## Contents

<b>List of Contributors</b> .....	ix
<b>1 Active Polymers: An Overview</b> R. Samatham, K.J. Kim, D. Dogruer, H.R. Choi, M. Konyo, J.D. Madden, Y. Nakabo, J.-D. Nam, J. Su, S. Tadokoro, W. Yim, M. Yamakita .....	1
<b>2 Dielectric Elastomers for Artificial Muscles</b> J.-D. Nam, H.R. Choi, J.C. Koo, Y.K. Lee, K.J. Kim .....	37
<b>3 Robotic Applications of Artificial Muscle Actuators</b> H.R. Choi, K. M. Jung, J.C. Koo, J.-D. Nam .....	49
<b>4 Ferroelectric Polymers for Electromechanical Functionality</b> J. Su .....	91
<b>5 Polypyrrole Actuators: Properties and Initial Applications</b> J.D. Madden.....	121
<b>6 Ionic Polymer-Metal Composite as a New Actuator and Transducer Material</b> K.J. Kim.....	153
<b>7 Biomimetic Soft Robots Using IPMC</b> Y. Nakabo, T. Mukai, K. Asaka .....	165
<b>8 Robotic Application of IPMC Actuators with Redoping Capability</b> M. Yamakita, N. Kamamichi, Z.W. Luo, K. Asaka.....	199
<b>9 Applications of Ionic Polymer-Metal Composites: Multiple-DOF Devices Using Soft Actuators and Sensors</b> M. Konyo, S. Tadokoro, K. Asaka .....	227

<b>10 Dynamic Modeling of Segmented IPMC Actuator</b>	
W. Yim, K.J. Kim .....	263
<b>Index</b> .....	279

Electroactive Polymers for Robotic Applications

Artificial Muscles and Sensors

Kim, K.J.; Tadokoro, S. (Eds.)

2007, X, 281 p., Hardcover

ISBN: 978-1-84628-371-0
