## Contents

<b>Survey of this Book</b>	
<i>Bernd J. Krämer</i> .....	VII

---

### Part I Supporting Mobility, Self-Healing and Self-Organisation

---

<b>1 Building Adaptable Mobile Middleware Services Using Logical Mobility Techniques</b>	
<i>Stefanos Zachariadis, Manish Lad, Cecilia Mascolo, Wolfgang Emmerich</i> .....	3
<b>2 Towards Self-healing Composition of Services</b>	
<i>Luciano Baresi, Carlo Ghezzi, Sam Guinea</i> .....	27
<b>3 Wireless Sensor Networks</b>	
<i>Yusuf Öztürk</i> .....	47
<b>4 Common-interest Based Self-organising E-Learner Communities</b>	
<i>Fan Yang, Bernd J. Krämer, Peng Han</i> .....	71
<b>5 A Service Component Architecture to Federate E-Universities: A Case Study in Virtual Mobility</b>	
<i>Bernd J. Krämer</i> .....	95

---

### Part II Components and Solutions for Business and Industry

---

<b>6 Wireless Asset Management</b>	
<i>Peter Neumann</i> .....	123
<b>7 Knowledge Management for E-Maintenance of Industrial Automation Systems</b>	
<i>Wei Zhang</i> .....	139

VI Contents

<b>8 Using Formal Concept Analysis for Semantic Web Applications</b>	
<i>Yi Zhao</i> .....	157
<b>9 A Fair Off-line Electronic Payment System</b>	
<i>Weidong Qiu</i> .....	177
<b>10 A UML Profile to Model Safety-Critical Embedded Real-Time Control Systems</b>	
<i>Shourong Lu, Wolfgang A. Halang</i> .....	197
<hr/>	
<b>Part III Distributed Systems Management, Effective Communication and Security</b>	
<hr/>	
<b>11 Probabilistic Management of Distributed Systems</b>	
<i>Jianguo Ding</i> .....	221
<b>12 Denial of Service Detection in Mobile Agent Systems with Dependencies in Computations</b>	
<i>Biljana Cubaleska, Markus Schneider</i> .....	249
<b>13 Fighting Internet Congestion by Means of Chaos Control</b>	
<i>Zhong Li</i> .....	269
<b>14 Securing Communication by Chaos-based Encryption</b>	
<i>Ping Li, Zhong Li, Wolfgang A. Halang, Guanrong Chen</i> .....	285
<b>15 A Chip Performing Chaotic Stream Encryption</b>	
<i>Yaobin Mao, Wenbo Liu, Zhong Li, Ping Li, Wolfgang A. Halang</i> .....	307
<b>Index</b> .....	333
