

Contents

Preface	vii
 <i>T.Ya. Azizov and L.I. Soukhhotcheva</i>	
Linear Operators in Almost Krein Spaces	1
 <i>J. Behrndt, A. Luger and C. Trunk</i>	
Generalized Resolvents of a Class of Symmetric Operators in Krein Spaces	13
 <i>J. Behrndt, H. Neidhardt and J. Rehberg</i>	
Block Operator Matrices, Optical Potentials, Trace Class Perturbations and Scattering	33
 <i>V. Derkach, S. Hassi and H. de Snoo</i>	
Asymptotic Expansions of Generalized Nevanlinna Functions and their Spectral Properties	51
 <i>A. Fleige</i>	
A Necessary Aspect of the Generalized Beals Condition for the Riesz Basis Property of Indefinite Sturm-Liouville Problems	89
 <i>K.-H. Förster and B. Nagy</i>	
On Reducible Nonmonic Matrix Polynomials with General and Nonnegative Coefficients	95
 <i>S. Hassi, H. de Snoo and H. Winkler</i>	
On Exceptional Extensions Close to the Generalized Friedrichs Extension of Symmetric Operators	111
 <i>P. Jonas and H. Langer</i>	
On the Spectrum of the Self-adjoint Extensions of a Nonnegative Linear Relation of Defect One in a Krein Space	121
 <i>M. Kaltenböck and H. Woracek</i>	
Canonical Differential Equations of Hilbert-Schmidt Type	159
 <i>I. Karabash and A. Kostenko</i>	
Spectral Analysis of Differential Operators with Indefinite Weights and a Local Point Interaction	169

<i>C. Mehl and C. Trunk</i>	
Normal Matrices in Degenerate Indefinite Inner Product Spaces	193
<i>V. Pivovarchik</i>	
Symmetric Hermite-Biehler Polynomials with Defect	211
<i>L. Rodman</i>	
A Note on Indefinite Douglas' Lemma	225
<i>A. Sandovici</i>	
Some Basic Properties of Polynomials in a Linear Relation in Linear Spaces	231

Operator Theory in Inner Product Spaces

Förster, K.-H.; Jonas, P.; Langer, H.; Trunk, C. (Eds.)

2007, VII, 240 p., Hardcover

ISBN: 978-3-7643-8269-8

A product of Birkhäuser Basel
