Abbreviations	XV
Introduction	1
A. The aim of the research.....	3
B. The scope of the research.....	3
C. Methods used for the research	5
 Chapter 1: Pollution from Ships' Bunkers and the Advent of the Bunkers Convention	7
A. A brief history of the development of the oil spill civil liability system.....	7
I. TOVALOP and CRISTAL.....	8
II. International Conventions	10
B. The need for the Bunkers Convention	13
I. The scope of earlier conventions	13
II. National legislation and the background work on the Bunkers Convention.....	14
III. Risk and technical considerations	18
IV. The birth of the Bunkers Convention.....	20
C. Overview of the Bunkers Convention.....	20
I. Categories of ships	20
1. "Ship"	20
2. Does the Bunkers Convention apply to oil tankers?	20
3. "Warships"	21
II. "Oil"	22
III. Scope of application.....	23
IV. Liability established by the Bunkers Convention	26
1. Liable parties	26
2. Channelling of liability.....	27
3. Shipowners' liability is joint and several	29
4. The basis of liability and exonerating circumstances.....	30
5. Limitation of Liability	32
V. Compulsory insurance and direct recourse	33
1. Three prerequisite factors	34
a) "Registered owner of a ship"	34
b) "Gross tonnage" – insurance threshold.....	35

c) “In an amount equal to the limits of liability...” – amount of limitation.....	38
2. Insurance certificate and its recognition	39
3. Direct action against the insurer	40
4. Time limit for bringing an action.....	41
VI. Jurisdiction, recognition and enforcement	42
VII. Other matters.....	44
VIII. Adopted resolutions	45
D. Concluding remarks	47

Chapter 2: The Birth of Compulsory Insurance for Oil Pollution Liability.....

A. Introduction.....	49
B. The concept of compulsory insurance.....	50
I. Development of the concept of compulsory insurance.....	50
II. The system of insurance.....	52
1. Compulsory insurance as defined in international civil liability conventions	52
2. Insurance or other financial securities	53
III. The need for compulsory insurance for bunker-oil pollution liability	53
C. Possible insurers.....	55
I. The types of marine insurance and their coverage	55
1. Cargo insurance and its coverage	56
2. Hull insurance and its coverage	57
3. Freight insurance and its coverage.....	59
4. Protection and Indemnity Insurance	59
a) Brief introduction.....	59
b) The main risks covered by the P&I Club	60
c) Insurance contract between the shipowner and the Club.....	62
d) The International Group of P&I Clubs.....	64
II. The insurers offering coverage for oil-pollution liability	65
1. The P&I Clubs	65
a) Pollution liability clause.....	66
b) Limitation of liability terms	67
c) The role of the P&I Club with regard to an oil- pollution incident	68
aa) Oil-pollution liability insurer	68
bb) Measures for an oil-pollution incident taken by the Clubs	69
(1) Clean-up or salvage operation.....	69
(2) Source of funding	70
(3) Providing legal advice.....	70
d) Interaction with other international organisations.....	71

aa) The legal framework of the IMO conventions	71
bb) Cooperation with the IOPC Fund	72
cc) Technical assistance from the ITOPF.....	72
2. Other insurers offering OPA insurance.....	73
a) Financial responsibility requirement in the OPA 90	74
b) The concerns of the P&I Clubs to be the guarantors	76
c) Some alternative ways of meeting financial responsibility requirements	77
D. Concluding remarks	79
Chapter 3: Strict Liability and Insurance	81
A. Introduction	81
B. The basis of liability in the Bunkers Convention	82
I. The difficulties in applying the common law of torts.....	82
1. Trespass	83
2. Nuisance	83
3. Negligence	84
II. Fault-based liability leads to unfair results for pollution victims	86
III. Strict liability and its application.....	88
C. The main reasons for introducing strict liability	90
I. Ensuring protection of and compensation for victims	90
II. The impact on the industry	91
1. The industry bears the cost of pollution damage	91
2. Incentive to improve prevention of marine pollution	92
D. Distribution of liability and exceptions to liability.....	93
I. Who shall be liable?	93
1. Provisions in the CLCs	94
a) Liability of the cargo interest	94
b) Liability of the ship	95
c) The second-tier liability of the cargo-owner	96
2. Liability rule under the Bunkers Convention.....	97
II. Exceptions to liability.....	97
1. Types of exceptions in general	98
2. Exceptions available to the shipowner in the Bunkers Convention.....	99
III. Channelling of liability.....	103
E. Implementation of liability: insurance	105
I. Proposals during the preparatory work of the Convention	105
II. Two alternative means.....	107
1. Separate insurance policies.....	107
2. Co-assurance under one policy	108
F. Concluding remarks	109

