

Contents

Section 1 The Life of a Scientist	1
1. Introduction to the <i>Festschrift</i>	3
Fredericka B. Oakley	
2. Elwyn LaVerne Simons: A Very Personal View	7
Friderun Ankel-Simons	
3. A Personal Reminiscence of Elwyn	13
David Pilbeam	
4. Sir Wilfrid Le Gros Clark: The Making of a Paleoanthropologist	19
Bernard Wood	
5. Sir Wilfrid Le Gros Clark: Personal Recollections of Le Gros	35
Elwyn Simons	
6. Human Evolution and the Challenge of Creationism: A speech given at Duke University, September 16, 2005	41
John B. Oakley	
Section 2 The Fayum and Other Fossil Adventures	47
7. Five Decades in the Fayum	51
Elwyn Simons, Prithijit Chatrath, Christopher C. Gilbert and John G. Fleagle	
8. Geology, Paleoenvironment, and Age of Birket Qarun Locality 2 (BQ-2), Fayum Depression, Egypt	71
Erik R. Seiffert, Thomas M. Bown, William C. Clyde and Elwyn Simons	

9. Eocene and Oligocene Mammals of the Fayum, Egypt	87
Elwyn Simons	
10. Early Evolution of Whales: A Century of Research in Egypt	107
Philip D. Gingerich	
11. The Basicranial Anatomy of African Eocene/Oligocene Anthropoids. Are There Any Clues for Platyrrhine Origins?	125
Richard F. Kay, Elwyn Simons and Jennifer L. Ross	
12. Paleontological Exploration in Africa: A View from the Rukwa Rift Basin of Tanzania	159
Nancy J. Stevens, Michael D. Gottfried, Eric M. Roberts, Saidi Kapilima, Sifa Ngasala and Patrick M. O'Connor	
13. Return to Dor al-Talha: Paleontological Reconnaissance of the Early Tertiary of Libya	181
D. Tab Rasmussen, Sefau O. Tshakreen, Miloud M. Abugares and Joshua B. Smith	
14. Revisiting Haritalyangar, the Late Miocene Ape Locality of India	197
Rajeev Patnaik	
15. Revisiting Primate Postcrania from the Pondaung Formation of Myanmar: The Purported Anthropoid Astragalus	211
Gregg F. Gunnell and Russell L. Ciochcon	
16. A Haplorhine First Metatarsal from the Middle Eocene of China . . .	229
Daniel L. Gebo, Marian Dagosto, K. Christopher Beard, Xijun Ni and Tao Qi	
17. New Data on <i>Loveina</i> (Primates: Omomyidae) from the early Eocene Wasatch Formation and Implications for Washakiin Relationships	243
Patricia A. Holroyd and Suzanne G. Strait	
18. The Behavioral Ecology of our Earliest Hominid Ancestors	259
R. W. Sussman and Donna Hart	
Section 3 Primates from Madagascar and Elsewhere	281
19. Decades of Lemur Research and Conservation: The Elwyn Simons Influence.	283
Patricia C. Wright	

20. Low Fetal Energy Deposition Rates in Lemurs: Another Energy Conservation Strategy	311
Chris Tilden	
21. Old Lemurs: Preliminary Data on Behavior and Reproduction from the Duke University Primate Center	319
Linda Taylor	
22. Peculiar Tooth Homologies of the Greater Bamboo Lemur (<i>Prolemur</i> = <i>Hapalemur simus</i>): When is a Paracone Not a Paracone?	335
Jukka Jernvall, Christopher C. Gilbert and Patricia C. Wright	
23. How Big were the “Giant” Extinct Lemurs of Madagascar?	343
William L. Jungers, Brigitte Demes and Laurie R. Godfrey	
24. Ghosts and Orphans: Madagascar’s Vanishing Ecosystems	361
Laurie R. Godfrey, William L. Jungers, Gary T. Schwartz and Mitchell T. Irwin	
25. Vicariance vs. Dispersal in the Origin of the Malagasy Mammal Fauna	397
Ian Tattersall	
26. On the Brink of Extinction: Research for the Conservation of the Tonkin Snub-nosed Monkey (<i>Rhinopithecus avunculus</i>)	409
Herbert H. Covert, Le Khac Quyet and Barth W. Wright	
Appendix: Publications by Elwyn Simons Through 2006	429
Subject Index	445

Elwyn Simons: A Search for Origins

Fleagle, J.G.; Gilbert, C.C. (Eds.)

2008, XIV, 466 p. 161 illus., Hardcover

ISBN: 978-0-387-73895-6
