## List of Contents

Subject Index . . . . .	XIII
An Introduction on TRP Channels . . . . . <i>V. Flockerzi</i>	1
<b>Part I. TRPC Channel Subfamily</b>	
TRPC1 Ca <sup>2+</sup> -Permeable Channels in Animal Cells . . . . . <i>G. Rychkov, G. J. Barritt</i>	23
TRPC2: Molecular Biology and Functional Importance . . . . . <i>E. Yildirim, L. Birnbaumer</i>	53
TRPC3: A Multifunctional, Pore-Forming Signalling Molecule . . . . . <i>P. Eder, M. Poteser, K. Groschner</i>	77
Ionic Channels Formed by TRPC4 . . . . . <i>A. Cavalié</i>	93
Canonical Transient Receptor Potential 5 . . . . . <i>D. J. Beech</i>	109
TRPC6 . . . . . <i>A. Dietrich, T. Gudermann</i>	125
TRPC7 . . . . . <i>T. Numaga, M. Wakamori, Y. Mori</i>	143
<b>Part II. TRPV Channel Subfamily</b>	
Capsaicin Receptor: TRPV1A Promiscuous TRP Channel . . . . . <i>S. C. Pingle, J. A. Matta, G. P. Ahern</i>	155
2-Aminoethoxydiphenyl Borate as a Common Activator of TRPV1, TRPV2, and TRPV3 Channels . . . . . <i>C. K. Colton, M. X. Zhu</i>	173

TRPV4 . . . . .	189
<i>T. D. Plant, R. Strotmann</i>	
TRPV5, the Gateway to $\text{Ca}^{2+}$ Homeostasis . . . . .	207
<i>A. R. Mensenkamp, J. G. J. Hoenderop, R. J. M. Bindels</i>	
TRPV6 . . . . .	221
<i>U. Wissenbach, B. A. Niemeyer</i>	
<b>Part III. TRPM Channel Subfamily</b>	
TRPM2 . . . . .	237
<i>J. Eisfeld, A. Lückhoff</i>	
TRPM3 . . . . .	253
<i>J. Oberwinkler, S. E. Philipp</i>	
Insights into TRPM4 Function, Regulation and Physiological Role . . .	269
<i>R. Vennekens, B. Nilius</i>	
TRPM5 and Taste Transduction . . . . .	287
<i>E. R. Liman</i>	
TRPM6: A Janus-Like Protein . . . . .	299
<i>M. Bödding</i>	
The $\text{Mg}^{2+}$ and $\text{Mg}^{2+}$ -Nucleotide-Regulated Channel-Kinase TRPM7 . . . . .	313
<i>R. Penner, A. Fleig</i>	
TRPM8 . . . . .	329
<i>T. Voets, G. Owsianik, B. Nilius</i>	
<b>Part IV. Other TRP Channels</b>	
TRPA1 . . . . .	347
<i>J. García-Añoveros, K. Nagata</i>	
TRPP2 Channel Regulation . . . . .	363
<i>R. Witzgall</i>	
<b>Part V. TRP Proteins and Specific Cellular Functions</b>	
Know Thy Neighbor: A Survey of Diseases and Complex Syndromes that Map to Chromosomal Regions Encoding TRP Channels . . . . .	379
<i>J. Abramowitz, L. Birnbaumer</i>	

TRP Channels of the Pancreatic Beta Cell . . . . .	409
<i>D. A. Jacobson, L. H. Philipson</i>	
TRP Channels in Platelet Function . . . . .	425
<i>K. S. Authi</i>	
TRP Channels in Lymphocytes . . . . .	445
<i>E. C. Schwarz, M.-J. Wolfs, S. Tonner, A. S. Wenning, A. Quintana, D. Griesemer, M. Hoth</i>	
Link Between TRPV Channels and Mast Cell Function . . . . .	457
<i>H. Turner, K. A. del Carmen, A. Stokes</i>	
TRPV Channels' Role in Osmotransduction and Mechanotransduction . . . . .	473
<i>W. Liedtke</i>	
Nociception and TRP Channels . . . . .	489
<i>M. Tominaga</i>	
<b>Part VI. TRP Proteins – Integrators of Multiple Inputs</b>	
Regulation of TRP Ion Channels by Phosphatidylinositol-4,5-Bisphosphate . . . . .	509
<i>F. Qin</i>	
TRPC, cGMP-Dependent Protein Kinases and Cytosolic Ca <sup>2+</sup> . . . . .	527
<i>X. Yao</i>	
Trafficking of TRP Channels: Determinants of Channel Function . . . . .	541
<i>I. S. Ambudkar</i>	
TRPC Channels: Interacting Proteins . . . . .	559
<i>K. Kiselyov, D. M. Shin, J.-Y. Kim, J. P. Yuan, S. Muallem</i>	
TRPC Channels: Integrators of Multiple Cellular Signals . . . . .	575
<i>J. Soboloff, M. Spassova, T. Hewavitharana, L.-P. He, P. Luncsford, W. Xu, K. Venkatachalam, D. van Rossum, R. L. Patterson, D. L. Gill</i>	
Phospholipase C-Coupled Receptors and Activation of TRPC Channels . . . . .	593
<i>M. Trebak, L. Lemonnier, J. T. Smyth, G. Vazquez, J. W. Putney Jr.</i>	
Subject Index . . . . .	615

Transient Receptor Potential (TRP) Channels

Flockerzi, V.; Nilius, B. (Eds.)

2007, XIV, 623 p., Hardcover

ISBN: 978-3-540-34889-4
