## Part I Mathematical Analysis for Transport-Reaction Systems

---

Preamble .....	3
<b>Fluid Flows and Free Boundaries</b>	
<i>B. Schweizer, S. Bodea, C. Surulescu, I. Surovtsova</i> .....	5
<b>Nonlinear Evolution Equations and Applications</b>	
<i>W. Jäger, Th. Lorenz, A. Tambulea</i> .....	25

---

## Part II Navier-Stokes Equations and Chemical Reactions

---

Preamble .....	45
<b>Mesh and Model Adaptivity for Flow Problems</b>	
<i>R. Becker, M. Braack, R. Rannacher, T. Richter</i> .....	47
<b>Parallel Multigrid on Locally Refined Meshes</b>	
<i>R. Becker, M. Braack, T. Richter</i> .....	77
<b>Solving Multidimensional Reactive Flow Problems with Adaptive Finite Elements</b>	
<i>M. Braack, T. Richter</i> .....	93

---

## Part III Optimization Methods for Reactive Flows

---

Preamble .....	115
----------------	-----

**Robustness Aspects in Parameter Estimation, Optimal  
Design of Experiments and Optimal Control**
*H. G. Bock, S. Körkel, E. Kostina, J. P. Schlöder* ..... 117

**Multiple Set Point Partially Reduced SQP Method for  
Optimal Control of PDE**
*H. G. Bock, E. Kostina, A. Schäfer, J. P. Schlöder, V. Schulz* ..... 147

**Adaptive Finite Element Methods for PDE-Constrained  
Optimal Control Problems**
*R. Becker, M. Braack, D. Meidner, R. Rannacher, B. Vexler* ..... 177

---

**Part IV Chemical Reaction Systems**

---

**Preamble** ..... 209

**Determination of Kinetic Parameters in Laminar Flow  
Reactors. I. Theoretical Aspects**
*T. Carraro, V. Heuveline, R. Rannacher* ..... 211

**Determination of Kinetic Parameters in Laminar Flow  
Reactors. II. Experimental Aspects**
*A. Hanf, H.-R. Volpp, J. Wolfrum* ..... 251

**Optimization of Reactive Flows in a Single Channel of a  
Catalytic Monolith: Conversion of Ethane to Ethylene**
*H. G. Bock, O. Deutschmann, S. Körkel, L. Maier, H. D. Minh, J. P. Schlöder, S. Tischer, J. Warnatz* ..... 291

**Reaction Processes on Catalytically Active Surfaces**
*O.R. Inderwildi, D. Starukhin, H.-R. Volpp, D. Lebiez, O. Deutschmann, J. Warnatz* ..... 311

**Stochastic Modeling and Deterministic Limit of Catalytic  
Surface Processes**
*J. Starke, C. Reichert, M. Eiswirth, K. Oelschläger* ..... 341

---

**Part V Turbulent Flow and Combustion**

---

**Preamble** ..... 373

**Multigrid Methods for Large-Eddy Simulation**
*A. Gordner, S. Nägele, G. Wittum* ..... 375

<b>Modeling and Simulation of Turbulent Non-Reacting and Reacting Spray Flows</b>	
<i>H.-W. Ge, D. Urzica, M. Vogelgesang, E. Gutheil</i> .....	397

<b>Transport and Diffusion in Boundary Layers of Turbulent Channel Flow</b>	
<i>S. Sanwald, J. v. Saldern, U. Riedel, C. Schulz, J. Warnatz, J. Wolfrum</i> .....	419

---

## Part VI Diffusion and Transport in Accretion Discs

---

<b>Preamble</b> .....	435
<b>Evolution of Protoplanetary Disks Including Detailed Chemistry and Mineralogy</b>	
<i>H.-P. Gail, W. M. Tscharnutter</i> .....	437
<b>Numerical Methods for Multidimensional Radiative Transfer</b>	
<i>E. Meinköhn, G. Kanschat, R. Rannacher, R. Wehrse</i> .....	485

---

## Part VII Flows in Porous Media

---

<b>Preamble</b> .....	529
<b>Multiscale Analysis of Processes in Complex Media</b>	
<i>W. Jäger, M. Neuss-Radu</i> .....	531
<b>Microscopic Interfaces in Porous Media</b>	
<i>W. Jäger, B. Schweizer</i> .....	555
<b>High-Accuracy Approximation of Effective Coefficients</b>	
<i>N. Neuss</i> .....	567
<b>Numerical Simulation and Experimental Studies of Unsaturated Water Flow in Heterogeneous Systems</b>	
<i>P. Bastian, O. Ippisch, F. Rezanezhad, H. J. Vogel, K. Roth</i> .....	579
<b>Lake Dynamics: Observation and High-Resolution Numerical Simulation</b>	
<i>C. von Rohden, A. Hauser, K. Wunderle, J. Ilmberger, G. Wittum, K. Roth</i> .....	599

---

## Part VIII Computer Visualization

---

<b>Preamble</b> .....	623
-----------------------	-----

<b>Advanced Flow Visualization with HiVision</b> <i>S. Bönnisch, V. Heuveline</i> .....	625
<b>VisuSimple: An Interactive Visualization Utility for Scientific Computing</b> <i>Th. Dunne, R. Becker</i> .....	635
<b>Volume Rendering in Scientific Applications</b> <i>S. Krömker, J. Rings</i> .....	653
<b>List of Contributors</b> .....	667

Reactive Flows, Diffusion and Transport  
From Experiments via Mathematical Modeling to  
Numerical Simulation and Optimization

Jäger, W.; Rannacher, R.; Warnatz, J. (Eds.)

2007, X, 676 p. 150 illus. in color., Hardcover

ISBN: 978-3-540-28379-9
