# Contents

---

## Part I GOR Unternehmenspreis 2006

---

### Staff and Resource Scheduling at Airports

*Ulrich Dorndorf* ..... 3

---

## Part II GOR Dissertationspreis 2006

---

### Produktionsplanung bei Variantenfließfertigung

*Nils Boysen* ..... 11

### Scheduling Buses and School Starting Times

*Armin Fügenschuh* ..... 17

### Dynamisches Bestandsmanagement in der Kreislauflogistik

*Rainer Kleber* ..... 23

### Periodic Timetable Optimization in Public Transport

*Christian Liebchen* ..... 29

### Determining SMB Superstructures by Mixed-Integer Optimal Control

*Sebastian Sager, Moritz Diehl, Gundeep Singh, Achim Küpper, Sebastian Engell* ..... 37

---

## Part III GOR Diplomarbeitspreis 2006

---

### Complexity of Pure-Strategy Nash Equilibria in Non-Cooperative Games

*Juliane Dunkel* ..... 45

<b>Traffic Optimization Under Route Constraints with Lagrangian Relaxation and Cutting Plane Methods</b>	
<i>Felix G. König</i> .....	53
<b>Fare Planning for Public Transport</b>	
<i>Marika Neumann</i> .....	61
<hr/>	
<b>Part IV Plenary and Semi-Plenary Talks</b>	
<hr/>	
<b>Recent Advances in Robust Optimization</b>	
<i>Aharon Ben-Tal</i> .....	69
<b>Neuro-Dynamic Programming: An Overview and Recent Results</b>	
<i>Dimitri P. Bertsekas</i> .....	71
<b>Basel II – Achievements and Challenges</b>	
<i>Klaus Duellmann</i> .....	73
<b>How to Model Operational Risk If You Must</b>	
<i>Paul Embrechts</i> .....	81
<b>Integer Quadratic Programming Models in Computational Biology</b>	
<i>Harvey J. Greenberg</i> .....	83
<b>On Value of Flexibility in Energy Risk Management. Concepts, Models, Solutions</b>	
<i>Jörg Doege, Max Fehr, Juri Hinz, Hans-Jakob Lüthi, Martina Wilhelm</i> .	97
<b>Bilevel Programming and Price Setting Problems</b>	
<i>Martine Labbé</i> .....	109
<b>Reliable Geometric Computing</b>	
<i>Kurt Mehlhorn</i> .....	111
<b>Financial Optimization</b>	
<i>Teemu Pennanen</i> .....	113
<b>Capital Budgeting: The Role of Cost Allocations</b>	
<i>Ian Gow, Stefan Reichelstein</i> .....	115
<b>An Overview on the Split Delivery Vehicle Routing Problem</b>	
<i>Claudia Archetti, Maria Grazia Speranza</i> .....	123
<b>Collaborative Planning - Concepts, Framework and Challenges</b>	
<i>Hartmut Stadler</i> .....	129

<b>Promoting <math>\varepsilon</math>-Efficiency in Multiple Objective Programming: Theory, Methodology, and Application</b>	
<i>Margaret Wieczek, Alexander Engau</i> .....	131

---

## Part V Business Intelligence, Forecasting and Marketing

---

<b>Combining Support Vector Machines for Credit Scoring</b>	
<i>Ralf Steeking, Klaus B. Schebesch</i> .....	135
<b>Nutzung von Data-Mining-Verfahren zur Indexprognose</b>	
<i>Jonas Rommelspacher</i> .....	141
<b>Zur Entscheidungsunterstützung bei netzeffektbasierten Gütern</b>	
<i>Karl-Heinz Lüke, Klaus Ambrosi, Felix Hahne</i> .....	147

---

## Part VI Discrete and Combinatorial Optimization

---

<b>Nonserial Dynamic Programming and Tree Decomposition in Discrete Optimization</b>	
<i>Oleg Shcherbina</i> .....	155
<b>Mixed-Model Assembly Line Sequencing Using Real Options</b>	
<i>Alireza Rahimi-Vahed, Masoud Rabbani, Reza Tavakkoli-Moghaddam, Fariborz Jolai, Neda Manavizadeh</i> .....	161
<b>A New Approach for Mixed-Model Assembly Line Sequencing</b>	
<i>Masoud Rabbani, Alireza Rahimi-Vahed, Babak Javadi, Reza Tavakkoli-Moghaddam</i> .....	169
<b>On Asymptotically Optimal Algorithm for One Modification of Planar 3-dimensional Assignment Problem</b>	
<i>Yury Glazkov</i> .....	175
<b>A Multi-Objective Particle Swarm for a Mixed-Model Assembly Line Sequencing</b>	
<i>Seyed Mohammed Mirghorbani, Masoud Rabbani, Reza Tavakkoli-Moghaddam, Alireza R. Rahimi-Vahed</i> .....	181
<b>FLOPC++ An Algebraic Modeling Language Embedded in C++</b>	
<i>Tim Helge Hultberg</i> .....	187
<b>Two-Machine No-Wait Flow Shop Scheduling Problem with Precedence Constraints</b>	
<i>Saied Samie, Behrooz Karimi</i> .....	191

