|          |   |    |
|----------|---|----|
| <b>1</b> | <b>Object of Analytical Chemistry</b> .....                 | 1  |
| 1.1      | Definition of Analytical Chemistry .....                    | 1  |
| 1.2      | Repertoire of Analytical Chemistry .....                    | 5  |
|          | References .....  | 10 |
| <b>2</b> | <b>The Analytical Process</b> .....                         | 13 |
| 2.1      | Principles of Sampling .....                                | 15 |
| 2.2      | Sample Preparation .....                                    | 23 |
| 2.3      | Principles of Analytical Measurement .....                  | 26 |
| 2.4      | Analytical Evaluation .....                                 | 31 |
|          | References .....  | 37 |
| <b>3</b> | <b>Signals in Analytical Chemistry</b> .....                | 43 |
| 3.1      | Signals and Information .....                               | 43 |
| 3.2      | Analytical Signals .....                                    | 44 |
| 3.3      | Types and Properties of Analytical Signals .....            | 47 |
| 3.4      | Dimensionality of Analytical Signals and Information .....  | 53 |
| 3.5      | Mathematical Model of Signal Generation .....               | 60 |
|          | References .....  | 63 |
| <b>4</b> | <b>Statistical Evaluation of Analytical Results</b> .....   | 65 |
| 4.1      | Reliability of Analytical Observations and Measurements ... | 65 |
| 4.1.1    | Systematic Deviations .....                                 | 67 |
| 4.1.2    | Random Variations .....                                     | 69 |
| 4.2      | Uncertainty Concept .....                                   | 75 |
| 4.3      | Statistical Tests .....                                     | 78 |
| 4.3.1    | Null Hypotheses .....                                       | 79 |
| 4.3.2    | Test for Measurement Series .....                           | 80 |
| 4.3.3    | Comparison of Standard Deviations .....                     | 81 |
| 4.3.4    | Comparison of Measured Values .....                         | 82 |

|          |   |            |
|----------|---|------------|
| 4.4      | Reliability of Qualitative Analytical Tests .....                         | 85         |
| 4.5      | Statistical Quality Control .....   | 90         |
| 4.5.1    | Quality Criteria for Analytical Results .....                             | 90         |
| 4.5.2    | Attribute Testing .....   | 92         |
| 4.5.3    | Sequential Analysis .....   | 93         |
| 4.5.4    | Statistical Quality Control .....   | 95         |
|          | References .....  | 98         |
| <b>5</b> | <b>Studying Influences and Optimizing Analytical Procedures .....</b>     | <b>101</b> |
| 5.1      | Testing the Significance of Influencing Factors .....                     | 101        |
| 5.1.1    | Analysis of Variance (ANOVA) .....  | 101        |
| 5.1.2    | Experimental Design .....   | 108        |
| 5.2      | Optimization of Analytical Procedures .....                               | 112        |
| 5.3      | Global Optimization by Natural Design .....                               | 116        |
|          | References .....  | 120        |
| <b>6</b> | <b>Calibration in Analytical Chemistry .....</b>                          | <b>123</b> |
| 6.1      | General Fundamentals of Calibration .....                                 | 124        |
| 6.1.1    | Fundamental and Experimental Calibration .....                            | 124        |
| 6.1.2    | The General Three-Dimensional Calibration Model .....                     | 126        |
| 6.1.3    | Regression and Calibration .....  | 127        |
| 6.2      | Single Component Calibration .....  | 130        |
| 6.2.1    | Linear Calibration Model .....  | 130        |
| 6.2.2    | Errors in Linear Calibration .....  | 134        |
| 6.2.3    | Weighted Linear Least Squares Estimation (WLS) .....                      | 137        |
| 6.2.4    | Linear Least Squares Fitting in Case of Errors<br>in Both Variables ..... | 138        |
| 6.2.5    | Statistical Tests and Validation of Calibration .....                     | 140        |
| 6.2.6    | Alternative Calibration Procedures .....                                  | 144        |
| 6.2.7    | Nonlinear Calibration .....   | 151        |
| 6.3      | Multisignal Calibration .....   | 152        |
| 6.4      | Multicomponent Calibration .....  | 155        |
| 6.4.1    | Classical Multivariate Calibration .....                                  | 157        |
| 6.4.2    | Inverse Calibration .....   | 159        |
| 6.4.3    | Validation of Multivariate Calibration .....                              | 162        |
| 6.5      | Calibration by Artificial Neural Networks .....                           | 165        |
|          | References .....  | 172        |
| <b>7</b> | <b>Analytical Performance Characteristics .....</b>                       | <b>177</b> |
| 7.1      | Reliability of Analytical Measurements .....                              | 178        |
| 7.1.1    | Precision .....   | 178        |
| 7.1.2    | Precision of Trace Analyses .....   | 182        |
| 7.1.3    | Accuracy and Trueness .....   | 183        |

|          |  |            |
|----------|--|------------|
| 7.1.4    | Remark on the Quantification of Precision, Accuracy and Trueness .....                   | 183        |
| 7.2      | Sensitivity .....  | 185        |
| 7.3      | Selectivity and Specificity .....  | 189        |
| 7.4      | Robustness and Ruggedness .....  | 195        |
| 7.5      | Limit Values .....   | 201        |
| 7.6      | Resolving Power .....  | 209        |
|          | References .....   | 212        |
| <b>8</b> | <b>Presentation, Interpretation and Validation of Analytical Results</b> .....           | <b>217</b> |
| 8.1      | Presentation of Analytical Results .....   | 217        |
| 8.2      | Factual Interpretation of Analytical Results .....                                       | 219        |
| 8.2.1    | Presentation of Results Near the Limit of Detection .....                                | 219        |
| 8.2.2    | Missing Data .....   | 221        |
| 8.2.3    | Analytical Results in Relation to Fixed Values .....                                     | 224        |
| 8.2.4    | Interlaboratory Studies .....  | 227        |
| 8.3      | Chemometrical Interpretation of Analytical Data .....                                    | 228        |
| 8.3.1    | Principles of Data Analysis .....  | 229        |
| 8.3.2    | Cluster Analysis: Recognition of Inherent Data Structures ..                             | 231        |
| 8.3.3    | Classification: Modelling of Data Structures .....                                       | 235        |
| 8.3.4    | Factor Analysis: Causes of Data Structures .....   | 239        |
| 8.3.5    | Exploratory Data Analysis and Display Methods:<br>Visualization of Data Structures ..... | 243        |
| 8.3.6    | Methods of Artificial Intelligence .....   | 246        |
| 8.4      | Analytical Images .....  | 250        |
|          | References .....   | 257        |
| <b>9</b> | <b>Assessment of Analytical Information</b> .....  | <b>265</b> |
| 9.1      | Quantification of Information .....  | 265        |
| 9.2      | Information Content of Quantitative Analysis .....                                       | 268        |
| 9.3      | Multicomponent Analysis .....  | 273        |
| 9.4      | Process and Image Analysis .....   | 276        |
|          | References .....   | 280        |
