## Contents

---

### Part I Overviews on rule quality

---

<b>Choosing the Right Lens: Finding What is Interesting in Data Mining</b> <i>Liqiang Geng, Howard J. Hamilton</i> . . . . .	3
<b>A Graph-based Clustering Approach to Evaluate Interestingness Measures: A Tool and a Comparative Study</b> <i>Xuan-Hiep Huynh, Fabrice Guillet, Julien Blanchard, Pascale Kuntz, Henri Briand, Régis Gras</i> . . . . .	25
<b>Association Rule Interestingness Measures: Experimental and Theoretical Studies</b> <i>Philippe Lenca, Benoît Vaillant, Patrick Meyer, Stéphane Lallich</i> . . . . .	51
<b>On the Discovery of Exception Rules: A Survey</b> <i>Béatrice Duval, Ansaf Salleb, Christel Vrain</i> . . . . .	77

---

### Part II From data to rule quality

---

<b>Measuring and Modelling Data Quality for Quality-Awareness in Data Mining</b> <i>Laure Berti-Équille</i> . . . . .	101
<b>Quality and Complexity Measures for Data Linkage and Deduplication</b> <i>Peter Christen, Karl Goiser</i> . . . . .	127
<b>Statistical Methodologies for Mining Potentially Interesting Contrast Sets</b> <i>Robert J. Hilderman, Terry Peckham</i> . . . . .	153

<b>Understandability of Association Rules: A Heuristic Measure to Enhance Rule Quality</b> <i>Rajesh Natarajan, B. Shekar</i> .....	179
--	-----

---

**Part III Rule quality and validation**

---

<b>A New Probabilistic Measure of Interestingness for Association Rules, Based on the Likelihood of the Link</b> <i>Israël-César Lerman, Jérôme Azé</i> .....	207
--	-----

<b>Towards a Unifying Probabilistic Implicative Normalized Quality Measure for Association Rules</b> <i>Jean Diatta, Henri Ralambondrainy, André Totohasina</i> .....	237
--	-----

<b>Association Rule Interestingness: Measure and Statistical Validation</b> <i>Stephane Lallich, Olivier Teytaud, Elie Prudhomme</i> .....	251
---	-----

<b>Comparing Classification Results between <math>N</math>-ary and Binary Problems</b> <i>Mary Felkin</i> .....	277
--	-----

<b>About the Authors</b> .....	303