<b>A Multi-Commodity Flow Approach for the Design of the Last Mile in Real-World Fiber Optic Networks</b>	
<i>Daniel Wagner, Günther R. Raidl, Ulrich Pferschy, Petra Mutzel, Peter Bachhiesl</i> . . . . .	197

<b>On the Cycle Polytope of a Directed Graph and Its Relaxations</b>	
<i>Egon Balas, Rüdiger Stephan</i> . . . . .	203

<b>Modelling Some Robust Design Problems via Conic Optimization</b>	
<i>Diah Chaerani, Cornelis Roos</i> . . . . .	209

<b>Polynomial Algorithms for Some Hard Problems of Finding Connected Spanning Subgraphs of Extreme Total Edge Weight</b>	
<i>Alexey Baburin, Edward Gimadi</i> . . . . .	215

---

## Part VII Econometrics, Game Theory and Mathematical Economics

---

<b>A Multidimensional Poverty Index</b>	
<i>Gerhard Kocklaeuner</i> . . . . .	223

<b>Parameter Estimation for Stock Models with Non-Constant Volatility Using Markov Chain Monte Carlo Methods</b>	
<i>Markus Hahn, Wolfgang Putschögl, Jörn Sass</i> . . . . .	227

<b>A Simulation Application for Predator-Prey Systems</b>	
<i>Ulrike Leopold-Wildburger, Silja Meyer-Nieberg, Stefan Pickl, Jörg Schütze</i> . . . . .	233

<b>Robustness of Econometric Variable Selection Methods</b>	
<i>Bernd Brandl</i> . . . . .	239

<b>Using Shadow Prices to Reveal Personal Preferences in a Two-Stage Assignment Problem</b>	
<i>Anke Thede, Andreas Geyer-Schulz</i> . . . . .	245

---

## Part VIII Energy and Environment

---

<b>Scheduling of Electrical Household Appliances with Price Signals</b>	
<i>Anke Eßer, Andreas Kamper, Markus Franke, Dominik Möst, Otto Rentz</i> . . . . .	253

<b>Stochastic Optimization in Generation and Trading Planning</b> <i>Thomas Hartmann, Boris Blaessig, Gerd Hinüber,</i> <i>Hans-Jürgen Haubrich</i> .....	259
-----------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

<b>Design of Electronic Waste Recycling System in China</b> <i>Kejing Zhang, Daning Guo, Baoan Yang, Fugen Song</i> .....	265
------------------------------------------------------------------------------------------------------------------------------	-----

<b>A Coherent Spot/Forward Price Model with Regime-Switching</b> <i>Lea Bloechlinger</i> .....	271
---------------------------------------------------------------------------------------------------	-----

---

## Part IX Finance, Banking and Insurance

---

<b>A Management Rule of Thumb in Property-Liability Insurance</b> <i>Martin Eling, Thomas Parnitzke, Hato Schmeiser</i> .....	281
----------------------------------------------------------------------------------------------------------------------------------	-----

<b>Heuristic Optimization of Reinsurance Programs and Implications for Reinsurance Buyers</b> <i>Andreas Mitschele, Ingo Oesterreicher, Frank Schlottmann, Detlef Seese</i>	287
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

<b>Optimizing Credit Risk Mitigation Effects of Collaterals Under Basel II</b> <i>Marc Gürtler, Dirk Heithecker, Martin Hibbeln</i> .....	293
----------------------------------------------------------------------------------------------------------------------------------------------	-----

<b>A New Methodology to Derive a Bank's Maturity Structure Using Accounting-Based Time Series Information</b> <i>Oliver Entrop, Christoph Memmel, Marco Wilkens, Alexander Zeisler</i> ...	299
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

<b>Sensitivity of Stock Returns to Changes in the Term Structure of Interest Rates – Evidence from the German Market</b> <i>Marc-Gregor Czaja, Hendrik Scholz</i> .....	305
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

