## Part I General Theory

---

<b>1</b>	<b>Classical Dynamical Systems</b> .....	3
1.1	Measure Entropy .....	3
1.2	Topological Entropy .....	9
1.3	Entropy via Partitions of Unity .....	11
1.4	Notes .....	14
<b>2</b>	<b>Relative Entropy</b> .....	15
2.1	Relative Entropy for Matrix Algebras .....	15
2.2	Von Neumann Entropy .....	21
2.3	Relative Entropy for General $C^*$ -algebras .....	26
2.4	Notes .....	30
<b>3</b>	<b>Dynamical Entropy</b> .....	33
3.1	Mutual Entropy .....	33
3.2	Entropy of Dynamical Systems .....	48
3.3	Type I Algebras .....	54
3.4	Notes .....	57
<b>4</b>	<b>Maximality of Entropy and Commutativity</b> .....	61
4.1	Maximal Entropy of Subalgebras .....	61
4.2	Independent Algebras .....	66
4.3	Entropic K-systems .....	69
4.4	Notes .....	74
<b>5</b>	<b>Dynamical Abelian Models</b> .....	77
5.1	Entropy via Stationary Couplings .....	77
5.2	Zero Entropy Systems .....	86
5.3	Notes .....	91

<b>6</b>	<b>Topological Entropy</b> .....	93
6.1	Rank of a Completely Positive Approximation .....	93
6.2	Topological Entropy .....	96
6.3	Notes .....	103
<b>7</b>	<b>Dynamics on the State Space</b> .....	107
7.1	Measure Entropy .....	107
7.2	Topological Entropy .....	110
7.3	Notes .....	119
<b>8</b>	<b>Crossed Products</b> .....	121
8.1	Crossed Products by Discrete Amenable Groups .....	121
8.2	Generalizations .....	125
8.3	Notes .....	130
<b>9</b>	<b>Variational Principle</b> .....	133
9.1	Pressure .....	133
9.2	The variational principle .....	138
9.3	KMS-states .....	144
9.4	Notes .....	151

---

## Part II Special Topics

---

<b>10</b>	<b>Relative Entropy and Subfactors</b> .....	157
10.1	Relative Entropy .....	157
10.2	Index of Subfactors .....	164
10.3	Generators and Relative Entropy .....	167
10.4	The Canonical Shift .....	171
10.5	Shifts on Temperley-Lieb Algebras .....	180
10.6	Notes .....	183
<b>11</b>	<b>Systems of Algebraic Origin</b> .....	185
11.1	Twisted Group $C^*$ -algebras .....	185
11.2	Estimates of Topological Entropy .....	187
11.3	K-systems .....	194
11.4	Zero Entropy Systems .....	201
11.5	Automorphisms of Noncommutative Tori .....	206
11.6	Notes .....	209
<b>12</b>	<b>Binary Shifts</b> .....	211
12.1	The $C^*$ -algebra of a Bitstream .....	211
12.2	Entropy of Binary Shifts .....	217
12.3	Notes .....	224

<b>13 Bogoliubov Automorphisms</b> .....	227
13.1 Canonical Anticommutation Relations .....	227
13.2 Topological Entropy .....	229
13.3 Classical Bernoullian Subsystems .....	233
13.4 Dynamical Entropy .....	238
13.5 Notes .....	248
<b>14 Free Products</b> .....	251
14.1 Free Products of Algebras and Maps .....	251
14.2 Free Shifts .....	254
14.3 Free Product Automorphisms .....	257
14.4 Notes .....	263
<b>A Completely Positive Maps</b> .....	265
<b>B Operator Inequalities</b> .....	271
<b>C Direct Integrals</b> .....	275
<b>References</b> .....	279
<b>List of Symbols</b> .....	291
<b>Index</b> .....	295
