Part I Introduction

Dialogue Systems Go Multimodal: The SmartKom Experience

Wolfgang Wahlster 3

Facts and Figures About the SmartKom Project

Anselm Blocher 29

An Exemplary Interaction with SmartKom

Norbert Reithinger, Gerd Herzog 41

Part II Multimodal Input Analysis

The SmartKom Architecture: A Framework for Multimodal Dialogue Systems

Gerd Herzog, Norbert Reithinger 55

Modeling Domain Knowledge: Know-How and Know-What

Iryna Gurevych, Robert Porzel, Rainer Malaka 71

Speech Recognition

André Berton, Alfred Kaltenmeier, Udo Haiber, Olaf Schreiner 85

Class-Based Language Model Adaptation

Martin C. Emele, Zica Valsan, Yin Hay Lam, Silke Goronzy 109

The Dynamic Lexicon

Silke Goronzy, Stefan Rapp, Martin Emele 123

The Prosody Module

Viktor Zeißler, Johann Adelhardt, Anton Batliner, Carmen Frank, Elmar Nöth, Rui Ping Shi, Heinrich Niemann 139

The Sense of Vision: Gestures and Real Objects

Jens Racky, Michael Lützel, Hans Röttger 153

The Facial Expression Module

Carmen Frank, Johann Adelhardt, Anton Batliner, Elmar Nöth, Rui Ping Shi, Viktor Zeißler, Heinrich Niemann 167

Multiple Biometrics

Stephan Grashy, Matthias Schuster 181

Natural Language Understanding

Ralf Engel 195

The Gesture Interpretation Module

Rui Ping Shi, Johann Adelhardt, Anton Batliner, Carmen Frank, Elmar Nöth, Viktor Zeißler, Heinrich Niemann 209

Part III Multimodal Dialogue Processing

Modality Fusion

Ralf Engel, Norbert Pflger 223

Discourse Modeling

Jan Alexandersson, Norbert Pflger 237

Overlay: The Basic Operation for Discourse Processing

Jan Alexandersson, Tilman Becker, Norbert Pflger 255

In Context: Integrating Domain- and Situation-Specific Knowledge

Robert Porzel, Iryna Gurevych, Rainer Malaka 269

Intention Recognition

Jürgen te Vrugt, Thomas Portele 285

Plan-Based Dialogue Management for Multiple Cooperating Applications

Markus Löckelt 301

Emotion Analysis and Emotion-Handling Subdialogues

Michael Streit, Anton Batliner, Thomas Portele 317

Problematic, Indirect, Affective, and Other Nonstandard Input Processing

Michael Streit 333

Part IV Multimodal Output Generation

Realizing Complex User Wishes with a Function Planning Module

Sunna Torge, Christian Hying 349

Intelligent Integration of External Data and Services into SmartKom

Hidir Aras, Vasu Chandrasekhara, Sven Krüger, Rainer Malaka, Robert Porzel 363

Multimodal Fission and Media Design

Peter Poller, Valentin Tschernomas 379

Natural Language Generation with Fully Specified Templates

Tilman Becker 401

Multimodal Speech Synthesis

*Antje Schweitzer, Norbert Braunschweiler, Grzegorz Dogil, Tanja Klankert,
Bernd Möbius, Gregor Möhler, Edmilson Morais, Bettina Säuberlich,
Matthias Thomae* 411

Part V Scenarios and Applications

Building Multimodal Dialogue Applications: System Integration in SmartKom

Gerd Herzog, Alassane Ndiaye 439

SmartKom-English: From Robust Recognition to Felicitous Interaction

*David Gelbart, John Bryant, Andreas Stolcke, Robert Porzel, Manja Baudis
and Nelson Morgan* 453

SmartKom-Public

Axel Horndasch, Horst Rapp, Hans Röttger 471

SmartKom-Home: The Interface to Home Entertainment

*Thomas Portele, Silke Goronzy, Martin Emele, Andreas Kellner, Sunna Torge,
Jürgen te Vrugt* 493

SmartKom-Mobile: Intelligent Interaction with a Mobile System

*Rainer Malaka, Jochen Häußler, Hidir Aras, Matthias Merdes, Dennis
Pfisterer, Matthias Jöst, and Robert Porzel* 505

SmartKom-Mobile Car: User Interaction with Mobile Services in a Car Environment

André Berton, Dirk Bühler, Wolfgang Minker 523

Part VI Data Collection and Evaluation

Wizard-of-Oz Recordings

Florian Schiel, Ulli Türk 541

Annotation of Multimodal Data

Silke Steininger, Florian Schiel, Susen Rabold 571

Multimodal Emogram, Data Collection and Presentation

Johann Adelhardt, Carmen Frank, Elmar Nöth, Rui Ping Shi, Viktor Zeißler, Heinrich Niemann 597

Empirical Studies for Intuitive Interaction

Iryna Gurevych, Robert Porzel 603

Evaluation of Multimodal Dialogue Systems

Florian Schiel 617
