

Contents

Preface <i>K. N. Subramanian</i>	1
Thermodynamics and phase diagrams of lead-free solder materials <i>H. Ipser, H. Flandorfer, Ch. Luef, C. Schmetterer and U. Saeed</i>	3
Phase diagrams of Pb-free solders and their related materials systems <i>Sinn-Wen Chen, Chao-Hong Wang, Shih-Kang Lin and Chen-Nan Chiu</i>	19
The effects of suppressed beta tin nucleation on the microstructural evolution of lead-free solder joints <i>D. Swenson</i>	39
Development of Sn–Ag–Cu and Sn–Ag–Cu–X alloys for Pb-free electronic solder applications <i>Iver E. Anderson</i>	55
Rare-earth additions to lead-free electronic solders <i>C. M. L. Wu and Y. W. Wong</i>	77
Compression stress–strain and creep properties of the 52In–48Sn and 97In–3Ag low-temperature Pb-free solders <i>Paul T. Vianco, Jerome A. Rejent, Arlo F. Fossum and Michael K. Neilsen</i>	93
Sn–Zn low temperature solder <i>Katsuaki Sukanuma and Kuen-Soo Kim</i>	121
Composite lead-free electronic solders <i>Fu Guo</i>	129
Processing and material issues related to lead-free soldering <i>Laura J. Turbini</i>	147
Interfacial reaction issues for lead-free electronic solders <i>C. E. Ho, S. C. Yang and C. R. Kao</i>	155
Microstructure-based modeling of deformation in Sn-rich (Pb-free) solder alloys <i>N. Chawla and R. S. Sidhu</i>	175
Deformation behavior of tin and some tin alloys <i>Fuqian Yang and J. C. M. Li</i>	191

Mechanical fatigue of Sn-rich Pb-free solder alloys <i>J. K. Shang, Q. L. Zeng, L. Zhang and Q. S. Zhu</i>	211
Life expectancies of Pb-free SAC solder interconnects in electronic hardware <i>Michael Osterman and Abhijit Dasgupta</i>	229
Assessment of factors influencing thermomechanical fatigue behavior of Sn-based solder joints under severe service environments <i>K. N. Subramanian</i>	237
Electromigration statistics and damage evolution for Pb-free solder joints with Cu and Ni UBM in plastic flip-chip packages <i>Seung-Hyun Chae, Xuefeng Zhang, Kuan-Hsun Lu, Huang-Lin Chao, Paul S. Ho, Min Ding, Peng Su, Trent Uehling and Lakshmi N. Ramanathan</i>	247
Electromigration issues in lead-free solder joints <i>Chih Chen and S. W. Liang</i>	259
Stress analysis of spontaneous Sn whisker growth <i>K. N. Tu, Chih Chen and Albert T. Wu</i>	269
Sn-whiskers: truths and myths <i>J. W. Osenbach, J. M. DeLucca, B. D. Pottleiger, A. Amin and F. A. Baiocchi</i>	283
Tin pest issues in lead-free electronic solders <i>W. J. Plumbridge</i>	307
Issues related to the implementation of Pb-free electronic solders in consumer electronics <i>D. R. Frear</i>	319
Impact of the ROHS directive on high-performance electronic systems Part I: need for lead utilization in exempt systems <i>Karl J. Puttlitz and George T. Galyon</i>	331
Impact of the ROHS Directive on high-performance electronic systems Part II: key reliability issues preventing the implementation of lead-free solders <i>Karl J. Puttlitz and George T. Galyon</i>	347
Index	367

Lead-Free Electronic Solders

A Special Issue of the Journal of Materials Science:

Materials in Electronics

Subramanian, K. (Ed.)

2007, VI, 378 p., Hardcover

ISBN: 978-0-387-48431-0
