Chapter 1	Culture and Medical Practice	1
	What Is Culture?	1
	Culture	1
	Race	2
	Ethnicity	2
	Minority	2
	Social Class	3
	Culture and Illness Behavior	3
	The Distinction between “Disease” and “Illness”	4
	Folk Concepts and Explanations of Illness	4
	Supernatural Explanations	4
	Natural Explanations	6
	Somato-Medical Explanations	6
	Traditional Medicine: Theory and Practice	7
	Culture of Patients, Physicians, and “Medical Culture”	8
	The Culture of Patient	8
	The Culture of Physician	8
	The Medical Culture	9
	The Relationship Between Medical Providers and the Patient	9
	The Physician-Patient Relationship	9
	Patient’s Relation with the Medical Team	10
	Patient’s Commitment to a Physician	11
	Patient’s Satisfaction with Physician	11
	Privacy and Confidentiality	12
	Privacy	12
	Confidentiality	12
	Cultural Competence: Fundamental Requirements	12
Chapter 2	Cultural Competence in Healthcare Specialties	15
	Care by Physicians	15
	Care by Nurses	18
	General Issues	18

Special Issues Relating to Nursing Care	19
Care by Social Workers	20
Common Issues	20
Special Functions and Services	21
Care by Physical Therapists	21
The Concept of Physical Therapy	21
Cultural Aspects of Physical Contact.	22
Dietary	22
Cultural Aspects of Food	22
Chapter 3 Culture and Clinical Assessment	27
Presentation of Problems	27
Understanding Patient's Medical Knowledge	28
History Taking	29
Doctor-Patient Relationship	30
The Use of Interpreters.	31
Subjects Likely to be Culturally Influenced.	32
Care of Children	32
Pregnancy, Childbirth, and Postpartum Care	33
Breast Cancer	33
Sexual Orientation and Behavior	34
Menstruation and Menopause	34
Death.	34
The Physical Examination	35
Diagnostic Tests	37
Chapter 4 Healthcare for People of Different Ethnicities.	41
African-Americans	41
Overview.	41
Biological Variations	42
Medical Disorders	42
Health Beliefs and Practice	43
Some Issues Relating to Clinical Care.	43
Native American Groups	44
Overview.	44
Common Concepts and Beliefs Relating to Health and Illness.	45
Common Medical Disorders	45
Issues Related to Healthcare	45
Muslims and Arab Americans	47
Overview.	47
Common Concepts, Beliefs, and Attitudes Relating to Health	47

Cultural Considerations Relating to Some Medical Practices	48
Asian-American Groups	49
Overview	49
Common Concepts and Beliefs Relating to Health	50
Medical Disorders More Common in Asians	51
Cultural Considerations in Certain Medical Issues	51
Caucasian-American Groups	52
Overview	52
Irish-Americans	53
Italian Americans	54
Jewish-Americans	55
The Amish	56
Hispanic-American Groups	58
Overview	58
Common Concepts and Beliefs Relating to Health	58
Medical Disorders Common in Hispanics	59
Healthcare Issues	59
Chapter 5 Culture and Medical Diseases	63
Culture-Related Perceptions of Certain Medical Diseases	63
Venereal Diseases, Including AIDS	63
Cancer	64
Leprosy	65
Pulmonary Tuberculosis	65
Epilepsy	66
Malaria	67
Dementia	67
Case Vignette	69
Culture and Prevalence of Certain Medical Disorders	69
Coronary Heart Disease	70
Cervical Cancer	71
Obesity	71
Culture, Food Intake, and Medical Disorders	72
Chapter 6 Culture and Mental Disorders	75
Cultural Aspects of Psychiatric Issues in the Care of Patients	75
Psychological Problems: Normality versus Pathology	75
Professional Definition	76
Deviation from the Mean	77
Assessment of Function	77
Social Definition	78
Presentation of Problems and Clinical Assessment	78

Experience of Problems or Distress (by the Patient)	79
Perception of Problems or Disorders (by the Patient)	80
Presentation of Complaints or Illness (by the Patient or His or Her Family)	80
Perception and Understanding of the Disorder (by the Clinician)	81
The Ways in Which Culture Contributes to Psychopathology	82
Pathoplastic Effects	82
Pathoselective Effects	83
Pathofacilitative Effects	83
Pathogenic Effects	84
Cultural Influences on Types of Psychopathology	84
Depression	84
Anxiety and Related Disorders	87
Somatization Disorders	88
Conversion and Dissociation Disorders	88
Culture-Related Specific Psychiatric Syndromes	89
Schizophrenia	91
Substance Abuse and Dependency	91
Suicidal Behavior	91
Mental Disorders Associated with Brain Dysfunction	92
Personality Disorders	93
Psychopharmacological Therapy	94
Psychological Therapy	94
Chapter 7 Culture and Medical Care	97
Outpatient Care	97
Family Physician System	97
Cultural Aspects of Hospitalization	98
Hospital Admission	98
The Experience of Hospitalization	98
Medical Rules and Restrictions	99
A Patient's Uniform	99
Physicians' Rounds	99
Informing the Patient and Family of the Diagnosis	100
Disclosure of <i>Bad News</i> about Terminal Illness	101
Consent for Medical Examination and Treatment	102
Implication of Making Consent	102
Understanding Medical Authorization Documents	103
Prescribing and Taking Medication	103
Patients' Beliefs and Attitudes toward Medication	103
Physicians' Patterns of Prescribing Medication	104
Family Involvement in Medical Care	105
Referral to Other Specialists	105

Implications of Referral	105
Obtaining Psychiatric Consultation	106
Discharge from the Hospital.	106
Implication of Discharge	106
Follow-up	107
Chapter 8 Culture and Special Medical Issues	109
Some Medically-Related Special Issues	109
Circumcision.	109
Genital Mutilation (Girls' Circumcision).	110
Childhood Obesity	110
Child Abuse and Neglect	111
Sexual Abuse	111
Pain Management.	113
Issues Relating to Surgery	114
Cesarian Section.	115
Blood Transfusion	115
Organ Donation and Transplantation	116
Sterilization, Hysterectomy, and Artificial Insemination.	117
Abortion and Infanticide.	119
Adjustment to Aging	120
Death and Dying.	121
Ending Life.	122
Legal Definition of Death.	122
Grief and Mourning	123
Physician-Assisted Suicide and Euthanasia.	123
Autopsy.	124
Chapter 9 Conclusions	127
Relevance of Focusing on Culture	127
Characteristics of the Culturally Competent Provider.	128
Cultural Sensitivity.	128
Cultural Knowledge	128
Cultural Empathy	128
Culturally Relevant Relations and Interactions	129
Culturally Appropriate Health Care Delivery	129
Cultural Guidance.	129
Awareness of Healthcare Provider's Own Culture.	130
Medical Universality versus Cultural Relativism.	130
Confronting Medically Dangerous Cultural Beliefs	131
Cultural Considerations for Minorities	131
Cultural Considerations for Every Patient and Family	132
Index	133
About the Authors	137
