

Contents

Preface	vii
1 Elementary theory of one-parameter semigroups	1
1.1 Mean ergodic theorems	1
1.2 Elementary theory of C_0 -semigroups	23
1.3 Constrictive and quasi-constrictive semigroups	43
2 Positive semigroups in ordered Banach spaces	65
2.1 Ordered Banach spaces, constrictors, domination	65
2.2 Positive semigroups in Banach lattices	80
2.3 Positive semigroups and geometry of Banach lattices	102
3 Positive semigroups in L^1-spaces	117
3.1 Mean ergodicity of positive semigroups in L^1 -spaces	117
3.2 Stability and lower-bounds for positive semigroups in L^1 -spaces . .	135
3.3 Positive semigroups in non-commutative L^1 -spaces	144
Bibliography	159
List of special symbols	173
