

Table of contents

1 Introduction	1
1.1 Central motivation for the study	3
1.2 Outline	4
2 Objectives of pension systems.....	7
2.1 Pension system – a definition	7
2.2 Individual risks faced in old age	9
2.3 Basic principles: equitable distribution and sustainability	10
2.3.1 Intragenerational justice	11
2.3.2 Intergenerational justice	14
2.3.3 Sustainability	16
2.3.4 Dependencies between principles.....	17
2.4 Stipulation of tangible objectives.....	18
2.4.1 Objectives set by the European Union	19
2.4.2 Key objectives	22
3 Determining factors for sustainability and distributional effects of pension systems.....	27
3.1 Exogenous risk factors.....	28
3.1.1 Macroeconomic risk factors	30
3.1.2 Social risk factors	32
3.1.3 Summary	34
3.2 System parameters to counterbalance the effects of exogenous risk factors	36
3.2.1 Method of finance: pay-as-you-go financing versus funding.....	37
3.2.2 Further system parameters.....	44
3.3 Sustainability and distributional effects of three prototypes of old-age insurance	53
3.3.1 Characteristics	53
3.3.2 Risks assumed by participants.....	55
3.3.3 Distributional effects	57
3.3.4 Financial sustainability.....	59
3.4 Reducing exogenous risks with a combined system of old-age insurance.....	60

4 The macroeconomic and social environment of Germany and the United Kingdom.....	67
4.1 Development of macroeconomic key indicators.....	67
4.2 Social and economic trends challenging pension systems.....	74
4.2.1 Demographic change.....	74
4.2.2 European integration and globalisation.....	80
4.2.3 Labour markets: changing employment patterns.....	82
4.2.4 Changing family patterns	83
5 Comparative description of the pension systems in Germany and the United Kingdom	87
5.1 Criteria of comparison	87
5.2 Short overview.....	89
5.2.1 Introductory remarks: Shortcomings of the pension pillar concept....	89
5.2.2 Germany.....	91
5.2.3 United Kingdom.....	92
5.3 The mandatory pension systems	93
5.3.1 Covered part of the population.....	93
5.3.2 Insured risks	94
5.3.3 Financing.....	97
5.3.4 Calculation of benefits	98
5.3.5 Elements of social redistribution.....	102
5.3.6 Taxation of contributions and benefits	103
5.3.7 Minimum pension and subsidiary system	104
5.4 Supplementary pension provision.....	105
5.4.1 Germany.....	105
5.4.2 United Kingdom.....	108
5.5 Preliminary assessment of the pension systems.....	108
6 Empirical analysis of the income situation of the elderly in Germany and the United Kingdom.....	111
6.1 Preliminary remarks.....	111
6.1.1 Objectives of the empirical analysis.....	111
6.1.2 Income concepts.....	112
6.1.3 Measuring income distribution.....	115
6.1.4 The datasets.....	117
6.1.5 Outline of the empirical analysis.....	124
6.2 Developments in net incomes	124
6.2.1 Pre-government and net incomes	125
6.2.2 Net incomes in the national macroeconomic context.....	132
6.2.3 Relative income positions	134
6.3 The distribution of income.....	136
6.3.1 Lorenz Curve presentations.....	137
6.3.2 Indicators of income inequality.....	140
6.4 Income poverty	142

6.5 Income sources of the elderly	148
6.5.1 Overall income composition.....	149
6.5.2 Mean income among recipients.....	154
6.5.3 Recipients by sex.....	157
6.5.4 Labour market participation among the elderly.....	159
6.6 Panel analyses.....	163
6.6.1 Retirement age.....	163
6.6.2 Old-age income ratios	168
6.6.3 Income composition of new pensioners	175
6.6.4 Regression analysis on equivalent income	179
6.7 Conclusions from the empirical analysis	181
6.7.1 Impact of the institutional structures	182
6.7.2 Assessment of compliance with the key objectives of pension systems	186
7 Sustainability and distributional perspectives of the German and the United Kingdom pension system.....	189
7.1 Status quo projections until 2050.....	189
7.2 Risks for sustainability and distributional equity of the pension systems	197
7.2.1 Germany	197
7.2.2 United Kingdom.....	202
7.3 Reform options and their effects on sustainability and income distribution.....	206
7.3.1 Germany	206
7.3.2 United Kingdom.....	213
8 Final remarks.....	219
Appendix	223
References	267
List of Figures	277
List of Tables.....	281

Pension Systems

Sustainability and Distributional Effects in Germany and
the United Kingdom

Mattil, B.

2006, XII, 284 p. 41 illus., Softcover

ISBN: 978-3-7908-1675-4