<b>The Valuation of Localization Investments with Real Options: A Case from Turkish Automotive Industry</b> <i>Gül Gökay Emel, Pinar Özkeserli</i> .....	311
-------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

---

## Part X Health and Life Science

---

<b>ILP Models for a Nurse Scheduling Problem</b> <i>Bettina Klinz, Ulrich Pferschy, Joachim Schauer</i> .....	319
------------------------------------------------------------------------------------------------------------------	-----

<b>Process Optimization and Efficient Personnel Employment in Hospitals</b> <i>Gert Zülch, Patricia Stock, Jan Hrdina</i> .....	325
------------------------------------------------------------------------------------------------------------------------------------	-----

---

**Part XI Logistics and Transport**

---

**Inventory Control in Logistic and Production Networks**
*Bernd Scholz-Reiter, Salima Delhoum* ..... 333
**Vehicle and Crew Scheduling with Flexible Timetable**
*András Kéri, Knut Haase* ..... 339
**Lenk- und Ruhezeiten in der Tourenplanung**
*Asvin Goel, Volker Gruhn* ..... 343
**Transport Channel Selection**
*Jürgen Branke, Denis Häußler, Christian Schmidt* ..... 349
**A Sampling Procedure for Real-Life Rich Vehicle Routing Problems**
*Julia Rieck, Jürgen Zimmermann* ..... 355
**Market-Oriented Airline Service Design**
*Cornelia Schön* ..... 361
**‘T’ for Tabu and Time Dependent Travel Time**
*Johan W. Joubert* ..... 367
**Integrated Operational Transportation Planning in Theory and Practice**
*Herbert Kopfer, Marta Anna Krajewska* ..... 373

---

**Part XII Managerial Accounting and Auditing**

---

**Investment Incentives from Goal-Incongruent Performance Measures: Experimental Evidence**
*Markus C. Arnold, Robert M. Gillenkirch, Susanne A. Welker* ..... 381

---

**Part XIII Metaheuristics and Decision Support Systems**

---

**Modelling Qualitative Information in a Management Simulation Game**
*Volker Nissen, Giorgi Ananidze* ..... 389
**Schedule This - A Decision Support System for Movie Shoot Scheduling**
*Felix Bomsdorf, Ulrich Derigs, Olaf Jenal* ..... 395

<b>A Framework for Truth Maintenance in Multi-Agent Systems</b> <i>Brett Bojduj, Ben Weber, Dennis Taylor</i> .....	403
------------------------------------------------------------------------------------------------------------------------	-----

---

## Part XIV Multi Criteria Decision Theory

---

<b>Preference Sensitivity Analyses for Multi-Attribute Decision Support</b> <i>Valentin Bertsch, Jutta Geldermann, Otto Rentz</i> .....	411
<b>MCDA in Analyzing the Recycling Strategies in Malaysia</b> <i>Santha Chenayah, Agamuthu Periathamby, Eiji Takeda</i> .....	417
<b>Dimensionality Reduction in Multiobjective Optimization: The Minimum Objective Subset Problem</b> <i>Dimo Brockhoff, Eckart Zitzler</i> .....	423
<b>Multikriterielle Entscheidungsunterstützung zur Auswahl von Lagersystemen in der Ersatzteillogistik</b> <i>Gerrit Reiniger, Martin Josef Geiger</i> .....	431

---

## Part XV Network Optimization, Graphs and Traffic

---

<b>Automatic Determination of Clusters</b> <i>Bettina Hoser, Jan Schröder</i> .....	439
<b>Online Dial-A-Ride Problem with Time Windows: An Exact Algorithm Using Status Vectors</b> <i>Anke Fabri, Peter Recht</i> .....	445

---

## Part XVI Operational and Credit Risk

---

<b>Die Anwendung des Verlustverteilungsansatzes zur Quantifizierung operationeller Risiken</b> <i>Frank Beekmann, Peter Stemper</i> .....	453
----------------------------------------------------------------------------------------------------------------------------------------------	-----

---

## Part XVII Production and Supply Chain Management

---

<b>Betriebskennlinien-Management als Performancemessungs- und -planungskonzept bei komplexen Produktionsprozessen</b> <i>Dirk Eichhorn, Alexander Schömig</i> .....	461
------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

