

Preface

This volume contains the proceedings of the IFIPTM 2008, the Joint iTrust and PST Conferences on Privacy, Trust Management and Security, held in Trondheim, Norway from June 18 to June 20, 2008.

IFIPTM 2008 provides a truly global platform for the reporting of research, development, policy and practice in the interdependent areas of Privacy, Security, and Trust. Following the traditions inherited from the highly successful iTrust and PST conference series, IFIPTM 2008 focuses on trust, privacy and security from multidisciplinary perspectives. The conference is an arena for discussion about relevant problems from both research and practice in the areas of academia, business, and government.

IFIPTM 2008 is an open IFIP conference, which only accepts contributed papers, so all papers in these proceedings have passed strict peer review. The program of the conference features both theoretical research papers and reports of real world case studies. IFIPTM 2008 received 62 submissions. The program committee selected 22 papers for presentation and inclusion in the proceedings. In addition, the program and the proceedings include 3 demo descriptions.

The highlights of IFIPTM 2008 include invited talks and tutorials by industrial and academic experts in the fields of trust management, privacy and security, including Jon Bing and Michael Steiner.

Running of an international conference requires an immense effort from all parties involved. We would like to thank the program committee members and several other external referees for having provided timely and in-depth reviews of the submitted papers. In particular, we appreciate the logistics support provided by the Norwegian University of Science and Technology (NTNU).

We are grateful to the Norwegian University of Science and Technology (NTNU), the Research Council of Norway (NFR) and SAP Research for their financial support for IFIPTM 2008.

We hope you enjoy the proceedings and the conference.
