

Contents

Contributing Authors	ix
Preface	xvii
PART I THEMES AND ISSUES	
1	
Emergent Risks in Critical Infrastructures	3
<i>Scott Dynes</i>	
2	
Cyberspace Policy for Critical Infrastructures	17
<i>Dorsey Wilkin, Richard Raines, Paul Williams and Kenneth Hopkinson</i>	
PART II INFRASTRUCTURE SECURITY	
3	
Security Assessment of a Turbo-Gas Power Plant	31
<i>Marcelo Masera, Igor Nai Fovino and Rafal Leszczyna</i>	
4	
Detecting Cyber Attacks on Nuclear Power Plants	41
<i>Julian Rrushi and Roy Campbell</i>	
PART III CONTROL SYSTEMS SECURITY	
5	
Applying Trusted Network Technology to Process Control Systems	57
<i>Hamed Okhravi and David Nicol</i>	
6	
Towards a Taxonomy of Attacks Against Energy Control Systems	71
<i>Terry Fleury, Himanshu Khurana and Von Welch</i>	

7		
Attribution of Cyber Attacks on Process Control Systems	87	
<i>Jeffrey Hunker, Robert Hutchinson and Jonathan Margulies</i>		
8		
Modeling and Detecting Anomalies in SCADA Systems	101	
<i>Nils Svendsen and Stephen Wolthusen</i>		
9		
Assessing the Integrity of Field Devices in Modbus Networks	115	
<i>Ryan Shayto, Brian Porter, Rodrigo Chandia, Mauricio Papa and Sujeet Sheno</i>		
10		
Designing Security-Hardened Microkernels for Field Devices	129	
<i>Jeffrey Hieb and James Graham</i>		
11		
Combating Memory Corruption Attacks on SCADA Devices	141	
<i>Carlo Bellettini and Julian Rrushi</i>		
12		
Mitigating Accidents in Oil and Gas Production Facilities	157	
<i>Stig Johnsen</i>		
PART IV SECURITY STRATEGIES		
13		
Automated Assessment of Compliance with Security Best Practices	173	
<i>Zahid Anwar and Roy Campbell</i>		
14		
Collaborative Access Control for Critical Infrastructures	189	
<i>Amine Baina, Anas Abou El Kalam, Yves Deswarte and Mohamed Kaaniche</i>		
PART V INFRASTRUCTURE INTERDEPENDENCIES		
15		
Modeling Dependencies in Critical Infrastructures	205	
<i>Albert Nieuwenhuijs, Eric Luijff and Marieke Klaver</i>		
16		
Metrics for Quantifying Interdependencies	215	
<i>Emiliano Casalicchio and Emanuele Galli</i>		

17		
An Integrated Approach for Simulating Interdependencies	229	
<i>Roberto Setola, Sandro Bologna, Emiliano Casalicchio and Vincenzo Masucci</i>		
PART VI INFRASTRUCTURE MODELING AND SIMULATION		
18		
Simulation of Advanced Train Control Systems	243	
<i>Paul Craven and Paul Oman</i>		
19		
An Integrated Methodology for Critical Infrastructure Modeling and Simulation	257	
<i>William Tolone, Seok-Won Lee, Wei-Ning Xiang, Joshua Blackwell, Cody Yeager, Andrew Schumpert and Wray Johnson</i>		
20		
Using 3D Models and Discrete Simulations in Infrastructure Security Applications	269	
<i>Pierluigi Assogna, Glauco Bertocchi, Alberto Paoluzzi, Michele Vicentino, Giorgio Scorzelli and Roberto Zollo</i>
