PART I. ANALYSIS OF THE HEART PROTEOME

1 Two-Dimensional Polyacrylamide Gel Electrophoresis
for Cardiovascular Proteomics 3
Michael J. Dunn

2 Analyzing the Cardiac Muscle Proteome by Liquid Chromatography–
Mass Spectrometry-Based Expression Proteomics 15
**Anthony O. Gramolini, Thomas Kislinger, Peter Liu,
David H. MacLennan, and Andrew Emili**

3 Two-Dimensional Differential Gel Electrophoresis of Rat Heart
Proteins in Ischemia and Ischemia-Reperfusion 33
**Jun Sakai, Hironori Ishikawa, Hideshi Satoh, Setsuko Yamamoto,
Shinichi Kojima, and Masaharu Kanaoka**

4 Analysis of Antihypertensive Drugs in the Heart of Animal Models:
A Proteomic Approach 45
**Alberto Lázaro, Julio Gállego-Delgado, Julio I. Osende, Jesús Egido,
and Fernando Vivanco**

5 A Solubility Optimization Protocol For Two-Dimensional Gel
Electrophoresis of Cardiac Tissue 59
Brian A. Stanley and Jennifer E. Van Eyk

6 A Method for Effective Depletion of Albumin From Cellular Extracts:
Application to Human Myocardium 67
Brian A. Stanley and Jennifer E. Van Eyk

PART II. HEART SUBPROTEOMES

7 Subcellular Fractionation 73
Mariana Eça Guimarães de Araújo and Lukas Alfons Huber

8 Subfractionation of Heart Tissue: *The “In Sequence” Myofilament
Protein Extraction of Myocardial Tissue* 87
Lesley A. Kane, Irina Neverova, and Jennifer E. Van Eyk

9 Optimization of Cardiac Troponin I Pull-Down by IDM Affinity Beads
and SELDI 91
Diane E. Bovenkamp, Brian A. Stanley, and Jennifer E. Van Eyk

- 10 Proteomic Analysis of the Subunit Composition of Complex I
(NADH:Ubiquinone Oxidoreductase) From Bovine Heart
Mitochondria 103
Ian M. Fearnley, Joe Carroll, and John E. Walker
- 11 Identification of Targets of Phosphorylation in Heart Mitochondria 127
Roberta A. Gottlieb

PART III. PROTEOMICS OF HUMAN ATHEROMA PLAQUES

- 12 Characterization of the Human Atheroma Plaque Secretome
by Proteomic Analysis 141
**Mari-Carmen Durán, Jose L. Martín-Ventura, Sebastián Mas,
Maria G. Barderas, Verónica M. Dardé, Ole N. Jensen,
Jesús Egido, and Fernando Vivanco**
- 13 Characterization of HSP27 Phosphorylation Sites in Human
Atherosclerotic Plaque Secretome 151
**Mari-Carmen Durán, Elisabetta Boeri-Erba, Shabaz Mohammed,
Jose L. Martín-Ventura, Jesús Egido, Fernando Vivanco,
and Ole N. Jensen**
- 14 Western Array Analysis of Human Atherosclerotic Plaques 165
Wim Martinet

PART IV. THE PROTEOME OF CELLS OF THE CARDIOVASCULAR SYSTEM

- 15 The Proteome of Endothelial Cells 181
**Jesús González-Cabrero, Mayte Pozo, Mari-Carmen Durán,
Rosario de Nicolás, Jesús Egido, and Fernando Vivanco**
- 16 Proteomic Study of Caveolae and Rafts Isolated From
Human Endothelial Cells 199
Richard R. Sprenger and Anton J. G. Horrevoets
- 17 Proteomic Identification of S-Nitrosylated Proteins
in Endothelial Cells 215
Antonio Martínez-Ruiz and Santiago Lamas
- 18 The Proteome and Secretome of Human Arterial
Smooth Muscle Cell 225
Annabelle Dupont and Florence Pinet
- 19 Real-Time In Vivo Proteomic Identification of Novel Kinase
Substrates in Smooth Muscle 235
Anne A. Wooldridge and Timothy A. Haystead
- 20 Proteomic Analysis of Vascular Smooth Muscle Cells Treated
With Ouabain 253
Alexey V. Pshezhetsky

21	Isolation and Culture of Adult Mouse Cardiac Myocytes	271
	<i>Timothy D. O'Connell, Manoj C. Rodrigo, and Paul C. Simpson</i>	
22	Proteomic Analysis of Foam Cells	297
	<i>Peng-Yuan Yang, Yao-Cheng Rui, Peng-Yuan Yang, and Yan-Ling Yu</i>	
23	Isolation of the Platelet Releasate	307
	<i>Judith Coppinger, Desmond J. Fitzgerald, and Patricia B. Maguire</i>	
24	Enrichment of Phosphotyrosine Proteome of Human Platelets by Immunoprecipitation	313
	<i>Martina Foy, Donal F. Harney, Kieran Wynne, and Patricia B. Maguire</i>	
25	Characterization of Circulating Human Monocytes by Proteomic Analysis	319
	<i>Maria G. Barderas, Verónica M. Dardé, Mari-Carmen Durán, Jesús Egido, and Fernando Vivanco</i>	
PART V. CARDIOVASCULAR BIOMARKERS IN PLASMA		
26	Cardiovascular Biomarker Discovery by SELDI-TOF Mass Spectrometry	331
	<i>Olivier Meilhac, Sandrine Delbosc, and Jean-Baptiste Michel</i>	
27	Detection of Biomarkers of Stroke Using SELDI-TOF	343
	<i>Jean-Charles Sanchez, Pierre Lescuyer, Denis Hochstrasser, and Laure Allard</i>	
28	Depletion of High-Abundance Proteins in Plasma by Immunoaffinity Substraction for Two-Dimensional Difference Gel Electrophoresis Analysis	351
	<i>Verónica M. Dardé, Maria G. Barderas, and Fernando Vivanco</i>	
29	A Rapid, Economical, and Reproducible Method For Human Serum Delipidation and Albumin and IgG Removal For Proteomic Analysis	365
	<i>Qin Fu, Diane E. Bovenkamp, and Jennifer E. Van Eyk</i>	
PART VI. BIOINFORMATICS: EMERGING TECHNOLOGIES		
30	Mitoproteome: Human Heart Mitochondrial Protein Sequence Database	375
	<i>Purnima Guda, Shankar Subramaniam, and Chittibabu Guda</i>	
31	Techniques to Decipher Molecular Diversity by Phage Display	385
	<i>Dawn R. Christianson, Michael G. Ozawa, Renata Pasqualini, and Wadih Arap</i>	
	Index	407

Cardiovascular Proteomics

Methods and Protocols

Vivanco, F. (Ed.)

2007, 432 p. 134 illus., 6 illus. in color., Hardcover

ISBN: 978-1-58829-535-4
