

Contents

1 Introduction	
<i>by Frank Händle</i>	1
2 Shaping in Ceramic Technology – an Overview	
<i>by Andrea Bresciani</i>	13
3 Current Classification of Ceramic Materials	
<i>by Hubertus Reh</i>	39
4 Types of Extrusion Units	
<i>by Willi Bender</i>	63
5 A Short History of the Extruder in Ceramics	
<i>by Willi Bender, Hans H. Böger</i>	91
6 The Principle of the Auger Extruder	
<i>by John Bridgwater</i>	137
7 Rheology of Ceramic Bodies	
<i>by Fritz Laenger</i>	153
8 Rheology and Extrudability of Ceramic Compounds	
<i>by Wolfgang Gleißle</i>	175
9 Scenarios of Extrusion	
<i>by Dietmar Lutz</i>	189
10 Laminations in Extrusion	
<i>by Rainer Bartusch, Frank Händle</i>	205
11 Additives for Extrusion	
<i>by Michael Hölzgen, Peter Quirnbach</i>	233
12 About Dies, Pressure Heads, Strainer Plates and more	
<i>by Harald Berger</i>	245
13 Twin-screw Extruders in Ceramic Extrusion	
<i>by Werner Wiedmann, Maria Hölzel</i>	265
14 Piston Extruders	
<i>by Günther Doll, Frank Händle, Fritz Spießberger</i>	287

15 Evacuation in Ceramic Extrusion – Dependences and Local Situations <i>by Fritz Laenger</i>	303
16 Evacuation Technology for Ceramic Extrusion <i>by Mark Redmann</i>	309
17 Thermoplastic Extrusion for Ceramic Bodies <i>by Frank Clemens</i>	323
18 Tribological Principles <i>by Günter Mennig</i>	345
19 Wear Protection for Augers in Ceramic Extrusion-state-of-the-art <i>by Walter Reisinger</i>	355
20 Perspectives for Wear Reduction with Ceramic Extruder Components <i>by Holger Wampers</i>	363
21 Test Methods for Plasticity and Extrusion Behaviour <i>by Katrin Göhlert, Maren Übel</i>	381
22 Simulation in Ceramic Extrusion <i>by Boris Buchtala, Sigrid Lang</i>	399
23 Selected Literature <i>by Frank Händle, Kerstin Hohlfeld</i>	419
The Authors of the Book	451
Index	465

Extrusion in Ceramics

Händle, F. (Ed.)

2007, XI, 413 p. 201 illus., Hardcover

ISBN: 978-3-540-27100-0
