

---

## Contents

---

### 1 Bio- and Nano-technologies

---

1-1	Preheated Carbon Source for Carbon Nanotube Synthesis <i>C.Y. Liu, N.K. Chang, Y.T. Chang, J.H. Hsu and S.H. Chang</i> .....	3
1-2	Nano Manufacturing of a Small-tipped Stylus for Measurement of Micro-Machine Elements with Concave Surfaces <i>S. Kurokawa and S. Imamura</i> .....	7
1-3	Surface Plasmon Resonance Instrument to Detect Biomolecular Interactions <i>C.L. Chiang, H.C. Shih, T.K. Chou and C.T. Yang</i> .....	11

---

### 2 Coating Technology

---

2-1	Plasma-Ion Enhanced Optical Multilayer Thin-film Coating for Consumer Electronics Products <i>G.L. Chen, C.C. Chang, S.C. Chien, T.S. Tung, H.H. Lee, W.C. Ling and H.L. Lee</i> .....	17
2-2	The Structure and Properties of Electroless Ni-P and Ni-Mo-P Deposits <i>Y. H. Chou, C. Y. Bai, M. D. Ger, C. L. Chao, S. J. Lee, C. Y. Lee</i> .....	21
2-3	The Mechanism of Amorphous Silicon Thin Films Using XeF Excimer Laser Crystallization <i>C. C. Kuo, W.C. Yeh, C.P. Hsiao and J.Y. Jeng</i> .....	25
2-4	Surface Properties of Polypropylene Treated Using Atmospheric Pressure Plasma Jet <i>C.H. Su, T.H. Chen, S.H. Yang, C.H. Liu, S. Lin, J.T. Teng and H. Chen</i> .....	29

---

### 3 Computer-Aided Engineering

---

3-1	Development of STEP-NC Compliant Machine Tool Data Model <i>W.Z. Yang, X. Xu and S.Q. Xie</i> .....	35
3-2	Geometric Modelling and NC Machining of Scroll Profiles Using Circular Biarcs Fitting <i>J.N. Lee and R.S. Lee</i> .....	41
3-3	Establishing Parametric Design Management to Facilitate Activity-based Costing <i>C.L. Liu and R. Holland</i> .....	45
3-4	An Enhanced Graph and Artificial Intelligence-based Approach for Assembly Sequence Planning <i>Y.Y. Hsu, W.C. Chen, P.H. Tai and M.D. Tsai</i> .....	49
3-5	The Development of an Agent-based Distributed Surface Machining System <i>Y.C. Kao, M.S. Chen and J.S. Lia</i> .....	53

---

**4 Design of Optical Components**

---

4-1 The Improvement of Plastic Aspheric Lens for the Application of Compact Camera Module <i>S.C. Yen, Y.C. Chien and K.M. Chang</i> .....	59
4-2 Design of O-ring-driven Liquid-filled Lens <i>D. Shaw and C.W. Lin</i> .....	63
4-3 Surface Modification for Advanced Light Guide Plate for TFTLCD Display <i>G.-L. Chen, and T.-C. Yu</i> .....	67
4-4 Optical Design for Three Mega Pixel Mobile Phone Camera <i>G.-L. Chen, C.-Y. Lee, A. Yuan and P. Chang</i> .....	71

---

**5 Electro-physical and chemical Processes**

---

5-1 Micro-Electric Discharge Machining in Standard Setup <i>S. Chatterjee and S. Das</i> .....	77
5-2 Development of <i>in situ</i> Monitoring and Control of Micro-EDM Process <i>S.H. Yeo, W. Kurnia, P.C. Tan, M. Mushan</i> .....	81
5-3 Improvement of Roundness of Cylindrical Parts Using Hybrid Electrochemical Smoothing and Roller Burnishing Process <i>T.A. El-Taweel, and S.J. Ebeid</i> .....	85
5-4 Workpiece Surface Hardness as an Indicator of Process Regime in Peripheral Electrochemical Grinding <i>J. Atkinson</i> .....	89
5-5 Design of Compound Processes of Electrochemical Finishing and Rolling–Levelling following Turning <i>P.S. Pa</i> .....	95

