
List of Contents

Modern Evolutionary History of the Human KSHV Genome	1
<i>G. S. Hayward and J.-C. Zong</i>	
Rhesus Monkey Rhadinovirus: A Model for the Study of KSHV	43
<i>C. M. O'Connor and D. H. Kedes</i>	
The Rta/Orf50 Transactivator Proteins of the Gamma-Herpesviridae	71
<i>M. R. Staudt and D. P. Dittmer</i>	
Structure and Function of Latency-Associated Nuclear Antigen	101
<i>S. C. Verma, K. Lan, and E. Robertson</i>	
The KSHV and Other Human Herpesviral G Protein-Coupled Receptors	137
<i>M. Cannon</i>	
Regulation of KSHV Lytic Gene Expression	157
<i>H. Deng, Y. Liang, and R. Sun</i>	
Kaposi Sarcoma Herpesvirus-Encoded Interferon Regulator Factors	185
<i>M. K. Offermann</i>	
Endothelial Cell- and Lymphocyte-Based In Vitro Systems for Understanding KSHV Biology	211
<i>S. C. McAllister and A. V. Moses</i>	
KSHV After an Organ Transplant: Should We Screen?	245
<i>A.-G. Marcelin, V. Calvez, and E. Dussaix</i>	
Kaposi Sarcoma-Associated Herpesvirus and Other Viruses in Human Lymphomagenesis	263
<i>E. Cesarman and E. A. Mesri</i>	
The Use of Antiviral Drugs in the Prevention and Treatment of Kaposi Sarcoma, Multicentric Castleman Disease and Primary Effusion Lymphoma	289
<i>C. Casper and A. Wald</i>	

Interactions Between HIV-1 Tat and KSHV	309
<i>Y. Aoki and G. Tosato</i>	
Subject Index	327

Kaposi Sarcoma Herpesvirus: New Perspectives

Boshoff, C.; Weiss, R.A. (Eds.)

2007, XV, 332 p., Hardcover

ISBN: 978-3-540-34343-1
