

Contents

Preface.....	v
1. Uses of Dosimetry Information in Nuclear Medicine	1
2. Fundamental Concepts: Calculating Radiation Dose	9
3. Models and Resources for Internal Dose Calculations	33
4. Steps in Dose Calculations	77
5. Case Studies	119
6. Biological Effects of Radiation	171
7. Regulatory Aspects of Dose Calculations	201
Index	221