---

**6 Forming**

---

6-1 Investigation of Micro Sheet Metal Forming of Ball Retainer Using Finite Element Analysis <i>R.S. Lee, C.H. Chen and Y.F. Sung</i> .....	101
6-2 Design of Titanium Alloy Superplastic Blow-forming in Ellip-cylindrical Die Using Taguchi Method <i>D.-C. Chen, J.-Y. Lin, M.-W. Jheng and J.-M. Chen</i> .....	105
6-3 The Cold Orbital Forging Die and Process Design of a Hollow-ring Gear Part <i>J.J. Sheu and C.H. Yu</i> .....	111
6-4 Semisolid Extrusion of Wrought Magnesium Alloy AZ61 and Its Mechanical Properties <i>S. Sugiyama, J.L. Kuo, S.H. Hsiang and J. Yanagimoto</i> .....	115
6-5 Improving the Productivity and the Quality of a Manufacturing Robotized Cell for MIG/MAG Welding <i>A. Barcellona, M. Bruccoleri, C. D’Onofrio, D. Palmeri and R. Riccobono</i> .....	119
6-6 Surface Finish of the Injection Molding Tool Steel PX4 Using Ball-burnishing, Nickel-plating, and Ball-polishing Processes <i>F.J. Shiou and C.M. Cheng</i> .....	123

---

**7 Fuel Cell Technology**

---

7-1 The Performance Analysis of a Portable Charger System Using Direct Methanol Fuel Cells <i>Y.D. Kuan, S.R. Lee, S.M. Lee, M.F. Sung and H.S. Chiou</i> .....	129
--	-----

7-2 A Novel Integration Approach for Combining the Porous Silicon on a Micro Fuel Cell <i>C.Y. Lee, S.J. Lee, C.W. Chuang and R.D. Huang</i> .....	133
---	-----

---

## 8 Laser Processing

---

8-1 High-performance Laser Technological Processing Systems for Scientific and Industrial Applications <i>Y.V. Chugui, V.P. Kiryanov and A.G. Verkhogliad</i> .....	139
8-2 Evaluation of Minimum Distance for Split Rectangular Beam for Glass Cutting <i>S. Nisar, S. Safdar, M.A. Sheikh and L. Li</i> .....	143
8-3 Nonlinear Penetrating Behavior in High Energy Beam Drilling <i>J.E. Ho and H.T. Young</i> .....	147
8-4 Analysis of Enhanced Thermal Conductivity Approach for Predicting Melt Pool Geometry and Temperature Distribution for Laser Melting Processes <i>S. Safdar, F. Qureshi, L. Li and M.A. Sheikh</i> .....	151

---

## 9 Manufacturing

---

9-1 Towards Collaborative Manufacturing in Small and Medium Manufacturing Enterprises <i>H.W. Lin, S. Nagalingam and G. Lin</i> .....	157
9-2 Application of Virtual CIM in Small and Medium Manufacturing Enterprises <i>N. Zhou, S. Nagalingam and G. Lin</i> .....	161
9-3 Effectiveness Measurement of Facilities Layout <i>D. Raman, S.V. Nagalingam, B.W. Gurd and G.C.I. Lin</i> .....	165
9-4 High-level Business Processes for Agile B2B Collaboration <i>K. Mous, K.L. Ko, S.G. Lee, P.S. Tan and E.W. Lee</i> .....	169
9-5 Configuring an Optimal Supply Chain of New Products Using Analytical Target Cascading <i>T. Qu, G.Q. Huang, S. Bin and H.P. Chen</i> .....	173
9-6 An Agent-based Inference System for FMS Dispatching <i>C.L. Kuo, C.C. Ku and J.P. Tsai</i> .....	177
9-7 Investigation of Machines Sequencing Flexibility in Traditional and Flexible Manufacturing Systems (FMS) Using Genetic Algorithms (GA). <i>S.Noor, M.K. Khan, I.Hussain</i> .....	181

---

## 10 Metal Cutting

---

10-1 Effect of Tool Coatings on the Performance of Small-diameter Drills in Drilling Deep Holes with Higher Cutting Speed <i>R. Heinemann and S. Hinduja</i> .....	187
10-2 Comparison of Cutting Strategies for High Productive End Milling <i>M.S. Uddin, A. Matsubara, S. Ibaraki and T.Yasuda</i> .....	191
10-3 Experimental Investigation of Brittle Material Milling Using Rotary Ultrasonic Machining <i>K. L. Kuo</i> .....	195
10-4 Effect of Edge Beveling on Burr Formation in Face Milling <i>P.P. Saha, D. Das, and S. Das</i> .....	199

