

Table of Contents

1	Introduction.....	1
1.1	Motivation	1
1.2	Research Aims	3
1.3	Reading Guide	4
2	Foundations of Comparable Company Valuation	7
2.1	Definitions and Scope.....	7
2.2	Comparable Company Valuation Within the Business Valuation Framework.....	9
2.2.1	Value Theories.....	9
2.2.2	Value Versus Price	13
2.2.3	Approaches to Company Valuation.....	18
2.2.4	Purposes of Appraisal	25
2.2.5	Classification of Comparable Company Valuation	27
2.3	Rationale and Style of Comparable Company Valuation	30
2.3.1	Immediate Valuation Models	30
2.3.2	Single-Factor Valuation Models	32
2.3.3	Multi-Factor Valuation Models	34
2.4	Special Tasks in Comparable Company Valuation	35
2.4.1	Quality of Accounting Variables	35
2.4.2	Aggregating the Peer Group Results	38
2.4.3	Premiums and Discounts	42
3	Interrelation of Comparable Company Selection and Valuation	
	Model Choice.....	47
3.1	Determinants of Comparable Company Selection.....	49
3.1.1	Degree of Similarity of the Peer Group Companies	49
3.1.2	Degree of Market Efficiency and Pricing Quality	55
3.1.3	Consequences for Comparable Company Valuation with Special Regard to the Peer Group Selection	68
3.1.4	Implications for the Choice of the Valuation Model	71
3.2	Determinants of Valuation Model Choice	73
3.2.1	Value Relevance of the Reference Variables.....	73
3.2.2	Future Similarity Between the Target Company and Comparable Companies.....	91
3.2.3	Technical Limitations of Valuation Models	93

3.2.4	Consequences for Comparable Company Valuation with Special Regard to the Choice of the Valuation Model	96
3.2.5	Implications for the Selection of Comparable Companies	98
3.3	Comparable Company Valuation as an Integrated Process	100
4	Processing Comparable Company Valuation.....	103
4.1	Immediate Comparable Company Valuation	103
4.1.1	Valuation Process	103
4.1.2	Problems Associated with Immediate Comparable Company Valuation Models.....	104
4.2	Single-Factor Comparable Company Valuation.....	105
4.2.1	Valuation Process	105
4.2.2	Problems Associated with Single-Factor Comparable Company Valuation Models.....	108
4.3	Multi-Factor Comparable Company Valuation	120
4.3.1	Existing Models.....	120
4.3.2	Derivation of a Two-Factor Model Based on Book Value and Earnings	125
5	Empirical Study	139
5.1	Data	139
5.1.1	Sample Selection	139
5.1.2	Variables.....	141
5.2	Value Relevance.....	142
5.2.1	Previous Empirical Results.....	142
5.2.2	Variable Definition.....	144
5.2.3	Hypotheses and Econometric Methodology	146
5.2.4	Results	163
5.3	Pricing Accuracy	188
5.3.1	Previous Empirical Results.....	188
5.3.2	Variable Definition and Methodology.....	190
5.3.3	Results	193
6	Concluding Remarks.....	197
6.1	Implications for Business Valuation.....	198
6.2	Implications for Future Research	202
7	Appendix	205
7.1	Detailed Derivation of the Two-Factor Comparable Company Valuation Model.....	205
7.2	Proof of the Convergence of R^2	206
7.3	Industries Included in the Empirical Study	208
7.4	Descriptive Statistics	209
7.4.1	Descriptive Statistics by Creditworthiness	209
7.4.2	Descriptive Statistics by Industry Structure	210
7.4.3	Descriptive Statistics by Asset Heaviness	211

7.5	Annual R^2 for Single-Factor Models	212
7.6	Adjusting Creditworthiness for the Impact of Earnings	215
List of Figures		219
List of Tables.....		221
