

Contents

1	Introduction	1
1.1	Background and Overview	1
1.2	Content of the Book	8
2	Preference, Utility, and Choice: Classic Models	17
2.1	Introduction	17
2.2	Binary Relations and Preferences	18
2.3	Binary Relations and Choice	28
2.4	Utility and Choice	31
2.5	Expansion-contraction Axioms	36
2.6	Relations Between the Classes of Choice Functions . . .	44
2.7	Concluding Remarks and Guide to the Literature	47
3	Utility Maximization Within a Constant Threshold or a Threshold Depending on One Alternative	53
3.1	Introduction	53
3.2	Non-negative Threshold Functions: the Interval Choice Case	54
3.3	Interval Orders, Semiorders, and Interval Choice	56
3.4	Properties of Interval Orders and Semiorders	69
3.5	Interval Choice and Maximal Antichains	85
3.6	Choice Functions Rationalizable by Interval Orders and Semiorders	91
3.7	Arbitrary Threshold Functions and Biorders	95
3.8	Choice Rationalizable by Biorders	105
3.9	Concluding Remarks and Guide to the Literature	108
4	Utility Maximization Within a Threshold Depending on Both Compared Alternatives	113
4.1	Introduction	113
4.2	Representation Theorems	113
4.3	Additive Threshold Function	117
4.4	Multiplicative Threshold Function	119
4.5	Properties of Choice Functions	141
4.6	Concluding Remarks and Guide to the Literature	142
5	Utility Maximization Within a Context-dependent Threshold	145
5.1	Introduction	145
5.2	Analysis of Choice Models	146
5.3	Properties of Choice Functions	151

5.4	Inclusive and Strongly Inclusive Maximization	160
5.5	Over-value Choice	165
5.6	Binary Rationalizability of Choice	170
5.7	Utility Maximization With an Additive Threshold Function	176
5.8	Properties of Simple Semiorders	188
5.9	Utility Maximization With an Isotone Threshold Function	190
5.10	Concluding Remarks and Guide to the Literature	193
6	Numerical Representation of Binary Relations on Infinite Sets	197
6.1	Introduction	197
6.2	Linear Orders	199
6.3	Weak Orders	204
6.4	Biorders	208
6.4.1	Preliminaries	208
6.4.2	The countable case	212
6.4.3	The general case	214
6.5	Interval Orders	219
6.5.1	Preliminaries	219
6.5.2	The countable case	220
6.5.3	The general case	221
6.6	Semiorders	221
6.6.1	Preliminaries	224
6.6.2	Representations with no proper nesting	225
6.6.3	Representations with no nesting	228
6.6.4	Constant threshold representations	231
6.7	Acyclic Relations and Partial Orders	232
6.7.1	Preliminaries	232
6.7.2	The countable case	234
6.7.3	The general case	235
6.8	Concluding Remarks and Guide to the Literature	236
6.8.1	Linear orders	236
6.8.2	Weak orders	237
6.8.3	Biorders	237
6.8.4	Interval orders	238
6.8.5	Semiorders	240
6.8.6	Acyclic relations and partial orders	242
7	Conclusion	245
	List of Notations and Symbols	255
	References	261
	Index	281

Utility Maximization, Choice and Preference

Aleskerov, F.; Bouyssou, D.; Monjardet, B.

2007, XII, 283 p., Hardcover

ISBN: 978-3-540-34182-6
