3.1 Geo-ontology Engineering | 262 |
| 14.3.2 Extraction of Geosemantics | 265 |
| 14.3.3 Geo-ontology Integration | 267 |
| 14.4 Conclusions | 270 |
| References | 270 |

PART IV: Analytical Functionality and Geovisualizations**15 Towards a Typology of Interactivity Functions for Visual Map
Exploration - Donata Persson, Georg Gartner, and Manfred
Buchroithner 275**

| | |
|--|----------------|
| 15.1 Introduction | 275 |
| 15.2 Typecast of Interactivity Functions Concerning the Map Creation Process | 276 |
| 15.3 Typecast of Interactivity Functions related to Multiple Representations | 280 |
| 15.4 Typecast of Interactivity Functions related to the Third and Fourth Dimension | 281 |
| 15.5 Basic Functions | 283 |
| 15.6 About the Applicability of the Proposed Typology | 283 |
| 15.6.1 Examining Applications by Using the Typology | 283 |
| 15.6.2 Derivation of an Application based on the Typology | 288 |
| 15.7 Usefulness of the Typology | 290 |
| 15.8 Conclusion | 290 |
| References | 291 |
| 16 A Framework for Using Coordinated Displays for the Analysis of Multidimensional, Spatial, and Temporal Data - Natalia Andrienko, and Gennady Andrienko | 293 |
| 16.1 Introduction | 293 |
| 16.2 Taxonomy of Tool Linking Modes | 296 |
| 16.3 Cooperation between Sequential and Concurrent Linking: An Example | 299 |
| 16.4 Conclusion | 306 |
| References | 307 |
| 17 Visualization and Hypermedia for Decision Making - Peter Williams, Eva Siekierska, Costas Armenakis, Florin Savopol, Charles Siegel, and Jessica Webster | 309 |
| 17.1 Introduction | 309 |
| 17.2 Visualization, Hypermedia and Communication in Spatial Decision Making | 310 |
| 17.2.1 Visualization | 312 |
| 17.2.2 Hypermedia | 313 |
| 17.2.3 Collaborative Communication | 314 |
| 17.3 Case Studies: Applications and Systems | 315 |
| 17.3.1 Interactive Map of City of Iqaluit | 315 |
| 17.3.2 Visualization of Past, Present and Future Urban Land Use | 317 |
| 17.3.3 Urban Sprawl Study in City of Ottawa | 318 |
| 17.3.4 Web-based Dynamic Visualization System (DVS) | 319 |
| 17.3.5 Geospatial, Collaborative GeoConference System | 322 |

| | |
|--|------------|
| 17.4 Concluding Remarks | 324 |
| Acknowledgements | 326 |
| References | 326 |
| 18 Geovisualization of Vegetation Patterns in National Parks of the Southeastern United States - Marguerite Madden, Thomas Jordan, and John Dolezal | 329 |
| 18.1 Introduction | 329 |
| 18.2 Vegetation Distributions Related to Terrain Characteristics | 332 |
| 18.3 Development Trends and Potential Impacts on Park Resources | 336 |
| 18.4 Summary..... | 340 |
| Acknowledgements | 341 |
| References | 343 |
| 19 Visualization of Spatial Change - Costas Armenakis, Anita Müller, Eva Siekierska, and Peter Williams | 347 |
| 19.1 Introduction | 347 |
| 19.2 Cartographic Visualization of Spatial Changes | 348 |
| 19.3 Concepts for Change Representation..... | 351 |
| 19.3.1 Change Representation Modes | 353 |
| 19.4 Technology for Change Visualization | 356 |
| 19.4.1 Open GIS Consortium | 357 |
| 19.4.2 Scaleable Vector Graphics..... | 358 |
| 19.4.3 Three Dimensional Environments and Virtual Reality | 358 |
| 19.5 Applications of Change Visualization..... | 360 |
| 19.5.1 Frame Based Change Depiction using Temporal Aerial Photography and Satellite Imagery | 360 |
| 19.5.2 Representation of Temporal Data using Dynamic Interactive Scaleable Information Representation | 363 |
| 19.6 Concluding Remarks | 364 |
| Acknowledgements | 365 |
| References | 366 |
| 20 Scalable Vector Graphics Interfaces for Geographic Applications - Randy George | 369 |
| 20.1 Introduction | 369 |
| 20.2 Examples | 370 |
| 20.3 Summary..... | 379 |
| References | 380 |

