## Contents

<b>1</b>	<b>Simple Random Walk</b> .....	1
1.1	Asymptotic Behaviour .....	1
1.2	Universality and Spread-Out Models .....	5
<b>2</b>	<b>The Self-Avoiding Walk</b> .....	7
2.1	Asymptotic Behaviour .....	7
2.2	Differential Inequalities and the Bubble Condition .....	14
<b>3</b>	<b>The Lace Expansion for the Self-Avoiding Walk</b> .....	19
3.1	Inclusion-Exclusion .....	19
3.2	Expansion .....	21
3.3	Laces and Resummation .....	24
3.4	Transformations .....	27
<b>4</b>	<b>Diagrammatic Estimates for the Self-Avoiding Walk</b> .....	31
4.1	The Diagrammatic Estimates .....	31
4.2	Proof of the Diagrammatic Estimates .....	33
<b>5</b>	<b>Convergence for the Self-Avoiding Walk</b> .....	41
5.1	Random-Walk Estimates .....	41
5.2	Convergence of the Expansion .....	46
5.3	Finite Bubble vs Small Bubble .....	54
5.4	Differential Equality and the Bubble Condition .....	54
<b>6</b>	<b>Further Results for the Self-Avoiding Walk</b> .....	57
6.1	The Self-Avoiding Walk in Dimensions $d > 4$ .....	57
6.2	A Self-Avoiding Walk in Dimension $d = 1$ .....	61
6.3	Nearest-Neighbour Attraction .....	62
6.4	Networks of Self-Avoiding Walks .....	63

<b>7</b>	<b>Lattice Trees</b> .....	67
7.1	Asymptotic Behaviour .....	67
7.2	Differential Inequalities and the Square Condition .....	71
<b>8</b>	<b>The Lace Expansion for Lattice Trees</b> .....	77
8.1	Expansion for Lattice Trees .....	77
8.2	Expansion for Lattice Animals .....	81
8.3	Diagrammatic Estimates for Lattice Trees .....	83
<b>9</b>	<b>Percolation</b> .....	87
9.1	The Phase Transition .....	87
9.2	Differential Inequalities .....	91
9.3	Differential Inequalities and the Triangle Condition .....	95
9.4	Proofs of the Differential Inequalities .....	99
<b>10</b>	<b>The Expansion for Percolation</b> .....	109
10.1	The Expansion .....	109
10.2	The Diagrams .....	116
10.3	Diagrammatic Estimates for Percolation .....	121
<b>11</b>	<b>Results for Percolation</b> .....	125
11.1	Critical Exponents .....	125
11.2	The Critical Value .....	129
11.3	The Incipient Infinite Cluster .....	130
11.4	Percolation on Finite Graphs .....	133
<b>12</b>	<b>Oriented Percolation</b> .....	141
12.1	The Phase Transition .....	141
12.2	The Infrared Bound and the Triangle Condition .....	143
12.3	The Critical Value .....	146
12.4	The Incipient Infinite Cluster .....	147
<b>13</b>	<b>Expansions for Oriented Percolation</b> .....	151
13.1	Inclusion-Exclusion .....	152
13.2	Laces and Resummation .....	154
13.3	Application of the Percolation Expansion .....	156
13.4	The Upper Critical Dimension .....	157
13.5	Diagrams for Oriented Percolation .....	158
<b>14</b>	<b>The Contact Process</b> .....	161
14.1	The Phase Transition .....	161
14.2	Approximation by Oriented Percolation .....	163
14.3	The Infrared Bound and the Triangle Condition .....	164
14.4	Expansion for the Contact Process .....	167
14.5	Diagrams for the Contact Process .....	169

<b>15</b>	<b>Branching Random Walk</b> .....	171
15.1	A Mean-Field Model .....	171
15.2	Branching Random Walk .....	172
15.3	Weakly Self-Avoiding Lattice Trees .....	180
<b>16</b>	<b>Integrated Super-Brownian Excursion</b> .....	183
16.1	Moment Measures of Branching Random Walk .....	183
16.2	Critical Exponents and Generating Functions .....	185
16.3	Construction of ISE .....	189
16.4	Lattice trees and ISE .....	194
16.5	Critical Percolation and ISE .....	197
<b>17</b>	<b>Super-Brownian Motion</b> .....	201
17.1	The Canonical Measure of SBM .....	201
17.2	Moment Measures of the Canonical Measure .....	203
17.3	Critical Oriented Percolation and SBM .....	207
17.4	The Critical Contact Process and SBM .....	209
17.5	Lattice Trees and SBM .....	210
	<b>References</b> .....	211
	<b>Index</b> .....	221