10-5 The Effect of AlCrTiN Coatings on Product Quality in Micro-milling of 45 HRC Hardened H13 Die Steel <i>A. Aramcharoen, P.T. Mativenga and S. Yang</i> .....	203
10-6 Theoretical Investigation for the Material Removal Rate of Metal Polishing Process <i>Y.R. Jeng, P.Y. Huang and H.J. Tsai</i> .....	207
10-7 Dummy Heat Source Technique for Estimating the Machining Error Caused by Thermal Behavior in Fine Boring <i>Y.L. Tang, H. Sasahara, K. Nishimura and T. Watanabe</i> .....	211
10-8 An Investigation of the Tool–Chip Interface Temperature and Heat Partition in High-speed Machining of AISI/SAE 4140 Steel with TiN-coated Tool <i>F. Akbar, P.T. Mativenga and M.A. Sheikh</i> .....	215

---

## 11 Metrology

---

11-1 The Study of Using X-Ray Laminography on Printed-Circuit Board Inspection <i>H.C. Chen and S.C. Lin</i> .....	221
11-2 Realization of Defect Automatic Inspection System for Flexible Printed Circuit (FPC) <i>C.-H. Chen, C.-C. Wang, C.-Y. Lin, Y.-S. Shih and C.-F. Tu</i> .....	225
11-3 Investigation of Auto-focus Technology for Panel Inspection in the Flat-panel Display Industry <i>C.Y. Chung, C.M. Tseng, Y.C. Lu and K.M. Yeh</i> .....	229
11-4 Automatic Optical Inspection on Mura Defect of TFT-LCD <i>S.L. Chen and J.W. Jhou</i> .....	233
11-5 Development of Simultaneous Confocal Full-field Surface Profilometry for Automatic Optical Inspection (AOI) <i>L.C. Chen and Y.W. Chang</i> .....	237
11-6 Aspheric Lens Decenter Measurement <i>J. Chang, B.-H. Hu, W. Tsai, L. Li and P. Chang</i> .....	241
11-7 A High-speed Inspection System of Large Area Component <i>C.Y. Hung, C.L. Chang, S.C. Lu, J.J. Jeng, and W.Y. Chen</i> .....	245
11-8 An Air-bearing Displacement Sensor with a Micro-ball Stylus for Profile Measurement of 3D Micro-structured Surfaces <i>Y. Yoshikawa, A. Shibuya and W. Gao</i> .....	249
11-9 In-plane Displacement Measurement with Subnanometer Resolution for Precision Manufacture Platform <i>C.C. Wu, C.C. Hsu, J.Y. Lee, H.Y. Chen and H.F. Weng</i> .....	253
11-10 Width Measurement of Metal Surface Cracks Based on Image Analysis Technique <i>Li M., Wang Z.-y., Shuai M.</i> .....	257
11-11 A Multifunctional Scanning White-Light Interferometer (SWLI): Construction of 2-D and 3-D Measurements <i>J.-L. Chen, K. Kuo, C.-H. Tung and C.C. Chang</i> .....	261
11-12 The Error Analysis of Cross-section Curve with Contact Mode Atomic Force Microscopy Simulation Measurement by Using Trapezoidal Cantilever Based on Molecular Mechanics <i>Z.C. Lin, J.C. Huang and C.H. Yeh</i> .....	265
11-13 Molecular Dynamics Simulation of AFM/FFM Surface Observation: Influence of Probe Tip Shape <i>J. Shimizu, L. Zhou and H. Eda</i> .....	271
11-14 Measurement of Mechanical Properties of Boron Nanowire Using Nano-manipulation System <i>C.H. Lin, M. Chang, X. Li and J.R. Deka</i> .....	275

---

**12 Precision Machine Design**

---

12-1 Modelling and Simulation Considerations of a Micro-chuck Mechanism <i>Y.M. Chen, T.Y. Wu, S.H. Tu and C.P. Chiang</i> .....	281
12-2 Prediction of Machining Accuracy of 5-Axis Machine Tools with Kinematic Errors <i>M. Sharif Uddin, S. Ibaraki, A. Matsubara, and T. Matsushita</i> .....	285
12-3 Active Aerostatic Bearings for Ultraprecision Applications <i>H. Mizumoto, S. Arii, Y. Yabuta, Y. Kami and Y. Tazoe</i> .....	289
12-4 Jacobian Inversion Analysis and Extraction of Dexterous Workspace in PKMs <i>A. Khalid and S. Mekid</i> .....	293
12-5 The Structure Design of a Micro-precision CMM with Abbé Principle <i>K.C. Fan, C.L. Liu, P. T. Wu, Y.C. Chen and W.L. Wang</i> .....	297
12-6 Evaluation of Size Effect on Micro-machine-tools Design for Microfactory <i>M. Yamanaka, S. Hirotsu and K. Inoue</i> .....	301