PART V: Geographic Hypermedia: Applications and Services

21 About the Role of Cartographic Presentation for Wayfinding - Georg Gartner, and Verena Radoczky381

| | |
|---|-----|
| 21.1 Introduction | 381 |
| 21.2 Test: Analysis of Route Descriptions and Sketches | 382 |
| 21.3 Wayfinding Test: How Much Detail is Necessary to Support Wayfinding | 384 |
| 21.4 General Design Goals of Route Descriptions | 386 |
| 21.5 Presentation Forms | 387 |
| 21.5.1 Maps | 388 |
| 21.5.2 Verbal Information | 389 |
| 21.5.3 Images..... | 390 |
| 21.5.4 Videos..... | 390 |
| 21.5.5 3D Presentation Forms | 391 |
| 21.6 Landmarks | 391 |
| 21.6.1 Derivation of Landmarks..... | 393 |
| 21.7 Conclusion | 395 |
| Acknowledgement | 396 |
| References | 396 |

22 Wireless Campus LBS: Building Campus-Wide Location Based Services Based on WiFi Technology - Barend Köbben, Arthur van Bunningen, and Kavitha Muthukrishnan399

| | |
|--|-----|
| 22.1 The Wireless Campus at the University of Twente | 399 |
| 22.2 Positioning using WiFi technology | 401 |
| 22.3 Mapping the Access Points..... | 402 |
| 22.4 The Wireless Campus Location Based Services..... | 404 |
| 22.5 Test at SVG Open 2005 | 405 |
| 22.6 Outlook | 407 |
| References | 408 |

23 Developing Web-GIS Applications According to HCI Guidelines: The Viti-Vaud Project - Jens Ingensand409

| | |
|--|-----|
| 23.1 Introduction | 409 |
| 23.2 Related work: HCI aspects for the Development of Web-GIS... | 410 |
| 23.3 Development of a Web-GIS Interface According to HCI Guidelines | 412 |
| 23.3.1 Context | 412 |

| | |
|---|----------------|
| 23.3.2 Components | 412 |
| 23.3.3 Requirements | 413 |
| 23.3.4 Usability Analysis and Prototyping | 414 |
| 23.3.5 Evaluation | 416 |
| 23.4 Ideas for Web-GIS Developers | 417 |
| 23.5 Conclusions and Future Work | 418 |
| References | 419 |
| 24 High Definition Geovisualization: Earth and Biodiversity Sciences for Informal Audiences - Ned Gardiner | 421 |
| 24.1 Introduction | 421 |
| 24.2 HDTV Production and the Role of the Geographer | 426 |
| 24.2.1 Obtaining and Manipulating Data | 427 |
| 24.2.2 Interpreting and Animating Maps in Two Dimensions | 433 |
| 24.2.3 Mapping in Three Dimensions | 435 |
| 24.2.4 Global Earth Observation Data Streams | 436 |
| 24.2.5 Image Processing for Global and Regional Visualizations through Time and Space | 438 |
| 24.3 Summary: The Geographer's Role in Producing HDTV Geovisualizations | 442 |
| Acknowledgements | 443 |
| References | 444 |
| 25 Mobile Geographic Education: The MoGeo System - Jerry Mount, David Bennett, and Marc Armstrong | 447 |
| 25.1 Introduction | 447 |
| 25.1.1 Background | 448 |
| 25.2 Educational Framework | 449 |
| 25.2.1 Educational Modes | 451 |
| 25.2.2 Field-based Activities | 452 |
| 25.3 Technological Framework | 455 |
| 25.3.1 Event Triggers | 455 |
| 25.3.2 Events | 456 |
| 25.3.3 Technology | 460 |
| 25.4 Example | 461 |
| 25.5 Discussion and Conclusions | 463 |
| References | 464 |
| Index | 465 |

Geographic Hypermedia

Concepts and Systems

Stefanakis, E.; Peterson, M.P.; Armenakis, C.; Delis, V.

(Eds.)

2006, XXIX, 467 p., Hardcover

ISBN: 978-3-540-34237-3
