

Table of Contents

Chapter I. Martingales and Stochastic Integrals	1
§ 1. Martingales and Their Generalizations	1
§ 2. Stochastic Integrals	46
§ 3. Itô's Formula	67
Chapter II. Stochastic Differential Equations	113
§ 1. General Problems of the Theory of Stochastic Differential Equations	113
§ 2. Stochastic Differential Equations without an After-Effect	155
§ 3. Limit Theorems for Sequences of Random Variables and Stochastic Differential Equations	184
Chapter III. Stochastic Differential Equations for Continuous Processes and Continuous Markov Processes in \mathcal{R}^m	220
§ 1. Itô Processes	220
§ 2. Stochastic Differential Equations for Processes of Diffusion Type	257
§ 3. Diffusion Processes in \mathcal{R}^m	279
§ 4. Continuous Homogeneous Markov Processes in \mathcal{R}^m	317
Remarks	374
Bibliography	377
Appendix: Corrections to Volumes I and II	380
Subject Index	385

The Theory of Stochastic Processes III

Gikhman, I.I.; Skorokhod, A.V.

2007, IX, 387 p., Softcover

ISBN: 978-3-540-49940-4
