# Contents

<b>Introduction</b> .....	1
<b>1</b> <b>Beginnings of Communication Technology in the 20th Century</b> .....	7
1.1    Communication Network .....	9
1.2    Network Analyses .....	20
1.3    Ernst A. Guillemin, Lotfi A. Zadeh, Dr. Jekyll and Mr. Hyde .	32
1.4    Ideal and Optimum Filters .....	39
1.5    Generalizations.....	45
1.6    Let's go digital! .....	48
1.6.1    A View from 1950 into the Future of 1965 .....	55
1.6.2    System Theory.....	57
1.6.3    From System Theory to the Theory of Fuzzy Systems ..	63
<b>2</b> <b>Logical Tolerance, <i>Ensembles Flous</i> and <i>Probabilistic Metrics</i></b> .....	65
2.1    The Vienna Circle .....	65
2.2    Karl Menger: "From the Criterion of Meaning to the Principle of Tolerance" .....	77
2.2.1    Menger's Conventionalism .....	85
2.2.2    Alfred Tarski's Support .....	89
2.2.3    The Principle of Logical Tolerance .....	93
2.3    Probabilistic or Statistical Metrics and <i>Ensembles Flous</i> .....	98
<b>3</b> <b>General Systems Theory and Cybernetics</b> .....	111
3.1    General Systems Theory.....	113
3.2    Cybernetics .....	120
3.3    Communication Theory .....	129
3.4    "The Cybernetics Group" .....	137
3.5    Von Neumann, the Computer and the Brain .....	148
3.6    Pattern Recognition with the Perceptron .....	153
3.7    Automata .....	158

<b>4</b>	<b>From Circuit Theory to System Theory</b>	165
4.1	Dynamic Programming	167
4.2	Identification Problems and a “Time Out” in Princeton	170
4.3	“Optimal Fetishism”, Expanded Linearity Concepts and Adaptive Systems	176
4.3.1	Optimality	177
4.3.2	Linearity	179
4.3.3	“Non-Inferiority”	180
4.3.4	Adaptivity	183
4.4	Zadeh’s System Theory	186
4.4.1	The State Space Approach	188
4.4.2	A Renaissance of General Systems Theory?	192
4.4.3	System States as Input-Output State Relation Pairs	195
4.5	Zadeh’s Decision	197
<b>5</b>	<b>Fuzzy Sets and Fuzzy Systems</b>	201
5.1	The Genesis of Fuzzy Set Theory	203
5.2	Fuzzy Sets and Fuzzy Systems	212
5.2.1	Fuzzy Sets	213
5.2.2	Fuzzy Systems	215
5.2.3	Fuzzy Classes of Systems	216
5.2.4	Optimization under Fuzzy Conditions	217
5.2.5	First Papers on Fuzzy Sets	218
5.3	The Article <i>Fuzzy Sets</i>	219
5.4	An Interpretation for Unions and Intersections	224
5.5	System Theory and Fuzzy Systems	228
<b>6</b>	<b>Fuzzifications</b>	235
6.1	Reactions	235
6.2	Fuzzy Automata	241
6.3	Fuzzy Algorithms	245
6.4	Fuzzy Turing Machines	254
6.5	Fuzzifications of Elements of Mathematical Theory	254
6.6	Other Fuzzifications	259
6.7	Fuzzy Control	266
6.8	The First “Fuzzy Logic Controller” for Controlling a Steam Engine	270
<b>7</b>	<b>The Fuzzification of Medical Diagnostics</b>	283
7.1	Mechanization in Medical Diagnostics	286
7.2	Biomedicine and Digital Computers	288
7.3	Computer Systems in Medicine	303
7.4	Computer-Assisted Diagnosis at Vienna General Hospital	307
7.4.1	CADIAG	309
7.4.2	CADIAG-I	314
7.4.3	From CADIAG-I to CADIAG-II	317

7.5	Fuzziness in Medicine .....	320
7.5.1	“Medical Knowledge” .....	325
7.5.2	CADIAG-II.....	331
<b>8</b>	<b>Conclusion</b> .....	<b>337</b>
	<b>Afterword by Lotfi A. Zadeh</b> .....	<b>351</b>
	<b>References</b> .....	<b>353</b>
	<b>List of Figures</b> .....	<b>391</b>
	<b>Index of Names</b> .....	<b>399</b>
	<b>Index of Subjects</b> .....	<b>405</b>

The Fuzzification of Systems

The Genesis of Fuzzy Set Theory and its Initial  
Applications - Developments up to the 1970s

Seising, R.

2007, XXV, 412 p., Hardcover

ISBN: 978-3-540-71794-2