---

**13 Process and Machine Tool Control**

---

13-1 Closed-loop Sensor System for Automated Manufacturing Machines <i>A.A. Shaik, G. Bright and W.L. Xu</i> .....	307
13-2 Friction Compensator for Feed Drive Systems Consisting of Ball Screw and Linear Ball Guide <i>R. Sato and M. Tsutsumi</i> .....	311
13-3 Radial Basis Function Sliding-mode Control for the Laser Alloying Process <i>H.-Y. Chen and S.-J. Huang</i> .....	315
13-4 Real-Time Tracking and Stereo Vision-Based Control of a Goldfish-Catching System <i>C.C. Ho and C.L. Shih</i> .....	319
13-5 Nano-positioning Drive with Piezoelectric Actuator Integrated into Support Bearing Unit of Ball Screw <i>A. Matsubara, T. Fujita, D. Kono, N. Tanaka and Y. Watanabe</i> .....	323
13-6 Real-time Monitoring of a Pulsed Power for Reactive Magnetron Sputtering Using a LabVIEW System <i>F.L. Wen, C.H. Wen, I. Hsu, H.S. Wu and H.J. Wen</i> .....	327
13-7 Windows CE-based Intelligent Remote Monitoring System <i>S.-L. Chen and T.-H. Lin</i> .....	331

---

**14 Rapid Prototyping**

---

14-1 Digital Additive Manufacturing: From Rapid Prototyping to Rapid Manufacturing <i>K.K.B. Hon</i> .....	337
14-2 Effects of Mold Pattern with Anti-adhesive Treatment in Nanoimprint Lithography <i>T.L. Chang, F.Y. Chang, H.Y. Lin, W.L. Lai, J.H. Tsai, and S.H. Chang</i> .....	341
14-3 Component Repair Using Laser Direct Metal Deposition <i>W. Wang, A.J. Pinkerton, L.M. Wee and L. Li</i> .....	345
14-4 Selective Laser Sintering of High-density Alumina Ceramic Parts <i>Z.H. Liu, J.J. Nolte, J.I. Packard, G. Hilmas, F. Dogan and M.C. Leu</i> .....	351

---

**15 Robotics**

---

15–1 Design of High Sensitive Quadruped Robot with Modular Assembly <i>P.S. Pa and C.M. Wu</i> .....	357
15–2 Development of a Mobile Platform for Service Robots <i>H.K. Huang, K.S. Tseng, Y.M. Chu and C.Y. Liu</i> .....	361
15–3 Study of an Industrial Multi-Agent Framework with an Application to Multi-robots Fire-rescue Simulation <i>Y.-M. Chen, C.-I. Chu, Y.-P. Lee and T.-C. Chou</i> .....	365
15–4 Motion Diagnosis of a Mobile Platform by Impedance Transduction <i>Y.L. Kuo, J.Y. Lin, Y.N. Lee, and Y.S. Sun</i> .....	371

---

**16 Sensor Technology**

---

16–1 <i>in situ</i> Measuring of Temperature and Humidity within the Membrane Electrode Assembly by Micro-Sensors <i>C.Y. Lee, S.J. Lee and G.W. Wu</i> .....	377
16–2 Application of Micro-sensors on Diagnosis of Micro-reformer <i>C.-Y.n Lee, S.-J. Lee, C.-H. Wu, C.-H. Lin and, M.-D. Ger</i> .....	381
16–3 The Development of a Diffraction Optoelectronic Inclinometer <i>W. Jywe, C.-J. Chen, J.-M. Lai and H.-H. Jwo</i> .....	385
16–4 A Novel Passive Pressure-relief Valve for Blood Pressure Monitor <i>T.-H. Chen, C.-M. Su, W.-T. Lin and Y.-C. Yang</i> .....	389
16–5 3D Data Acquisition and Configuration by Means of Binocular Stereopsis <i>H. Otsuka, Y. Murakami, Z. Qiu, H. Ojima, L. Zhou, J. Shimizu and H. Eda</i> .....	393

Proceedings of the 35th International MATADOR  
Conference

Formerly The International Machine Tool Design and  
Research Conference

Hinduja, S.; Fan, K.-C. (Eds.)

2007, XIV, 396 p., Hardcover

ISBN: 978-1-84628-987-3