<b>Über verschiedene Ansätze zur Ermittlung von Betriebskennlinien – Eine Anwendungsstudie aus der Halbleiterindustrie</b> <i>Alexander Schömig, Dirk Eichhorn, Georg Obermaier</i> .....	467
<b>The Use of Chance Constrained Programming for Disassemble-to-Order Problems with Stochastic Yields</b> <i>Ian M. Langella, Rainer Kleber</i> .....	473
<b>Optimal Usage of Flexibility Instruments in Automotive Plants</b> <i>Gazi Askar, Jürgen Zimmermann</i> .....	479
<b>Comparison of Stochastic- and Guaranteed-Service Approaches to Safety Stock Optimization in Supply Chains</b> <i>Steffen Klosterhalfen, Stefan Minner</i> .....	485
<b>A Stochastic Lot-Sizing and Scheduling Model</b> <i>Sven Grothklags, Ulf Lorenz, Jan Wesemann</i> .....	491
<b>A Disassemble-to-Order Heuristic for Use with Constrained Disassembly Capacities</b> <i>Tobias Schulz</i> .....	497
<b>Supply Chain Management and Advanced Planning in the Process Industries</b> <i>Norbert Trautmann, Cord-Ulrich Fündeling</i> .....	503
<b>Production Planning in Dynamic and Seasonal Markets</b> <i>Jutta Geldermann, Jens Ludwig, Martin Treitz, Otto Rentz</i> .....	509
<b>A Branch and Bound Algorithm Based on DC Programming and DCA for Strategic Capacity Planning in Supply Chain Design for a New Market Opportunity</b> <i>Nguyen Canh Nam, Le Thi Hoai An, Pham Dinh Tao</i> .....	515

---

## Part XVIII Scheduling and Project Management

---

<b>Branching Based on Home-Away-Pattern Sets</b> <i>Dirk Briskorn, Andreas Drexl</i> .....	523
<b>Priority-Rule Methods for Project Scheduling with Work Content Constraints</b> <i>Cord-Ulrich Fündeling</i> .....	529

<b>Entscheidungsunterstützung für die Projektportfolioplanung mit mehrfacher Zielsetzung</b>	
<i>Antonia Maria Knübel, Natalia Kliewer</i> .....	535
<b>Eine Web-Service basierte Architektur für ein Multi-Agenten System zur dezentralen Multi-Projekt Planung</b>	
<i>Jörg Homberger, Raphael Vullriede, Jörn Horstmann, René Lanzl, Stephan Kistler, Thomas Göttlich</i> .....	541
<b>Approaches to Solving RCPSP Using Relaxed Problem with Consumable Resources</b>	
<i>Ivan A. Rykov</i> .....	547

---

## Part XIX Simulation and Applied Probability

---

<b>Risk-Sensitive Optimality Criteria in Markov Decision Processes</b>	
<i>Karel Sladký</i> .....	555
<b>Trading Regions Under Proportional Transaction Costs</b>	
<i>Karl Kunisch, Jörn Sass</i> .....	563
<b>Uniform Random Rational Number Generation</b>	
<i>Thomas Morgenstern</i> .....	569
<b>The Markov-Modulated Risk Model with Investment</b>	
<i>Mirko Kötter, Nicole Bäuerle</i> .....	575
<b>Optimal Portfolios Under Bounded Shortfall Risk and Partial Information</b>	
<i>Ralf Wunderlich, Jörn Sass, Abdelali Gabih</i> .....	581
<b>OR for Simulation and Its Optimization</b>	
<i>Nico M. van Dijk, Erik van der Sluis</i> .....	587

---

## Part XX Stochastic Programming

---

<b>Multistage Stochastic Programming Problems; Stability and Approximation</b>	
<i>Vlasta Kanková</i> .....	595
<b>ALM Modeling for Dutch Pension Funds in an Era of Pension Reform</b>	
<i>Willem K. Klein Haneveld, Matthijs H. Streutker, Maarten H. van der Vlerk</i> .....	601

---

**Part XXI System Dynamics and Dynamic Modelling**

---

**Identifying Fruitful Combinations Between System Dynamics  
and Soft OR**

*Myrjam Stotz, Andreas Größler* ..... 609

Operations Research Proceedings 2006  
Selected Papers of the Annual International  
Conference of the German Operations Research  
Society (GOR), Jointly Organized with the Austrian  
Society of Operations Research (ÖGOR) and the Swiss  
Society of Operations Research (SVOR)  
Waldmann, K.-H.; Stocker, U.M. (Eds.)  
2007, XX, 616 p., Softcover  
ISBN: 978-3-540-69994-1