Chapter 4: Insurance and the Quest for Adequate Compensation	111
A. Introduction	111
B. Certification of insurance	111
I. Basic requirements in the Bunkers Convention	111
II. Administrative burden corollary to the issuance of the certificate	112
1. The administrative burden of the flag States	113
2. Port State control regarding the certificate	118
III. Electronic means for the certificate	118
IV. The validity of the certificate	119
C. Availability and capacity of insurance for bunker-oil spill liability	121
D. Other related issues	123
I. “Polluter pays” principle	123
II. The significance of Art. 7(8) and financial standing of providers of insurance or financial security	125
III. Mutuality	128
1. The meaning of mutuality	128
2. Role of mutuality	129
a) The ability to absorb large claims	129
b) Possible motivation for risk minimisation	130
E. Liability insurance and compensation fund	131
F. Adequacy and other types of compensation	132
I. The willingness of P&I Clubs to increase their coverage limit	133
II. The compensation paid by the cargo interests	134
III. Compensation paid by other jointly liable persons	136
1. “Joint and several liability” rule in relation to the compensation purpose	136
2. Bareboat charterer	137
a) “Demise charterer” or “bareboat charterer”?	137
b) The insurance of the bareboat charterer	137
IV. Operator and manager	139
V. Liability as the time or voyage charterer	140
1. Definitions	140
2. Compensation paid by the time or voyage charterer	140
VI. State liability and contributions	141
G. Concluding remarks	143
Chapter 5: Limitation of Liability and the Limit of Insurance	145
A. Introduction	145
B. The global limitation of liability system in relation to ships	146
I. Limitation of liability rule in general	146
II. The 1957 Convention, 1976 LLMC and its 1996 Protocol relating to tanker-oil pollution liability	150

C. Limitation rules in the Bunkers Convention.....	152
I. Pollution damage eligible for limitation	153
1. Pollution damage arising from a bunker-oil spill.....	153
2. The claims subject to limitation under the 1976 LLMC and its Protocol.....	154
II. The amount of the funds available under the LLMCs	157
III. Other aspects relevant to claims for bunker-oil spill liability under the 1976 LLMC and its Protocol	159
1. Conduct barring the right to limit.....	159
2. Constitution and distribution of the limitation fund.....	160
D. The right to limit liability.....	161
I. The reasons for maintaining the right to limit.....	161
II. Unsatisfactory outcome of the limitation regime.....	162
E. The relation of limitation of liability and insurance	164
I. The insurability and limitation of liability	164
II. The possibility to have a unlimited liability.....	166
F. Concluding remarks	169

Chapter 6: Direct Action against the Insurer and its Limited Effect

	171
A. Introduction.....	171
B. Rights of a third party to claim on the insurance policy.....	172
I. Assignment.....	172
II. Direct-action statutes.....	174
1. English law	175
2. United States legislation.....	177
C. The limited effect of direct action under P&I insurance	178
I. Coverage and exclusions of P&I insurance	179
II. P&I insurance is one of indemnity.....	179
III. “Pay to be paid” rule	181
IV. Other defences of a Club against the claim from a third party	182
D. Direct-action right under the Bunkers Convention.....	182
I. “the defences ... which the shipowner would have been entitled to invoke”	184
II. Meaning of the phrase “wilful misconduct of the shipowner”	185
1. Interpretation of “wilful misconduct” in relation to limitation of liability	185
2. Interpretation of “wilful misconduct” in insurance law	188
a) The determination of a competent court.....	188
b) “Wilful misconduct” in P&I insurance.....	188
3. “Wilful misconduct” in Article 7(10).....	189
E. Scope of the claim: pollution damage.....	190
I. The uncertain nature of liability for pollution.....	190
II. “Pollution damage” in tanker-oil spill incidents.....	191
1. CMI guidelines on oil-pollution damage.....	192

2. The policy adopted by the IOPC Fund.....	193
3. Viewpoint of the P&I Clubs.....	195
III. Pollution damage under the Bunkers Convention	195
F. Recourse action.....	196
G. Concluding remarks.....	198
Chapter 7: Outlook on Insurance and Compensation for Bunker- Oil Pollution Liability	199
A. Introduction.....	199
B. Main interests in the insurance system	200
I. Victims: “Loss of cover” and full compensation.....	200
1. Loss of cover	200
2. “Small ship” issue	201
3. Adequate compensation	201
II. The P&I Clubs: maintaining their sustainable development	203
III. Shipowners: the central actor.....	203
C. The comparison of the insurer’s exposure to the CLCs and the Convention.....	204
I. The types of ships involved	205
II. The number of ships involved.....	205
III. The limitation of liability	205
D. Concluding remarks.....	206
Summary of Study.....	209
A. The concept of compulsory insurance and its compensation purpose.....	211
B. Other features of the Bunkers Convention and their interrelations with compulsory insurance	213
Bibliography	215
Literature	215
Documents.....	223
Appendix: Text of the Bunkers Convention	227
Index	239

Compulsory Insurance and Compensation for Bunker Oil
Pollution Damage

Zhu, L.

2007, XVIII, 242 p., Softcover

ISBN: 978-3-540-45900-2
