AUTHOR	v	3. Test and Permanent Occlusion of the Internal Carotid Artery	25
CO-AUTHORS	vii	4. Inferior Petrosal Sinus Sampling	26
CONTRIBUTORS	ix	5. Instrumentation in Endoscopic Skull Base Surgery	29
DEDICATION	xi	1. Introduction	29
FOREWORD	xiii	2. Rigid Endoscopes	29
PREFACE	xv	3. Irrigation Sheaths and Pumps	29
1. Introduction.	1	4. Pneumatic Holding Arms	30
1. The Evolution from the Open Craniotomy to Fully Endoscopic Skull Base Surgery.	1	5. Xenon Light Sources	31
2. Endoscopic Skull Base Surgery in Practice	2	6. High-Definition Digital Cameras	31
2. Anesthetic Considerations in Endoscopic Skull Base Surgery	5	7. Digital Monitors	31
1. Introduction	5	8. DVD Recorders	31
2. Preoperative Assessment	5	9. Polaroid Digital Printers	31
3. General Considerations	6	10. Cranial Nerve Monitors	31
4. Special Considerations	6	11. Microdrill Handpieces, Attachments, and Burrs	32
5. Future Challenges	9	12. Micro-Cavitron Ultrasonic Surgical Aspirator (MicroCUSA) Handpieces and Tips	32
3. Neuroendocrine Aspects of Skull Base Surgery	11	13. Specialized Endoscopic Microinstruments	33
1. Introduction	11	6. The Fully Endoscopic Endonasal Approach.	43
2. Pituitary Tumors	12	1. Introduction	43
3. Hormonal Deficiencies Caused by Pituitary Tumors	16	2. Indications	43
4. Long-term Follow-up of Patients with a Pituitary Tumor	18	3. Instrumentation	43
4. Interventional Neuroradiology Aspects of Skull Base Surgery	21	4. Operating Room Setup	43
1. Introduction	21	5. Patient Positioning	44
2. Embolization of Skull Base Tumors	21	6. Operative Technique	45
		7. Illustrative Cases	48
		8. Potential Complications	60
		9. Avoiding Complications in Author's Experience	65

7. The Fully Endoscopic Transglabellar Approach	73	9. The Fully Endoscopic Retrosigmoid Approach	109
1. Introduction	73	1. Introduction	109
2. Indications	73	2. Indications	109
3. Instrumentation	73	3. Instrumentation	109
4. Operating Room Setup	73	4. Operating Room Setup	109
5. Patient Positioning	74	5. Patient Positioning	110
6. Operative Technique	74	6. Operative Technique	110
7. Illustrative Cases	76	7. Illustrative Cases	113
8. Potential Complications	80	8. Potential Complications	130
9. Avoiding Complications in Author's Experience	82	9. Avoiding Complications in Author's Experience	171
8. The Fully Endoscopic Supraorbital Approach	89	10. The Fully Endoscopic Subtemporal Approach	173
1. Introduction	89	1. Introduction	173
2. Indications	89	2. Indications	173
3. Instrumentation	90	3. Instrumentation	173
4. Operating Room Setup	90	4. Operating Room Setup	174
5. Patient Positioning	90	5. Patient Positioning	174
6. Operative Technique	90	6. Operative Technique	174
7. Illustrative Cases	93	7. Illustrative Cases	178
8. Potential Complications	101	8. Potential Complications	179
9. Avoiding Complications in Author's Experience	107	9. Avoiding Complications in Author's Experience	183
