<b>1</b>	<b>Embryological and Anatomical Introduction . . . .</b>	<b>1</b>
<b>1.1</b>	<b><i>Preliminary Remarks . . . . .</i></b>	<b>1</b>
<b>1.2</b>	<b><i>Leptomeninges . . . . .</i></b>	<b>21</b>
<b>1.3</b>	<b><i>Subpial Space . . . . .</i></b>	<b>22</b>
1.3.1	Anatomy . . . . .	22
1.3.2	Relationships of the Subpial Space . . . . .	23
1.3.3	Pathology . . . . .	23
1.3.3.1	Inflammation . . . . .	23
1.3.3.2	Tumors . . . . .	24
<b>2</b>	<b>Introduction and General Comments Regarding Pediatric Intracranial Arteriovenous Shunts . . . .</b>	<b>27</b>
<b>2.1</b>	<b><i>Introduction . . . . .</i></b>	<b>28</b>
<b>2.2</b>	<b><i>From Adults to Children . . . . .</i></b>	<b>28</b>
<b>2.3</b>	<b><i>Vascular Lesion Types and Disease Groups . . . . .</i></b>	<b>31</b>
2.3.1	Nonproliferative Lesions . . . . .	34
2.3.1.1	Arteriovenous Lesions . . . . .	34
2.3.1.2	Isolated Brain AVMs . . . . .	35
2.3.1.3	Cerebral Arteriovenous Fistulas . . . . .	39
2.3.1.4	Vein of Galen Aneurysmal Malformations . . . . .	39
2.3.1.5	Cerebrofacial Arteriovenous Metameric Syndromes . . .	39
2.3.1.6	Dural Lesions . . . . .	41
2.3.1.7	Telangiectasias . . . . .	41
2.3.1.8	The Blue Rubber-Bleb Nevus or Bean Syndrome . . . . .	41
2.3.1.9	Venous Malformations (Cavernomas) . . . . .	44
2.3.1.10	Venous Angiomas or Developmental Venous Anomalies	45
2.3.1.11	Cerebrofacial Venous Metameric Syndrome (Sturge-Weber Syndrome) . . . . .	47
2.3.1.12	Induced Pial Shunts . . . . .	47
2.3.1.13	Spinal Cord AVM . . . . .	48
2.3.1.14	General Conclusions on Vascular Lesions . . . . .	48
2.3.2	Proliferative Lesions . . . . .	49
2.3.2.1	PHACE or PHACES . . . . .	51
2.3.2.2	Diffuse Angiodysplasia . . . . .	51

<b>2.4</b>	<b><i>Classification of CAVMs by Age Group</i></b>	56
2.4.1	Fetal Age	56
2.4.2	Neonatal Age	59
2.4.3	Infancy	59
2.4.4	After 2 Years	62
<b>2.5</b>	<b><i>Classification by Symptom Group</i></b>	63
2.5.1	Congestive Cardiac Manifestations	63
2.5.2	Hydrodynamic Disorders	64
2.5.3	Melting-Brain Syndrome	73
<b>2.6</b>	<b><i>Clinical Evaluation Scores</i></b>	77
<b>2.7</b>	<b><i>Revised Concept of the Congenital Nature of Vascular Malformations</i></b>	85
2.7.1	Genetics	85
2.7.1.1	Familial Hemiplegic Migraine	85
2.7.1.2	Familial Cerebral Aneurysms	86
2.7.1.3	PKD1 and Bourneville PDK1-PDK2	86
2.7.1.4	Ehlers-Danlos Type IV	87
2.7.1.5	Multiple Cutaneous Mucous Venous Malformations, Blue Rubber Bleb Nevus Syndrome	87
2.7.1.6	CADASIL	87
2.7.1.7	Familial Paragangliomas	87
2.7.1.8	Familial Cavernomas	87
2.7.1.9	Neurofibromatosis-1 and Other Collagen Diseases	88
2.7.1.10	Hemorrhagic Hereditary Telangiectasia or Rendu-Osler-Weber Disease	88
<b>2.8</b>	<b><i>Vascular Remodeling and the Congenital Nature of Arteriovenous Shunts</i></b>	93
2.8.1	Endothelium as a Sensor and Transducer of Signals	94
2.8.2	Endothelium-Specific Receptor-Coupled Event	95
2.8.3	Endothelium and Mediator-Effector Molecules Involved with Remodeling	95
2.8.4	Role of Matrix Modulators in Vascular Remodeling	95
2.8.5	Clinical Implications of Vascular Remodeling	95
<b>3</b>	<b><i>Vein of Galen Aneurysmal Malformation</i></b>	105
